THE GERMAN PRESS IS NOT IN HARMONY

Friday's Speech of Count Von Bulow Is Discussed from Various Standpoints-A Gala Week,

(Copyrighted, 1900, by Associated Press.) Berlin, January 20 .- During the coming reek the naval bill will be the main politloal topic. It is surmised the measure will reach the reichstag early in the week, as the bundeerath has expressed its readiness to pass it. Its fate in the reichstag, parliamentarians now say, probably is by no means assured, though it is predicted that enough members of the central party will support the bill to enable its passage. The force of recent events has been telling altogether in favor of the measure and an enormous amount of agitation on the subject has been made by the fleet enthusiasts throughout the empire. Judging from the present prospect the correspandent of the Associated Press can foretell that the naval bill on which the emperor's whole heart hangs, will be passed after a number of assurances and explans. about there being no need of ne taxes from the government, though with Republicans Allege a Conspiracy. the smallest majority.

The German press today comments lib-

erally on yesterday's interpellation in the g on the seizure of German steam-British cruisers. The Lokal An-"The whole session showed telger says: that since the English answer was known

ants.

The Duke of York, by the way, has placed himself at the disposition of the admiratty and will probably receive a command. But, though he intimated that command. But, though he intimated that he was desirous of duty with the Cape aquadron, he will not attain his desiro for the same reasons which prevented the Duke of Connaught from going to the front. No one was more anxious to go out than the Duke of Cambridge. Realizing, however, that this was utterly impossible he concoles himself by making life miserable for the high war officials. He is continually appearing with some new augsestion and is generally being turned over to General Sir Evelyn Wood, adjutant general of the forces, who is very deaf. So firmly is the Duke of Cambridge convinced that his advice is essential to the country's existence that he will not take his usual winter trip to the continent.
