FOR ALL THE PURPOSES OF A

FAMILY PHYSIC.

THERE has long existed a public demand for an effective purgative pill which could be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical pill, but not easy to make the best of all pills—one which should have none of the objections, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is acrimonious and irritating to the bow-els. This is not. Many of them produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from them. These pills produce no irritation or pain, unless it arise from a previously existing obstruction or derangement in the bowels. Being purely vegetable, no harm can arise from their use in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the com-plaints which have been speedily cured by them, we may mention Liver Complaint, in its various forms of Jaundice, Indigestion, Languer and Loss of Ap petite, Listlessness, Irritability, Bilious Headsche Bilious Fever, Fever and Ague, Pain in the Side and Loins; for, in truth, all these are but the consequence of diseased action in the liver. As an aperient they afford prompt and sure relief in Costiveness, Piles, Colic, Dysentery, Humors, Scrofula and Scurvy, Colds with soreness of the body, Ulcers and impurity of the blood; in short, any and every case where a purgative is required.

They have also produced some singularly successful cures in Rheumatism, Gout, Dropsy, Gravel, Erysipelas, Palpitation of the Heart, Pains in the

Back, Stomach, and Side. They should be freely taken in the spring of the year, to purify the blood and prepare the system for the change of seasons An occasional dose stimulates the stomach and bowels into healthy action, and restores the appe-tite and vigor. They purify the blood, and, by their stimulant action on the circulatory system, reno vate the strength of the body, and restore the wasted or diseased energies of the whole organism. Hence an occasional dose is advantageous, even though no serious derangement exists; but un-necessary dosing should never be carried too far, as every purgative medicine reduces the strength when taken to excess. The thousand cases in which a physic is required cannot be enumerated here, but they suggest themselves to the reason of every body; and it is confidently believed this pill will answer a better purpose than any thing which has hitherto been available to mankind. When their virtues are once known, the public will no longer doubt what remedy to employ when in need of a cathartic medicine. Being sugar-wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.

For minute directions see wrapper on the Box. PREPARED BY JAMES C. AYER, Practical and Analytical Chemist, LOWELL, MASS.

CONSUMPTION. THIS remedy has won for itself such notoriety from its cures of every variety of pulmonary disease, that it is entirely unnecessary to recount the evies of its virtues in any community where it has been employed. So wide is the field of its usefulness, and so numerous the cases of its cures, that almost every section of the country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtnes are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs which are incident to our climate. And not only in formidable attacks upon the lungs, but for the milder varieties of Colins, Coughs, Hoanseness, &c.; and for CHILDREN it is the pleasantest and safest medicine

that can be obtained.

As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best that it ever has been, and that the genuine article is sold by -BERRY & DEMOVILLE, Wholesale, Nashville, and Re-all by BROWN & GRUBBS, Nashville; and sold by all lealers in medicine in every town in Tennessee. 139-dmintrionwaw

TO THE PUBLIC Of the United States.

A N advertisement of Mr. UDOLPHO WOLFE, lately pub-A lished, as I suppose, intended for the protection of his Schiedam Schnapps against counterfeiters, has come under my observation, and being engaged in the manufacture of Schiedam Schiapps, were I to let it pess without notice through this medium, I might be considered among those he den minutes "Pirates and Venders of Polars;" but the immense patronage and success that has attended the sale of the article manufactured by me, and the opinion of competent judges as to its qualities as a beverage and its medicinal virties, precludes the possibility of the idea that I am included among those he designs to impugn. No doubt he feels aggreeved at the depreciation of the sale of his Schnappe, which is manifest to all, since mine has been brought into competition with his. Not only have I succeeded in competing with him in quality, but the constant and increasing demand for my article, has enabled me to furnish it at a less price than he can, or does—say \$2 in the dozen. And, furthermore, he will soon become satisfied that his cau-And, furthermore, he will soon become satisfied that his cau-tion to the citizens of the "Southern and Western States" will avail him nothing as far is I am concerned, for the character of my Schledam Schrapps is too well established in these States, to be injured by any such invidious publi-cation. The motive of his advertisement is obvious to every one, and feeling well satisfied that all such missiles thrown at the blue will full harmless the fact. Lettil here for at me by him will full harmless at my feet, I will here, for the satisfaction of the public, publish a copy of my Patent Right, entered in the Southern District of New York, on the 25th of December, 1854:

And I take pleasure on this occasion to tender my sincere thanks to the public in general, and to my friends in particu-lar, for the kind liberality with which they have patronized me from my commencement of this enterprise; and I assure them that I shall continue to provide them always with a genuine and superior article of Schiedam Schnapus. It is a lamentable truth that, with few exceptions, every A article of food we cat, every article of drink we imbibe is more or less adulterated; and in nothing has adulteration been practiced to such an extent as in spiritous, nous and fermented liquors. So much so, in fact, that it is impossible to procure pure liquors and wines unless obtained direct from a bone fide importer, of known reputation,

and well established foreign connections.

It is owing to the corrosive, inflammatory and poisonous properties of the fiquors sold generally in this country, that disgraceful, beastial intoxication is so frequent, that the Legislatures of severa, of the States have taken the matter will be sent through to Charleston and Savannah at the figure affixed the sale of spirituous or fermented. liquora as common beverages.

Were all liquous sold pure and unadulterated, we should need no Maine Law, and but few restrictions on their sale. Blotched faces, pulsied limbs, swollen flesh, and that fearful disease, delirium tremens, are produced, not by pure liquous, but by the infatuated habit of indulging in the corrosive poisous sold under that designation.

SIMPSON'S AROMATIC SCHIEDAM JUNIPER SCHNAPPS Are manufactured exclusively at Schiedare, in Holland, according to the directions of old established distilling houses in New York and New Orleans, expressly for medicinal purposes, and are entitled to high consideration.
