## SAVE YOUR TREES

Pruning, Bolting, Cavity Work  
J. J. LYONS,  
Box 345, Brattleboro, Vt.

During a severe thunder storm in North Springfield on a recent night, lightning struck the barn of Arthur Dix, tearing off boards and throwing them 40 feet and killing his horse. Another bolt of electricity struck the house, doing considerable minor damage. A lamp, which was burning, was extinguished and the clock stopped at the moment the house was struck. Lath and plaster were torn off in a number of places, the screen door was wrenched off the hinges, and the telephone was thrown across the room.

TO STANDARDIZE  
RURAL SCHOOLSCommittee Submits Report  
to State Board of  
EducationWOULD IMPROVE  
ALL ALONG LINE

Plan Adopted by Board—Publicity and School Exhibits Planned—Would Materially Increase State Aid for Teachers and Repairs.

MONTEPELIER, July 19.—At the last meeting of the State Board of Education, the board adopted the following report of Commissioner Clarence H. Dempsey and Dorothy Canfield Fisher, the committee on standardizing rural schools, and directed the committee to put the provisions of the report in effect with the beginning of the school year.

To Members of the State Board of Education:

Your committee desires to present the following report on standard rural schools for your consideration.

The object to be attained is indicated by the title—to promote the improvement of rural schools in Vermont until they are placed and maintained on a high standard of efficiency in buildings and surroundings of satisfactory character.

The standards to be striven for should be definitely stated in a circular or booklet. They should be simple, comprehensive and attainable. Such a circular has been prepared by representatives of the Vermont Women Teachers' association, and has been presented to the board for its approval.

We recommend its adoption as amended by the board in its conferences on this subject, except that the question of financial aid or reimbursement be further adjusted by the board.

The success of the contemplated work will depend in a large measure upon:

1. Election of a competent inspector or supervisor.
2. A campaign of publicity to arouse interest.
3. Effective, simple administration.
4. Sufficient incentives and inducements.

1. Inspector or supervisor.  
The inspector or supervisor should be a person of energy, good judgment and tact, and ability to arouse enthusiasm and support.

His work should be largely in the field, and should consist to a large extent of educating the rural public as to the difference between poor and good schools, of arousing interest and desire for better schools and of giving practical advice and assistance to directors, superintendents and interested patrons in improving their schools.

He should know what is required to make school conditions, instruction, organization, courses of study, community gatherings and the like satisfactory, effective and lasting.

His suggestions should be practical, sensible, economical and such as to create confidence and favorable reactions. He should know details of administration, costs of repairs, appliances, supplies, etc.

His reports on schools, either of those below standard or above should be accurate, constructive and capable of practical use. They should be written and sent to the various individuals concerned, and copies thereof should be filed at Montpelier for reference.

2. Publicity.  
The inspector or supervisor should assist in general state publicity.

Frequent and helpful press notices should be provided, giving attention not only to desired ends and to plans for improvement, but also to reports of achievements and to lists of schools and towns that secure worthy results.

Booklets and circulars should be prepared for distribution. Especially we recommend issuing a pamphlet on rural schools as a handbook for the inspector and for school authorities.

Meetings in local communities, granges, church societies, entertainments for the public in the school buildings, etc., should be planned for.

School exhibits at town meetings, public stores and at school should be arranged.

3. Administration. The administration of the plan would include:

1. Personal work of the supervisor.
2. Office and clerical work. This would be done in part by local superintendents and other school officials, and in part by the clerical force in the commissioner's office. It would include distribution of circulars, correspondence, tabulating results, keeping records of standard and non-standard schools, awarding and distributing plates, buttons, etc., and keeping account of disbursements and expenses.

This work could be done without increasing the present office force.

4. Incentives and inducements.  
These would be of two kinds.

1st. Honor rewards. Standard and superior schools should be awarded suitable plates, and pupils and teacher might well be awarded buttons. Suitable complimentary certificates should be sent to school authorities (preferably by the division office) and should be kept at the commissioner's office and be published from time to time as occasion might require.

2d. Financial rewards. Our present law regulations provide for certain state aid that will apply directly toward establishment and maintenance of standard schools. Such aid may be classified as follows:

1. State aid for teachers' salaries from \$2 to \$6 per week.
2. State aid for repairs, etc., up to maximum of \$300 for each town.
3. Disbursement for current expenses, varying from nothing to possibly \$50 per school.

In addition to this aid there should be some plan devised that would serve as a direct inducement to establish and to continue standard schools. Such aid should be automatically available for every school that is standardized, be planned so as not to exceed a set, reasonable sum of money. On this point the chairman's report should be given favorable consideration.

Respectfully submitted,  
DOROTHY CANFIELD FISHER  
CLARENCE H. DEMPSEY.

located in the Bochesia district in which they allege two men were making moonshine whiskey. The police say the men had erected a canvas-covered camp banked with trees as a camouflage in which was operated a complete still.

When the officers reached the scene they say they found that the still had been broken up and had been secreted in various parts of the woods. After a thorough search it was found in three places.

A Scripps-Booth roadster filled with food and camping tools was confiscated. Two barrels of mash and a small quantity of moonshine were also taken.

## FORTUNE TELLERS IN JAIL.

Charged With Obtaining Money Under False Pretenses.

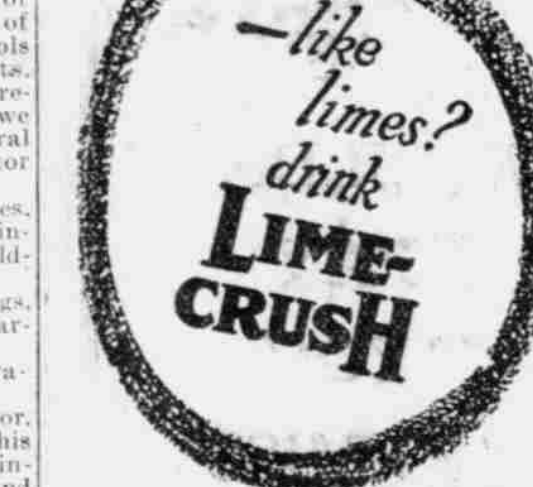

ST. ALBANS, July 19.—Henry Mitchell and daughter, Rosie, who are connected with the fortune telling tent of the World of Mirth shows, are in Franklin county jail awaiting the coming of an official from Mahoney City, Penn., who it is expected will take them back with him. They were arrested by Sheriff George P. Catlin on a warrant issued by the authorities at Mahoney City charging them with obtaining money under false pretenses.

## LIGHTNING RUINS MOTORS.

Burns Out Four in Plant of Middlebury Marble Company.

MIDDLEBURY, July 18.—The Middlebury Marble company situated about two miles east of this village has a crew of men at work removing four large motors which were rendered useless by lightning last week, therefore necessitating the closing of the whole plant. The motors will be replaced as soon as possible by larger and more powerful machines, when the force of workmen will be doubled. Lightning is said to have struck an electric cable entering the power house.

A 1,200-horsepower biplane recently completed contains a complete bathroom, fitted with a shower-bath, washstand, and towels, mirror, and lavatory.

## PILES

Can't Be Cured from the Outside.

External treatments seldom cure Piles. Nor do surgical operations. The cause is inside—bad circulation. The blood is stagnant, the veins flabby. The bowel walls are weak, the parts almost dead.

To quickly and safely rid yourself of piles you must free the circulation—send fresh current through the stagnant pools. Internal treatment is the one safe method. Ointments and cutting won't do it.

J. S. Leonard, M. D., a specialist, set at work some years ago to find a real internal remedy for piles. He succeeded. He named his prescription HEM-ROID, and tried it in 1,000 cases before he was satisfied. Now HEM-ROID is sold by druggists everywhere under guarantee. It is a harmless tablet, easy to take, and can always be found at the Brattleboro Drug Co. and druggists everywhere, who will gladly refund the purchase price to any dissatisfied customer.—Advertisement

## Women

## Made Young

Bright eyes, a clear skin and a body full of youth and health may be yours if you will keep your system in order by regularly taking

The world's standard remedy for kidney, liver, bladder and uric acid troubles, the enemies of life and looks. In use since 1896. All druggists, three sizes. Look for the name Gold Medal on every box and accept no imitation.

Ice Cold Drinks and Delicious  
Ice Cream

Cold drinks are popular these hot days, of course, but there is more than that back of the big increase in business at our Soda Fountain. It indicates that the people of this town not only want what they want, but also that they know the place where they can find the best. The Soda and Ice Cream we sell are pure, delicious and healthful—and the fact that they are better than you can buy anywhere else, is the best reason for coming here.

The best Ice Cream in town at popular price.

## Burglar Alarm Saves

\$15,000

ASHTABULA, Ohio, July 7.—Six automobile bandits robbed the Marine National bank of Ashtabula Harbor, three miles from here, at 12.30 o'clock today, securing \$6,000 loot and made their escape after firing several shots at citizens in the street.

A girl employee, of the bank, with a revolver pointed at her face, pressed a burglar alarm with her foot which frightened the robbers who fled, leaving about \$15,000 in currency untouched in one of the cages.

This bank is equipped in the most modern facilities for handling the business of its customers. New accounts solicited.
