RUTLAND AND KEENE  
AMONG LEADERS

Conspicuous for Sales of Government Securities Savings In October—  
New Hampshire Leads.

BOSTON, Nov. 25.—Sales reports of government savings securities for the month of October have been received by F. C. Ayres, director, savings division, first federal reserve district.

Increased sales in many cities and towns of the district show the gradual return of normal business conditions. Conspicuous among these are the records made by the postmasters of New Haven, Conn., Fitchburg, Mass., Pittsfield, and Salem, Mass., Rutland, Vt., and Dover, Keene and Exeter, N. H. Many of these postmasters made the year's highest record for their city in October.

Although much publicity has been given recently to the fact that figures prove Massachusetts to be the thriftiest state in the union, the sales of government savings securities show New Hampshire to be in the lead not only in the per capita average for the period to October 1st, but in her monthly per capita increase over September.

The following table shows the aggregate sales and per capita average for the 10 months to October 1st.

	Aggregate Sales	Per Capita
New Hampshire	\$173,520.44	.35
Rhode Island	153,178.56	.27
Connecticut	146,515.66	.14
Massachusetts	510,367.47	.13
Vermont	46,640.97	.13
Maine	76,762.42	.10
Total	\$1,106,990.62	.16

The first prize, a pocket knife, was given by B. H. Lefkay; 2d prize, won by Robert Allen, a pair of gymnasium slippers; 3d prize, won by Gordon Miller, a Scout handbook, was given by Dr. H. H. A Thanksgiving dinner including roast turkey and all the "fixins" was served yesterday to the patients and nurses at the Melrose hospital.

On Thursday afternoon there was a Thanksgiving party at the home of Mr. and Mrs. C. J. Nesbitt, when three families sat down to a bountiful board and did it ample justice. This was followed by instrumental music, after which the evening was spent in playing games and neighborhood intercourse. The recitations by little Violet Nesbitt were notably good.

SHALL RATES OR  
WAGES DROP FIRST?

Interstate Commerce Commission to  
Probe Matter—Railroads Want  
Wages Cut First.

WASHINGTON, Nov. 25.—Investigation by the interstate commerce commission on its own behalf of the reasonableness of the present level of national transportation rates, announced last night, is the latest and perhaps most mandatory of a series of government actions, all of which have been directed toward forcing down railroad charges.

Negotiations between the commissions and executives of all the larger railroads have been constantly in progress for weeks, being particularly in the open since President Harding formally took members of the railroad labor board, which controls wage scales, into joint sessions with the commission.

While the railroad spokesmen, in the official pleadings filed with the commission, appear to have accepted the general dictum that transportation rates must be reduced, the commission's decisions and the railroad proposals are considerably at variance. Railroads have sought to make sharp reductions on Atlantic-Pacific rates to meet Panama canal competition, but so far, all of these decreases have been held in suspension by the commission to allow hearings to be held in nearly a score of cities before its examiners.

The commission has ordered a flat cut of approximately 16 per cent on western hay and grain rates, which the railroads have delayed putting into effect and which they have sought to compromise by offering to install a general decrease of 10 per cent on agricultural products. The railroads also have emphasized their demand that the government, through the railroad labor board, allow their wage payments to be reduced before seeking to reduce rates.

All of the present differences between the roads and the commission center around this question, "Shall rates or wages go down first?"

Conferees between road executives and the commission have failed to bridge over or compromise the difficulty and the order of the commission to go forward with its own investigation was taken to indicate that its further proceedings will be governed by the fact that in the last analysis the commission has compulsory powers to enforce its own conclusions as to the reasonableness of rates, whether the railroads voluntarily accept or not.

## NEW ORLEANS TIED UP.

Cargo Loaders and Handlers Strike—  
About 70 Ships Await Cargoes.

NEW ORLEANS, Nov. 25.—The port of New Orleans was completely tied up today by a strike of between 12,000 and 15,000 cargo loaders and handlers who sought to sympathize with the seamen, who quit work Monday. About 70 ships are in port awaiting cargoes. The public cotton warehouse and 10 private warehouses were closed.

## Settling An Estate

The task of settling an estate seems most intricate to a relative who has had no experience in such matters. In fact many complicated problems arise even for the person experienced in such matters.

If a relative wishes to keep in close touch with the estate during the period of settlement he can be appointed co-administrator with this bank. This is a very satisfactory method. We should be glad to explain this plan more fully if not entirely understood.
