WASHINGTON, Feb. 7 .- For two hours of Washington, Feb. 7.—For two hours or more the Senate discussed the McEnery resolution, declaratory of a policy of this government in the Philippines. No vote was reached and the resolution went to the calendar. In accordance with the notice given Monday evening Mr. Tiliman addressed the Senate upon the resolution, making a characteristically picturesque srgument He maintained that a clear, explicit and direct resolution ought to be adopted gument He maintained that a clear, explicit and direct resolution ought to be adopted and not one that was meaningless and inconsequental. He predicted that dire results would follow the ratification of the treaty unless the United States treated the islanders with absolute firmness and gave them self-government. Mr. Lodge of Massachusetts followed with a strong reply to Mr Tillman in which he stated clearly and directly the conditions as they confronted the United States from the Philippines.

WASHINGTON, Feb. 8.—The Sonate devoted nearly the entire day to routine business. The Indian appropriation bill which has been pending for several weeks was

completed and passed. The legislative executive and judicial appropriation bill was
taken up but after twenty-four pages of it
had been disposed of it was laid aside for
the day. A few measures of minor importance were passed. Mr. Lodge of Massachusetts reported from the committee on
printing a joint resolution appropriating
\$4,200 for the publication of maps and texts
of surveys made last summer in Alaska by
the geologist survey. The resolution was
adopted. Mr. Ross of Vermont gave notice that he would ask the Senate to pay its
tribute to the late Senator Morrill February 22, immediately after the reading of
Washington's farewell address. Mr. Gallinger of New Hampshire, chairman of the
pensions committee, reported a bill to restore pensions to soldiers who had forfeited
them by enlistment in the war with Spain.
Mr. Gallinger explained that these men
not only had lost their pensions during
their service in the war with Spain, but
had lost them permanently. The bill provides that pensions may be restored from

the date of the applicant's discharge from
the army. The bill was passed.

Filibustering in the House.

PILIBUSTERING IN THE HOUSE. The net result of the work in the House for the two days allotted for consideration of public buildings bill was the passage of a single bill providing for the erection of a building at Newport News, Va., at a cost of \$75,000. Sixty-five bills in all, carrying or authorizing the expenditure of "bout \$12,000,000 were favorably considered in committee of the whole, when the committee rose but because seventeen other bills rerose but because seventeen other bills re-ported had not been acted upon in commit-tee, fillbustering tactics were resorted to and all efforts to advance the bills favorably and all efforts to advance the bills favorably acted upon in committee were blocked. The second bill appropriating \$47,000 for a building at Basir City, Neb., got as far as the third reading when a denand for the production of the engrossed bill prevented it from being placed upon its passage. The previous question had been ordered on the Altoons, Pa., bill, carrying \$125,000 when the House adjourned, so that it will be the nofinished business Thursday. All the other bills, however, lose the privileged status they had in virtue of the special order. Another day, therefore, will have to be allotted to secure action upon them, and assurances have aiready been obtained for another day as soon as the appropriation assurances have already been obtained for another day as soon as the appropriation bils are out of the way. Twen y-four bils were favorably acted upon by the committee to-day. Some unanimous consent business was transacted before the consideration of the public buildings bill was resumed, Mr. Corliss, of Michigan, called up the Senate bill to amend the law requiring ballots for the members of Congress to be written or printed so as to permit the use of machines where authorized by the laws of machines where authorized by the laws of the State. 1899.

Montpelier Fifty Years Ago, Now, and Fifty Years Hence.

The year 1849 was an eventful one in the history of Montpeller. In that year it be-gan its career as a separate town from East Montpeller; in that year also the Vermont Central railroad was opened to Montpeller, and the first train of cars entered the place; in that year the "Vermont Bank," predeces-sor of the "First National Bank of Montsor of the "First National Bank of Mont-peller," was organized and commenced business, and it was that year that the "Na-tional Life Insurance Company" was by its charter to organize and commence business, but was delayed in this for one year. Montpeller, "from its peculiar location— into which all the main roads converged through river valleys from the north and

through river valleys from the north and south, the east and the west—has from the beginning been an important business place, tempting to merchants and professional men, and repaying good endeavors with abundant success." I would not fail to mention in this connection that honorable women, too, not a few, aged yet active at that day, had come down from the early days of the place, Mothers in Israel. I grieve to pass them by without naming them. I see them with the mind's eye, face to face, as it were, many of them in their accustomed seats in church intently listening to the words of the pastor, than whom there was not another who, Sabbath after Sabbath, coatinually imparted more spiritual thought or revealed in his ed more spiritual thought or revealed in his sermons more of the spirit of the Muster he for so many years served in Montpelier. It is not necessary to name him. His memory is still fresh in the minds of the people of the place. ECZEMA ON FACE

Condition Such Could Not Go Out. In Physician's Care Five Months. CUTICURA Cured in 1 Month.

I had eczema on the face for five months, during which time I was in care of physicians. I could not go out. It was going from bad to worse, when a friend recommended Cuticuma remedies. After I washed my face with Cuticuma Soar and used Cuticuma (cintment) and Cuticuma Resol-VENT it changed wonderfully, and in a month my face was as clean as ever. THOS. J. HEALTHY MATERNITY.

Two Grateful Women Tell of the Help They Have Received From Mrs. Pinkham.

The climax of life force in woman is capable motherhood. The first requisite for a good mother is good health. Health of body means health of the generative organs.

> Bluffton, Ohio, says about Lydia E. Pinle ham's Vegetable Compound, and how well it prepared her for maternity: DEAR MRS. PINKHAM:-I must say a word n praise of your Vegetable Compound. I used three bottles of it when I was pregnant, and labor was not nearly as long as it was with my other bables; and my baby is so healthy to what the others were. I think every woman should use your Compound when pregnant, it will save them so much suffering and misery. I cannot say enough in praise of it. If ever I need medicine again, I shall use your Compound." The most successful tonic known to

medicine for women approaching maternity is Lydia E. Pinkham's Vegetable Compound. It is a safeguard for every woman who uses it, and the fullest benefit comes from its use with Mrs. Pinkham's advice freely offered to all woman. Her address is Lynn, Mass.

Here is a convincing statement. bearing directly on this subject, from Mrs. E. Bishop, of 1848 Pacific St., Brooklyn, N. Y .: DEAR MRS. PINKHAM:-I am &

great believer in your Compound. I was almost despairing of ever again being well, as I was a great sufferer, and had been for years. I suffered from wom trouble, and had terrible blind fits. After writing to you I tried your Compound. The result was astonishing. I have used it and advocated it ever since. In childbirth it is a perfect boon. I have often said that I should like to have its merits thrown on the sky with a search-light, so that all women would read, and be convinced that there is a remedy for their sufferings."

Comfort Powder dusted into the stockings will relieve aching, smarting, tender feet; also excessive perspiration of the feet.

For proof of this, ask Lieut. W. F. Gunn, of Hartford police force. Over 50 of his men also verify the claim. It sootles and heals all skin trouble.

Granite Manufacturers.

The sixth annual banquet of the Barre Granite Manufacturers association was held Wednesday evening at the Pavilion. Despite the storm the attendance was large. Nearly two hundred members of the as-sociation and invited guests were present and the occasion was thoroughly enjoyable.

The present officers of the association are:
James McKay, president; H. J. M. Jones
and J. A. Cross, vice-presidents; T. H.
Cave Jr., secretary; W. J. Higman, treasurer. The banquet committee was composed of H. J. M. Jones, R. C. Bowers, William Barclay, H. K. Bush, William Alexander, John A. Cross and James McKsy.
An excellent menu, prepared in the Pavilion's best style, was deftly served in
courses by a corps of experienced waiters.
To this pleasing part of the programme an
hour or more was devoted.

When cigars had been reached President
McKay rapped for order. He said the
pleasure of the evening was a thing of the
past, and the torture was about to begin.
Speech making does not come natural to all and the occasion was thoroughly enjoyable

past, and the torture was about to begin. Speech making does not come natural to all of us; it is a talent not vouchsafed to the average granite man. Mr. McKay spoke of the increase in the granite business during the past year, and still the state of trade is not all we could wish it to be. The ontlook for the building trade is now good, which is a very encouraging feature. Dur-

look for the building trade is now good, which is a very encouraging feature. During the year to come the speaker hoped to see a lively interest taken in the work of the association. Mr. McKay told several capital stories, and introduced H. J. M. Jones as toast master for the evening.

No better selection for this important position could have been made. Mr. Jones introduced each speaker, singer and performer with a happy hit, and kept the ball merrily rolling until the program was completed. Mr. Jones said he had not accepted the position because he was able to fill it, but because no one else would take it. In the absence, because of illness, of Mayor.

In effect Feb. 2, 1899. Trains leaving Montpeller as follows—Going east; Senter, who was to have delivered an address of welcome, Mr. Jones, as a citizen of Montpelier, gave the members of the association a cordial welcome to the Capital city. He then read letters of regret from A. M. Hunt of (Boston, F. W. Baldwin of St. Albaus, general superintendent Cen-St. Albans, general superintendent Central Vermont railroad, Albert Tuttle and Hon. Charles Dewey of Montpelier. He

Hon. Charles Dewey of Montpelier. He also read a telegram extending the greatings of the National Retail Granite Dealer's association, then in session in Chicago.

The musical part of the programme that followed included piccolo solos by J. A. Butterfield of Boston, flute solos by George H. Wilder, cornet solos by L. L. Leonard, negro solos by Ned C. Haines, Scotch songs by Duncan McMillan, comic songs by John Anderson, songs and violin solos by J. K. Simmers, and a recitation, "Casey at the Bat," by Ned C. Haines. During the banquet music was furnished by an orchestra composed of Bert Waterman of the Howard opera house orchestra Burlington, ard opera house orchestra Burlington, George H. Wider, Ned C. Haines and L. L. Leonard. All the musical numbers were very cordially received and each member was obliged to respond to an encore.

was obliged to respond to an encore.

Eugene Sullivau of Barre was the first speaker. He was called upon to respond for the pioneers in the polishing business.

Mr. Sullivan made one of his characteristic, unreportable speeches, and took his seat amid loud applause.
C A. G. Jackson, editor of the Evening
Argus, next responded for "The Press."
He referred particularly to Rebert Buros,

and the successful effort recently put forth in Barre to erect a monument to the poet's memory. Mr. Jackson closed by reading a portion of a poem written by J. P. Marr of Barre, and read at a recent Burns celebra-

Barre, and read at a recent Burns celebration in that city.

E. A. Chittenden of St. Albans, general
freight agent of the Central Vermont railroad, was next called upon. Mr. Chittenden had not known until he extered the
banquet hall that he would be expected to
speak, but he responded in a very entertaining manner. He said he had always
felt a deep interest in the granite industry
of Barre and Montpelier, and said that, as a
representative of the transportation problem, he had taken a real pride in the devel
opment of the business in Montpelier and representative of the transportation problem, he had taken a real pride in the development of the business in Montpelier and
Barre. Mr. Chittenden referred to the
early days of Barre, before the railroad
reached that village, and compared the
Barre and Montpelier of today with those
times. He gave the granite industry a
large share of the credit for these improved
conditions and predicted even better things
for the future. Mr. Chittanden's remarks
were given the casest attention and he
was loudly cheered as be took his seat.
E. A. Nutt responded briefly for 'The
Pross,' referring particularly to the cordial
feeling and mutual interest that exists between the newspapers of Barre and Montpelier and the granite manufactures and
their varied business interests.
Mayor J. W. Gordon and ex-Mayor E. L.

Mr. Hewitt for Ratification.

We sincerely congratulate our dis-tinguish d fellow townsman, Mr. Abram S. Hewitt, upon his manly and sagacious declaration that the Senate

ought to ratify the treaty of Paris.

As Mr. Hewitt justly says, the ratification of the treaty does not imply that we shall exercise sovereignty over either the Philippines or Porto Rico, nor will it give any rights of citizen-ship to the inhabitants of the territory thus acquired. That subject will have to be hereafter treated by Congress and may possibly come before the United States Supreme court. The pressing need of the moment is to end the war with Spain, and nothing but the ratification of the treaty of peace with that nation will do it.

Let the hesitating Senators at Washington ponder Mr. Hewitt's remarks and follow his wise and patriotic advice .- New York Sun.
