Hence it has ever been the study of all great physicians to disguise in nauseous tiste. But their efforts have never been crowned with complete success. It was left for Dr. Smith to accomplish. The UNITED STATES JOURNAL, by Jesse E. Dow & Co.

The first number of our new paper will be issued on the first day of May next, with an entire new dress-new type, fine white paper, with other important alterations and improvements. The paper will be devoted to a fearless exposition of Democratic principles; it will zealously and unremittingly oppose each and every effort to establish a mammorth monarchy bank and other mischievous cornorations and consolidations of wealth, which subvert the rights of the people and undermine the pillars of the Rebublic; it will oppose an oppressive and anti-republican tariff-ystem, the assumption of the State debts by the General Government, and all other federal principles which have an inevitable tendency to destroy public prosperity as evitable tendency to destroy public prosperity as well as individual happiness. Against all such po-litical delusions, we shall wage unchanging, un-

compromising war. The FARMER and the MECHANIC who produce all hereal capital of the nation, will find in our paper an unwavering champion of their inalignable per an unwavering champion of their inalicuable rights; the long cherished principles of the editors are too well known to the public to require any pledge upon this point. To the Miscellaneous Department particular attention will be devoted; the Ladies will always find in our columns a choice selection from the current literature of the day, awell as original contributions from the most tals ented writers of which our country can boast. A general summary of Foreign and Domestic news will be furnished.
