does not steal :- he has no possible temptation .-Again, the man of a thousand a-year does not. The lawyer, in the full career of his profession, does not violate the law in this respect, nor the merchant in a large way of business. They do not want the money; or they can get it in a much easier and more reputable way. But the man who has not a penny in his purse, nor any means of getting a farthing, steals to save himself from starving. Theft is not, in the first instance, a voluntary or a malicious crime; and therefore should be distinguished from those that are. It is not a vice of general inclination, or of inherent depravity, but of particular circumstances. Place a thief in circumstances of a gentleman, and he

will no longer be a thief-though he may carry

all his other bad propensities into his new charac

Take the common case of the lapse into this offence, and consider with what feelings it would be just or natural to view it. What, then, is the meaning of the outery against the lawless de pravity of the lower classes in this country? man is a laborer or a mechanic; he has a wife and children to support; he works night and day; he denies himself almost every thing; still he finds it difficult to live. He is taken sick, or is thrown out of employ; he is reduced to the ut most extremity; he still holds out and clings to the last chance of hope and honesty; but in vain: his patience and his principle will last no longer —and he steals! Why? Not from want of industry; he had the greatest-not from want of economy; he observed the strictest-not from want of abstinence; he almost starved himself to death-not from want of fortitude; he bore every sort of distress and hardship without repiningnot even from want of honesty; for the first de parture from it almost broke his heart. Yet he and his class are accused of a total want of decency and moral principle, from his not having an heroic degree of these virtues, not one of which the higher classes are so much as ever called upon to practice, or to make the smallest sacrifice to, To argue, therefore, against the good disposition of the lower classes generally, because they alone are subject to those temptations which produce a particular violation of the law, when the truth is, that by far the greater part of them are continually holding out to the last extremity of despair, of sickness, and often of life itself in struggling against those temptations, is most base and on manly .- Edinburgh Review.

Washington's Grave.—A gentleman who has recently visited the grave of Washington, at Mount Vernon, says :-

" It grieved me to the soul to witness the utter which is visible around this consecrated spot. The rankest and fonlest weeds are permit ted to grow and flourish above and around it .- A few scattering cedars in all the wilderness of uncultivated nature, are the only trees to be seen in the vicinity of the grave; while around in every direction the eye rests upon the dilapidated rail fences, broken rails and scattered brush wood.-The roads leading to it are washed into impracticable ravines covered with filth and presenting naught that is agreeable, but every thing that i ffensive to the eye and uncongenial to the hal-

R. DYOTT'S ANTI-BILIOUS PILLS As a family medicine, a mild and gentle burgative and a purifier of the blood. The general use of these celebrated Fills throughout the United States, for these forty years past, and the trong recommendations they have acquired from all classes of our fellow citizens, places them in a nuch more elevated situation in public estimation, han any other remedy which has heretofore been utroduced.

utroduced.

The following are among the many diseases for which Dr. Dyett's celebrated Pills are so deserved y distinguished for curing. By their counteract ag properties in removing the bils from the stomach' they prevent and cure the billous fever; chill's rague and fever; spring and fall fevers; yellow ever; billious cholic; pleurisy; dysentery; worms; sillious vomiting, sick and foul stomach.

By cleaning the bowels and stomach from all imurities, they restore the loss of appetite, remove flat.

By cleaning the bowels and stomach from all imurities, they restore the loss of appetite, remove flatdency, cure the headache, habitual costiveness,
olds, coughs, asthma, epeliptic fits, hypochondria,
ysterical complaints, stransguary, gravel, &c.

By a general and copious use they will be found
ery beneficial in curing the rhounatism and gout,
ambago or pains in the back. All impurities in
he blood yield to their happy effects, whether proceding from constitutional ailment or from indis
rect intemperance.

These celebrated pills have been used to very
great advantage in curing the dyspepsia or indicettion, bronchitis, liver complaint, &c.

They are an infallible medicine for Female Comdiants generally, and especially for removing those

taints generally, and especially for removing those obstructions which are the source of their ailments teertain periods, they possess the eminent advanges over most other purgatives, that while they perate gently, they produce neither costiveness, ebility, or too great excitement.

perate gently, they produce neither costiveness, debility, or too great excitement. Whenever there is a predisposition to receive disease from marsh elluvia, or from a too conious use of ardent spirits or from a vitiated state of the bile. It is possible with assuredly counteract it.

They are highly ecco muented to travellers, by some or land, and may be made use of with safety without change of diet and in situations where no exercise can be used. They will be found particularly valuable for preventing diseases incidental to not climates, they deterge and cleanse vicid humors, op in obstructions, and promote the secretion of good bile, operate as an easy cathartic as a powerful dimetic, and as a diaphoretic.

Dr. Dyott, under the strong conviction of the power of his pills, to relieve the afflicted, recommends the use of them to those who are in health as well as the afflicted, at least once a fortnight, during the Spring and Summer months, in which he feels assured those who attend to his advice will and the benefit they seek.

THE CONSTITUTION.—A positical, Literary, and Commercial Newspaper, published in the City of Baltimore. The Constitution, which was established and heretofore published by the subscribers in the City of Washington, will, on and after Monday, the 1st day of December next, be removed to and published in the City of Baltimore.

The Constitution is devoted to the support of the principles of that instrument from which it borrows the name, and opposes whatever is not sanctioned by it. It considers a National Bank—a Protective

principles of that instrument from which it borrows the name, and opposes whatever is not sanctioned by it. It considers a National Bank—a Protective Tariff—Internal Improvements by the General Government—Distribution of the proceeds of the sales of the Public Lands—Assumption of the debts of the States—Abrogation of the Executive Veto—as unconstitutional and inexpedient. On the great and vital question in all Governments—Taxation—it will advocate as heretofore the imposition of duties for revenue alone—opposing a tariff for protection as unjust, oppressive, and unconstitutional. We hope to make the paper worthy of the confidence and support of the Democratic party of Maryland and of the country. It shall be the faithful expositor of their principles, and the ever ready medium to convey their sentiments and wishes to the public. The Democratic cause is the cause of truth and justice. It courts the light. It shuns no investigation. And we are determined to see whether a paper, conducted with a devotion to the principles, rather than to the men, of our party—to further the great cause of human progress, rather than the mere advancement of particular individuals—will not commend itself to the confidence and favor of the people.

It is known that, in our political principles, we

als—will not commend itself to the confidence and favor of the people.

It is known that, in our political principles, we are entirely and thoroughly Democratic. Of this, we trust that we have already afforded sufficient evidence; and that we have also given some carnest of the temper and spirit with which we sustain our principles and opinions.

B lieving that the present Administration will faithfully carry out the principles and the policy of the Democratic party, we shall continue most cordially and earnessity to support all its measures tending to this end. Its action in regard to Texas, Oregon, the Tariff, and the Independent Treasury, so far as they have been developed, has been in accordance with the policy of the party that placed them in power; and we have not a doubt, that all will be satisfied that every thing has been done that could be done, to insure successful results to these could be done, to insure successful results to these great measures.

great measures.

The dai y paper will be published at the very low rate of six dellars a year, payat le in advance, or two cents a number; the weekly at two dollars a year, payable invariably in advance. WASHINGTON, Nov. 24, 1845.

CREAT DISCOVERY IN THE HEAL.

ING ART.—Important to invalids and friends of the sick.—Medicine, however efficacious, has always been taken with dissatisfaction by the sick, owing to its unpleasant nature. Hence it has ever been the study of all great physicians to disguise its nauseous taste. But their efforts have never been crowned with complete success. It was left for Dr. Smith to accomplish. Having given the subject his unremitting attention for nearly two years, he has, after spending a considerable amount of money, produced a medicine which, while it is every way agreeable to the palate, is sure to triumph over DIS-EASE and all opposition, and to repay him for his devotion to the improvement of medical science DR. G. BINJ. SMITH'S [SUGAR COATED]

"IMPROVED IND. VEG. PILLS."

Are the result of his labor. Their effects, and the general favor with which they have been received in all parts of the United States, warrant the proprietors in the declaration that "they are the greatest improvement in medicine ever known. Unlike all other pills, these neither gripe, produce nausea nor any other unpleasant sensation, while they are as powerful as it is possible for a medicine to be, and be HARMLESS. For sale by

## Dr. Upham's Vegetable Electuary

A certain Cure for the Piles.

A certain Cure for the Piles,

55 Although the ELECTUARY was originally prepared for the cure of Piles, yet from its modus operandi, or mode of operating, and from extensive personal application, it has proved itself to be a Medicine far superior to all others, in all Diseases of an Inflammatory character, with a determination of blood to any particular part or organ. In Inflammation and Congestion of the Liver and Spleen; Inflammation, Seveness and Uleration of the Stomach, Bowels, Kidneys and Bladder; in Inflammatory and Mercurial Rheumatism, and all Affections arising from the imprudent or injudicious use of Mercury; in all cases where the Blood is powerfully determined towards the Head, it is the nest Medicine ever discovered. For all Impurities of the Blood, arising from any source whatever, and for all Diseases of the Skin, it is unrivalled, clearing and improving it in the most remarkable manner. In Pelpitation of the Heart, Pain in the Side, and Oppression about the Chest; in Morbid and Biliory Conditions of the Stomach, producing Sick Head-ache; in short, in all cases where a Cathartic or Physic is required, the Electuary will be found fully equal, if not superior, to any other; and especially to those subject to Piles, it will prove an invaluable Physic, as it operates without irritation, which is not the case with most of the purgatives now in use, particularly Powders or Pills containing Aloes, the use of which will invariably return the complaint.

PROPOSALS for issuing THE NORTH CARO.

LINA STANDARD, SEMI-WEEKLY.—The undersigned proposes to publish The North Carolina Standard after the first of February, 1846, twice a week. Many democrats, in various quarters of the State, desire this, and it is believed it can be done, if exertions are made in its behalf among the democratic party generally. The importance of such an issue is, it seems to the undersigned, too apparent to require arguments in its portance of such an issue is, it seems to the undersigned, too apparent to require arguments in its favor. A semi-weekly paper ought surely to be sustained by the democratic party of the State, (a party which easts 40,000 votes,) especially as the Federalists have two Semi-weeklies, in addition to two papers to our one in the State. Think of this, democrats, and of the influence which such publications must inevitably exert upon the public mind.

The Weekly Standard will be published as heretofore, and, the undersigned flatters himself, will be much more interesting and valuable than it is at present. It will contain at least eight columns more of reading matter than it does now.

The Semi-weekly Standard will be published at Four Dollars, if paid withit, the first three months, or Five Dollars, if delayed beyond that period; and the weekly Standard at Three Dollars per annum, payable in advance.

GREATLY REDUCED PRICE—FROM \$5 TO \$3 PER ANNUM.

SINGLE COPY 25 CENTS.

PROSPECTUS OF THE NEXT (or 17th) VOL.

THE price of the Democratic Review has heretofore been too high—not for its size, cost, and
character, but for the means of tens of thousands
of readers who would be glad to receive it, and
among whom it is highly desirable that it should
circulate. For the purpose therefore, of largely
widening the range of its usefulness, and of multiplying the numbers of those to whom it may be accessible, it has been determined, simultaneously
with the great reduction in the expense of the postage, to reduce its subscription price also, from Fire
to only Three dollars; and when several unite in
subscription, to as low as \$2 50, or even \$2 30 per subscription, to as low as \$2 50, or even \$2 30 per

Tais very large reduction in the receipts (accom-panied with but a comparatively small diminution of its expenses) involves, of course, an entire sac-rifice of profit upon it, unless compensated by a vast multiplication of its subscribers. There will be at the outset only a small reduction in its num-ber of pages; soon to be restored to its old number, without increase of price, when the anticipated surcess of the experiment shall justify it.

success of the experiment shall justify it.

The Portarits of Distinguishes Democrats will be continued—engraved in better and more costly style than heretofore.

The Postage will hereafter, for any distance, be only five and a half cents; it has heretofore been, for over 100 miles, eighteen cents.

We look for an extension of circulation to be reckened by tens of thousands, as the result and compensation of this great reduction of price.—Every friend of the work, and of the Democratic principles and cause, is confidently appealed to to exert himself with an active interest to procure is subscribers; both to extend its usefulness, and to carry it successfully through the crisis of this great reduction of its receipts.

reduction of its receipts.

Those who have paid in advance for the coming year, will receive it, at the reduced rate, for a year and a balf.

TERMS HENCEFORWARD.

(INVASIABLY IN ADVANCE.)
Single copy, - \$3 00 | Eight copies, - \$20 00
Four copies, - 11 00 | Thirteen !! - 30 00
It will thus be seen that when thirteen copies are ordered at once, the price is brought down to about \$2 30 each. For six months, half these rates.

These rates afford high inducements to agents and others to interest themselves to procure subscribers.

The cash system and payment in advance must be uncompromisingly adhered to. The past relaxation of it has caused an accumulation of not far from \$40,000 of debts due to the work. Hereafter, this must be wholly reformed; nor must either the most eminent political friend, or the most intimate personal one, be displeased on experiencing its application, in the stoppage of their numbers, if they neglect this rule; the vital necessity of which, at the present reduced rates, must be obvious to all.

No communications will be taken from the Post Office unless free of postage.

No communications will be taken from the Post Office unless free of postage.

All communications, both on editorial and publishing business, must be addressed henceforward of the undersigned. Those relating to the settlement of the past debts due the work will be still addressed to Mr. H. G. LAST LIKENESS OF GENERAL JACKSON.
The admirable Daguerrectype of General Jack-The admirable Daguerrectype of General Jackson, taken by Anthony, Edwards & Co., a few weeks before his death, has been purchased for the use of the Democratic Review. It is in the hands of the artist, and will be engraved in the finest style of mezzotint, of extra size. It is a most beautiful and interesting work, declared by Mr. Van Buren and others to give a more perfect idea of the good and great old man than any other likeness; and ought to be possessed and framed by every friend who loves or reveres his memory. Those who subscribe early will receive it as one of the regular series of Portraits.

TO THE DEMOCRATIC PRESS. TO THE DEMOCRATIC PRESS.

Our friends of the Democratic Press are requested to interest themselves in aiding to carry the work safely and successfully through the crisis of this great reduction of price. Every Editor inserting this prospectus, with an editorial notice, (and sending a copy of the paper marked,) shall receive the Review for a year.
