The Survey of a Ship Canal by the United States
Government.

The effort to Avoid Hatteras, the Graveyard of the Sea—
Dental Swamp Canal to be Deepened—A Project of Magni-
tude—Petitions in Bankruptcy—Why He Didn't Re-
ter—News Gathered and Condensed From Different
Sections of the Old North State for Virginian-Pilot
Readers.

Raleigh, N. C. Sept. 11.—The survey of the ship canal by the United States
Government has been completed. The work has been performed by United States
engineers, who have had many years of experience in the construction of canals.

The results of the survey have been forwarded to Washington, where they will be
examined by the Department of the Interior. The survey includes a careful study
of the topography of the area, the geology of the region, and the character of the
soil and vegetation.

The survey also includes a detailed examination of the water supply, the
capacity of the canals, and the cost of construction. The results of the survey will
be used to determine the feasibility of the project and to guide the construction of
the canal.

THE NEGRO EXODUS.

is chiefly from the Towns, Not
the Farms.

There is a scarcity of colored men. Plenty of
hands to pick all the cotton will be
needed in North Carolina.

The negroes have been moving away
in large numbers, and the movement
is spreading from the towns to the
farms. The negroes are leaving the
farms because of the low wages and
the hard work. They are going to the
towns to look for better opportunities.

TO TOBACCO GROWERS.

From the Secretary of the To-
beco Growers' Association.

The Secretary for Organizational
Work, Mr. J. R. Smith, is at the Seat of
Government at Raleigh.

Smith has been in touch with the
leaders of the tobacco growers in
the state, and has been working to
organize them into a strong and united
body. The goal of the organization
is to protect the interests of the
growers and to promote the welfare
of the tobacco industry.

THE STATE PRISON.

Will No Longer be a Burden on
Tax Payers.

The Legislature is about to pass
laws that will make the state prison
a burden on the taxpayers.

The new laws will provide for the
transfer of prisoners from the state
prison to county jails, where they
will be held until they are ready for
release. This will reduce the cost of
the state prison and will make it
more efficient.

THE WASHINGTON FIRE.

The Loco and the Engine to Be
Furred.

The Locomotive and Engine will be
furred to prevent fire. The fire will
be prevented by the application of
a special fireproofing compound to
the engines. The compound will
prevent the spread of fire and will
ensure the safety of the passengers.

THE LAGOON, FARMERS IN
RICHMOND.

The lagoon will be used to store
water for the farm. The water will
be used to water the crops and to
irrigate the fields. The lagoon will
be a valuable asset to the farm and
will help to increase the production
of the crops.

THE DRY SLAB WOOD.

Dry and Green Oak Wood. Dry
Pine Wood.
