

FINANCE, OIL AND GAS

Pittsburgh

PITTSBURGH, Feb. 2. — On the Pittsburgh Stock Exchange virtually everything was down. The losses here ranged from small fractions to \$6 a share, the latter American Wind Glass Machine common, which declined to 52. The preferred stock lost \$3 a share, selling at 105 and closing off at that price, while the common closed at 53½ bid, 54 asked.

New York

NEW YORK, Feb. 2. — The stock market was put to another supreme test of its endurance yesterday. Germany's unexpected announcement of her intention to renew submarine operations on a broader and more unrestricted scale, causing an all-around shrinkage of quoted values.

Selling was at its height in the first hour, when the trading was of frenzied character and lowest prices were made. Railroads of 1 to 5 points, with as much as 10 for Utah Copper were registered before mid-day, but recurred: liquidation took place after 2 o'clock, driving prices back to or near initial minimums.

With these exceptions, every stock in the active list declined under the low prices of last month, including United States Steel, which fell to 99 and closed at 102½, a net loss of 9½ points on sales approximating 600,000 shares, or about 30 per cent of the total operations of 2,100,000 shares.

Bethlehem Steel broke 36 points and rallied 10, shipments lost 10 to 13, making only feeble rallies, and rails at gross recessions of 3 to 7 points closed mostly at lowest levels.

Grain and Produce.

CHICAGO, Feb. 2. — Breaks that were foreseen yesterday in the price of wheat turned out to be much worse than had been generally looked for, but the downward plunge of the market was ended far quicker than most traders were expecting. Solely as the war without limit, wheat values made an instantaneous sheer descent of 15½ cents. Within 20 minutes, however, the market had rebounded 9 cents, selling of a panic sort was over, and thereafter prices kept inside of a 5-cent range closing unsettled 4½ to 8½ cents net lower with May at \$1.63½@1.63¾ and July at \$1.41½@1.41¾.

Articles.	Open.	Close.
Wheat		
May	1.56	1.63¾
July	1.36	1.41¾
Corn		
May	.95	.96½
July	.93½	.95½
Oats		
May	.49½	.52½
July	.49½	.51½

Oil and Gas.

The result of development work in the Eastern fields furnishes very little consolation to operators anticipating an appreciable increase in new production. Nearly all are light pumps in the list of late completions. Many are so small as to be considered unprofitable producers if it were not for the high market. With only a few there is no other choice than to develop light territory. Gusher territory is not in evidence. Later in the year the search for new producing territory will be renewed. There will, however, not be the enthusiasm attending that kind of work as in former years when so many sections in the Eastern fields held out inducements to drill and were later condemned by dry holes. Organizing new companies to engage in the producing end of the oil industry has been a feature since the market advanced and if all try for production they will have to do a lot of wildcatting.

Development work in the Burning Springs district, Wirt county, W. Va., is increasing. The companies are light producers but it is shallow territory and not expensive to drill. On Straight Fork, the South Penn Oil company has completed and put to pumping No. 11 on the N. W. Haught farm. It is producing 10 barrels a day from the salt sand. On Five Mile run, in the same district, the same company drilled through the same formation and it is showing for an eight-barrel pump.

Near St. Marys, Washington district, Pleasants county, Dinwiddie & Stewart drilled No. 8 on the Stewart-Reynolds farm through the Cow Run sand and have a very light pump. In Union district the Columbia Oil company has started to drill No. 2 on the N. W. Wells farm and moved in a drilling machine at No. 4 location. In the same locality G. B. Monteith is drilling No. 3 on the A. J. Monteith farm. The Berry Oil company is down

1,500 feet at a second test on the David Wells farm and fishing. On Bartholomew run, Mannington district, Marion county, the South Penn Oil company's test on the Newton Cunningham farm is a gasser in the Gordon sand. In the same district the same company is due in the Gordon sand at a test on the Burchinal heirs' farm. The same company is due in the sand at a second test on the D. L. Cunningham farm.

In Ellsworth district, Tyler county, Ingham & Co. drilled their second test on the W. F. Clark farm through the Big Injun sand and found nothing in that or any of the upper formations. In the same district the Manufacturers' Light and Heat company has the rig completed for a test on the M. Lewis farm.

In Big Sandy district, Kanawha county, the South Penn Oil company shot No. 4 on the Kate Huffman farm into the Squaw sand and increased its production from two to four barrels. The same company shot No. 5 on the Wesley Strickland farm in the Weir sand and increased its production from three to five barrels the ensuing 24 hours. In the Pinch Creek development, in Elk district, the Ohio Fuel Oil company has started to drill No. 6 on the Isabelle Myers farm.

In the Dent's run pool, Marion county, W. W. Hepburn has a fair producer at his No. 5 on the Alfred Kendall farm. The well is holding up at 257 barrels a day. In the same district F. W. Bartlett's No. 3 on the Z. E. Batsoo farm is producing 340 barrels and the Delmar Oil company's No. 2 on the John L. Hays farm 275 barrels a day.

INDUSTRIAL FAIRMONT

Application to the Baltimore and Ohio Railroad company for a siding to their powder plant opposite Riverdale, was made yesterday afternoon by the Monongahela Powder company. A ferry is being constructed to ferry materials across the river from Riverdale for the building of the 25 widely scattered buildings that will constitute the factory's layout, and the work of construction will be started immediately.

Although the factory is receiving more orders than it is able to fill, a very small percentage of the product of the Barnsville Woolen Mills is shipped abroad. Light woens are now being manufactured exclusively and so close is production behind orders that all shipments are made by express. With the installation of the machinery in the two new buildings, the output will be materially increased.

Fairmont's gas pressure goes down with the thermometer, and this morning was so low that the factories of the city dependent on the mains for fuel were forced to shut down. Every ounce of gas the Traction company has, is turned into the lines. The new million foot well turned in last week, is helping today, although when compared with the immense quantity used in the city, is almost lost.

His Best. She (on board ship). — "Mr. Jones, if I fell overboard and were drowning, would you jump in and save me?" He (hesitating, but honest). — "By Jove you know, I don't believe I could. But I tell you what I would do. I would watch you drown with the deepest sorrow and regret." — Life.

Heaviest Air Coldest. Heaviest air is coldest and a clear still atmosphere allows this to settle down to the soil, though it may be ten degrees warmer ten feet higher. Wind keeps the cold air from settling and mixes it with warmer strata at various heights so that all near the earth is of uniform temperature and warm enough that vegetation is not harmed thereby.

FEARS OVER PAY MAY "TURN HER HEAD"

ALICE BRADY.

Miss Brady, who stars for a movie concern managed by her father, William A. Brady, gets so much pay, her father says, he fears it will "turn her head." He says he puts half her salary in trust for her. Brady says movie actresses are overpaid and that the business is not a big money maker for owners.

FAMOUS BANKER ON STAND AT "LEAK" INQUIRY

Phily Fiske one of the greatest bankers in the country is here shown testifying before the committee investigating the alleged "leak" of President Wilson's peace not on which millions were cleaned up in Wall street. The inquiry is being held in the New York custom house.

FAIRMONT HIGH SCHOOL NEWS

Items About Faculty and Student Activity Prepared by Members of the Senior English Classes.

FAIRMONT SHOULD HAVE A NEW HIGH SCHOOL BUILDING.

(Student's View Point.)

A city's real prominence rests upon its schools. Fairmont should take pride in her schools and put forth every effort to make them the best in the state. The present high school building is hopelessly inadequate and something must be done to provide additional room or a new building within the next one or two years.

The present building was erected in 1906 and at that time it was amply large with all modern conveniences. But in the last ten years we have outgrown it and have had to make a number of changes as the following data will show:

Original Plan—11 class rooms; 2 small laboratories; 1 gymnasium; 2 locker and shower rooms; 1 library and reading room; 2 offices; 1 auditorium.

Present Use—20 class rooms; 4 small laboratories; no gymnasium; no locker and shower rooms; 1 library; 1 small office; 1 auditorium and study hall; 1 lunch room; 1 manual training shop; 1 manual training supply room.

All these changes have been necessary in order to provide additional class rooms. Clearly the High School is being used beyond its intended capacity. The students of Fairmont and vicinity who go there are not getting the instruction they should have on this account. Principal Colebank and those in charge are doing what they can to make the best of the situation, but each year conditions grow worse, owing to the increasing enrollment. A glance at the following data will convince anyone that a new building must be erected in the very near future if Fairmont is to have a really first class High School:

Date	Enrollment	Teachers
1907-8	214	7
1908-9	248	9
1909-10	280	9
1910-11	342	12
1911-12	360	15
1912-13	378	17
1913-14	447	18
1914-15	481	19
1915-16	585	22
1916-17	699	27

At this rate of increase, in 1920 the enrollment would be about nine hundred. How impossible it would be to house nine hundred in a building of five hundred capacity! The people of Fairmont must wake up and solve this problem that is facing them. Superintendent Wilson, in his usual energetic manner, is working hard to overcome present difficulties and to secure their permanent removal in the future. But he must have the support of the citizens of Fairmont in order to obtain the best results.

Fairmont is an industrial city and should have a High School that could more adequately provide for industrial classes. There should be spacious manual training shops, large laboratories for testing and experimenting, rooms for household arts and a printing shop. There should be provided rooms and equipment for teaching electricity and various industrial phases of freshhand and mechanical drawing. Provision should be made for a commercial department.

STOMACH AGONIES DUE TO POISON

One Dose of Remedy Sweeps Pain Away—Hundreds of Thousands Restored.

Mayr's Wonderful Remedy is unlike any other. It sweeps the Bile and Poisonous Catarrhal Accretions from the System. Soothes and allays inflammation in the Intestinal Tract—the cause of serious and fatal ailments, such as Gall Stones, Appendicitis, Acute Indigestion, Cancer and Ulcers of the stomach and Intestines, Yellow Jaundice, Constipation, Gastritis, Auto Intoxication, etc., etc. In every locality there are grateful people who owe their complete recovery to Mayr's Wonderful Remedy. Thousands say it has saved them from the knife. The most thorough system-cleanser known. Contains no alcohol or habit-forming drugs. FREE booklet on Stomach Ailments. Address Geo. H. Mayr, Mfg. Chemist, Chicago. Better yet, obtain a bottle of Mayr's Wonderful Remedy from Crane's Drug Store or Holt Drug Co., Fairmont, Prescription Pharmacy, Mannington, or any reliable druggist, who will refund your money if it fails.

ment where young men and young women could equip themselves for high grade office work. Courses should be offered in book-keeping, shorthand, typewriting, salesmanship and office practice. An opportunity should also be furnished to those who wish to equip themselves for first class mechanics. For this purpose, machine shops should be installed. All these phases of school work should be provided along with the classical courses which are now so well presented. One modern, up-to-date High School, cosmopolitan in character, would admirably meet the needs of our city. The young men and women of Fairmont believe they are entitled to these advantages which other cities and towns are providing.

Moreover, if Fairmont would stand out as one of the truly progressive cities of West Virginia, she must not neglect her schools. The erection of this modern, up-to-date, well planned and equipped High School would go a long way toward achieving that position.

WELCOME BACK TO F. H. S. Once more the halls are ringing, With Freshmen voices loud. Once more we hear the Sophomores And all the happy crowd.

We welcome you to us again, You happy, cheerful lot. We hope you will not get the germ That causes schools to stop.

H. J. W. '17

Dis-ease in High School The students of the high school this week are suffering from a peculiar dis-ease—a disease that seemingly attacks the nervous system making

Thanks, Postman—the Regular AETNA Check

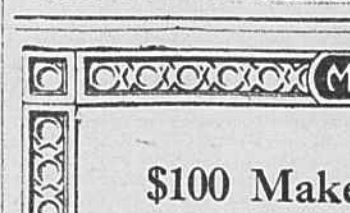

CAN'T beat that service. Almost pays to break a leg, doesn't it? This \$200 covers the \$50 a week for total disability provided for in my AETNA ACCIDENT POLICY. When I am only partly disabled I will get \$25 a week. Surgeon's fee or hospital bill, too. You postmen ought to

AETNA-IZE

You can easily afford it. In fact, you cannot afford not to. Out on the streets all day long, you're constantly exposed to a thousand forms of accident. Make life pretty comfy if something happened to you and one of the boys brought you a check as regularly as you bring mine to me.

A word, and the AETNA Agent absolute protection. My agent is

Charles G. Hood District Agent, TRUST COMPANY BUILDING.

\$100 Makes The Start It is an established fact that a vast majority of the wealthy men of today founded their fortunes by buying good bonds or dividend-paying stocks. If you have not already done so, make the start today and buy a \$100 bond. It is not necessary to wait until you have accumulated a large sum—one hundred dollars is all that is necessary. Write for our current list of offerings yielding 4½% to 6%.

Moore, Leonard & Lynch Members of New York, Chicago, Philadelphia and Pittsburgh Stock Exchanges Frick Bldg., Pittsburgh 111 Broadway, New York

the afflicted appear nervous and apprehensive. Fortunately, no fatal cases have been reported and it is anxiously hoped, by the students especially, that the cause of this trouble may speedily be removed. No it is not caused by Poliomylitis but by tests—"the excuse teachers give for torturing the students."

A few of the students are Very Poorly at this time having a temperature as low as seventy-five and in some cases, sixty. It is the earnest hope of all that none of the cases may have a tragic end. Although we are in somewhat the same position, we extend our sympathies to our more unfortunate fellow students.

Claude Wilson: "I have two tests this afternoon, I am going to try to make a hundred—fifty on each."

MOTHER

By Arthur B. Fisher. As I think and dream and ponder I am thinking most of you Wondering what you're doing yonder Among the friends I always knew, I am living way out here Passing days and years in year In my loneliness alone Ever longing for my home.

Oh, if I could just return To the home for which I yearn Just to see once more her face Before she leaves life's fiftful race.

Mother dear, I see you there Sitting in the old arm chair With your silvery shining hair And that other vacant chair

Drawn up closely by your side And its owner, he has died Soon you too will leave the other (Continued on page 8)

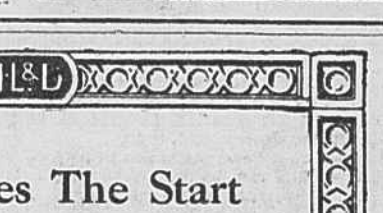

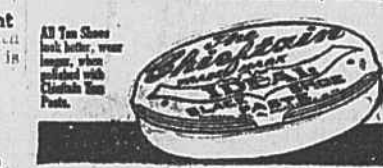

"You can see he's a regular feller all right. No wonder Sis fell for him. Knows what's what, he does. Sis is pretty particular and makes Dad use Chieftain paste all the time, so I give her feller a tin and just look at him. He slipped me a quarter for the tip, too, and Chieftain only cost me ten cents!"

CHIEFTAIN SHOE DRESSINGS GIVE SATISFACTION

Good dressers—men and women—who appreciate the big importance of clean, neatly polished shoes—all use Chieftain Shoe Dressing—black, tan and white. Chieftain Black Shoe Paste is easy, quick and lasting on all black leathers. Try a box from any dealer.
