

Evening Chat

The black haired lass,
Am most sincere,
The light haired lass
Am witty,
The strawberry blond,
Am mighty sweet,
The chestnut brown
Am pretty,
But the kind o' hair
That sets ye wild,
Completely turns yer head,
And tolls ye from
Yer own fireside
Am red, sub,
Yeasah, red.

"CHILD OF MYSTERY" Baffles Police!

DOROTHY LEWIS

Approved grazing allowances for the National Forests during the coming season provide for the pasturing of 8,400,155 sheep, 2,120,145 cattle and horses and 54,680 swine. These figures compared with those of last year, represent an approximate increase of 111,000 cattle and horses and a decrease of about 200,000 sheep. Grazing experts of the Forest Service figure that for the purpose of range allotment one cow is equal to five sheep. Consequently the increase of 111,000 cattle and horses is held to be equivalent to a net increase of 555,000 sheep or of 71,000 cattle, over the total number of stock grazed last year. The decrease in the number of sheep is said to be caused by the action of owners who are dispensing with their flocks in order to buy cattle. In most cases the reason is not because of greater profits in handling cattle, but because the rapidly changing conditions of open ranges where sheep have been handled in the past, make it increasingly difficult to find feed for this class of stock during the months when deep snow prevents grazing on the National Forests.

It is stated that the capacity of the National Forest range is gradually being increased by protection against overgrazing and improved methods of handling the stock. New areas are also being brought into use by the development of watering places while the eradication of poisonous plants is reducing the losses suffered by the stockmen.

**SUPPORT NATION
URGES CORNWELL**

Governor Issues Ringing Appeal to Patriotic Spirit of the People.

CHARLESTON W. Va., March 27.—Governor John J. Cornwell late yesterday issued a statement directed to all the people of West Virginia, urging that any indifference in the present war crisis be supplanted by real American spirit. He says:

"On Monday next, April 2, Congress will convene to receive a message from the President of the United States. This last Congress, through the action of a few Senators withheld from the President the power he sought and which should have been given, to protect the lives of our citizens, their property, their rights, and above all, the nation's honor. The new Congress will certainly act, for public sentiment has already made itself felt, but in order that the sentiment of the people of this state may be known and that the President and those who surround him and aid him are behind him in this, the greatest moment of our country's history, I urge all patriotic organizations, G. A. R. posts, all camps of Confederate veterans, all commercial organizations, all boards of trade, chambers of commerce, Rotary clubs and other civic societies to hold special meetings on Monday, the 2d day of April, to pass resolutions pledging their support to the President and the general Government in this crisis.

"Let the spirit of indifference and disinterestedness that prevails in some remote sections give way to loyal, virile Americanism. Wire the resolution to your Congressman and the President and spread the spirit of nationalism abroad. The days ahead may be trying ones. There must be unity of action, unity of sentiment and unity of purpose."

**SUFFRAGIST MAY BE
QUEEN OF WALL ST.**

ALICE CARPENTER.

The future queen of Wall street may be Miss Carpenter, famous suffragist leader, who has broken into finance there. A stock exchange firm has made her manager of its "woman's department."

KANSAS CITY, Mo., March 26.—Police of this city are baffled today over the puzzle of the "child of mystery," six-year-old Dorothy Lewis, who has been taken from a man claiming to be her father and given to a wealthy family. Dorothy told Judge Porterfield of the children's court, that F. D. Lewis, 75, was her father, that she had two stepmothers and was born "at the foot of the Berkshires."

Lewis and the little girl lived in Independence, near here, nine months on just enough to keep them alive. Lewis talks vaguely of a large estate coming to him and letters to a Mrs. Lewis hint of the man's right to a fortune.

In spite of Lewis' alleged threats to kill himself if the child is taken from him, Dorothy was given to the care of Mrs. Henry Dexter, a leader in Catholic charities here.

**How to Heal
Skin-Diseases**

A Baltimore doctor suggests this simple, but reliable and inexpensive, home treatment for people suffering with eczema, ring-worm, rashes and similar itching, burning skin troubles.

At any reliable druggist's get a jar of resinol ointment and a cake of resinol soap. These are not at all expensive. With the resinol soap and warm water bathe the affected parts thoroughly, until they are free from crusts and the skin is softened. Dry very gently, spread on a thin layer of the resinol ointment, and cover with a light bandage—if necessary to protect the clothing. This should be done twice a day. Usually the itching and burning stop with the first treatment, and the skin soon becomes clear and healthy again.

Almost any soap will clean the skin and hair. But those who want a soap which not only cleanses but actually helps the complexion and hair are wise to choose resinol soap.

Just Why She Said It

I do not know, but that fine lady really did say—

"THIS STORE IS JUST PERFECT"

—only she was mistaken. Nobody knows so much about it as the writer, who surely knows how much better the store is than it used to be, and even more, he knows how much better it will be because of the diligent study and earnest effort, to every day improve something.

To be just as good as other stores is not rising up to the ideal and endeavor many of our workers have for this store.

"What is your idea of a good store?" a kindly critic may ask. The answer is—
Come and see!

Here is a Chart that is an Object Lesson of Leather Values and Shoe Prices as they Exist Today

The largest shoe indicates the present shoe value at Hartley's today. The next shoe shows the present values in the average store today. The smallest shoe shows the shoe value if it were based on present wholesale costs of leather and present wholesale prices of shoes.

The reason that the largest shoe value is to be had at Hartley's today is because the foresight of this store enables us to offer over ten thousand dollars worth of shoes, bought and paid for and delivered, that came to us at the prices of last summer. With this resource as a fortification the Hartley Store will protect the public from exorbitant prices.

But Buy Now to be Safe

Shoe prices in most stores have gone up 50 per cent or more.

The average increase of the Hartley Store over old low prices of two years ago is 33 1-3 per cent.

Our prices will go up no more while the present sock holds out.

Buy all of your spring shoes now; buy all of your summer shoes and lay them by.

Buy while there are plenty of shoes here. Buy while you can be sure of getting the kind and sort you want, and while prices are low.

We cannot make new purchases to replenish these lots at anything like the present prices.
