Six Were Killed in the Carswell Mine

BLUEFIELD, W. Va., July 19.—Six men were killed yesterday in the explosion at the Carswell mine at Kimball, 20 miles west of Bluefield. The cause of the explosion is unknown.

The dead are: M. T. Roberts, mine foreman; John Teema, John Tooley, Charles Chapman, Elbert Smith and Richard Kennedy, miners.

First reports to Bluefield this afternoon were to the effect that 21 men had been killed. Continued searching and checking of the employees, about 60 of whom were in the mine at the time of the explosion, showed six men dead. All bodies were recovered.

The mine, which is one of the small shaft mines in the Pocahontas fields, is owned and operated by the Houston Collieries company. It has an output of 500 tons a day.

Earth Still Sliding On Paw Paw Branch

Indications are that the tracks of the Paw Paw branch of the Baltimore and Ohio railroad will not be cleared until Sunday morning between Catwaba Junction and Grant Town. The earth continues to slide on the tracks as soon as that which formerly fell is being removed. No loaded cars can be removed from the New England Fuel and Transportation Company's operations of the Stafford mine at Baxter. If the slide should continue several days the M. V. T. power plant at Rivesville would need coal as its stock is short.

East of Grafton yesterday there were 880 cars drawn by the B. & O. Rescue car 8, United States Bureau of Mines, is here today. It will go to Morgantown tonight, for use at the mining course at W. V. U.

The B. & O. telephone lines have been repaired after the several storms this week, which played havoc with them.

The B. & O. excursion to Atlantic City tonight will not be very liberally patronized. Only two tickets were sold up until noon.

Because of the wet weather few berry pickers went to Lowesville today.

Mail Flier Killed At Bellefonte, Pa.

BELLEFONTE, PA., July 19.—Lieutenant Charles Lamborn, 33, of Los Angeles, California, an arial mail carrier flying from this city Cleveland was killed this afternoon when his machine, a De Havilland Four, fell 6000 feet at Dickens Run at the foot of the Allegheny mountains.

Lamborn's body was found crushed under the wreckage of the machine by officers of the air station here who went to the scene of the accident on receipt of a telephone message from a farmer who saw the plane fall. The cause of the accident was not known.

Lamborn was reported as one of the best flyers in the arial mail service had been on this route for two weeks. He was to have started for Cleveland at seven o'clock this morning but was delayed by fog and winds. He left the flying field here at eleven o'clock under better conditions and quickly disappeared above the clouds. Word of the accident was received shortly after noon. The body and wrecked machine were being brought here this afternoon in a motor truck.

Activities in Boys' Work at Y. M. C. A.

Activities among the boys of the city is manifest in Y. M. C. A. circles since John T. Challice, the new boys secretary, assumed the post. Tonight the newspaper carriers of The Times will be the guests of the "Y" and next Saturday night the carriers of The West Virginian will be the guests. The boys will spend from 5:45 to 6:30 in the game room and from 6:30 to 7:30 in the swimming pool.

A picnic will be held in August by the boys' department of the Y for all the boys of the city. The affair will probably be held at Traction Park. Details will be worked out later for the event.

Mrs. John T. Challice, wife of the new boys' work secretary of the "Y," will arrive here tomorrow from Rochester, N. Y.

Under the auspices of the woman's department of the "Y," the community sing will be held on Sunday afternoon at 4 o'clock at the old fair grounds. Rev. J. C. Brownfield, D. D., will deliver an address. C. H. Bloom will be the song leader.

Foreign Sections On Dry Basis Now

Acting Chief of Police Seaman, Policemen Woodward, Holt, Nuzum and Constable L. J. Michael visited a number of foreign homes again yesterday afternoon and evening and destroyed seven and one-half barrels of "pick-handle."

The Perfect Shingles

The word "perfect" is a much-abused term, but it is the one word that describes Neponset Twin Shingles. They are the perfect shingles. They embody everything you want and need in a shingle—good looks, lasting wear, fire-resistance and economy.

If you come in today and let us show you these beautiful

NEPONSET TWIN SHINGLES

(Patent applied for)

You'll agree that they are the perfect shingles. Neponset Twin Shingles are made of felt, asphalt and crushed rock pressed into one inseparable mass and surfaced with red or green crushed slate—they look like slate but cost less.

Whether you plan to build or repair now or later come in and see "The Roofing Development of the Twentieth Century."

Fairmont, W. Va., July 19, 1919.

To the Public:

We realize the very serious condition that we are now experiencing for the want of houses, with the situation growing more deplorable daily. To take care of this condition will require from one to two million dollars. But if people desiring homes are willing to cooperate and the banks will make an extraordinary effort to cooperate with the Building and Loan Association, we are sure that relief can be had.

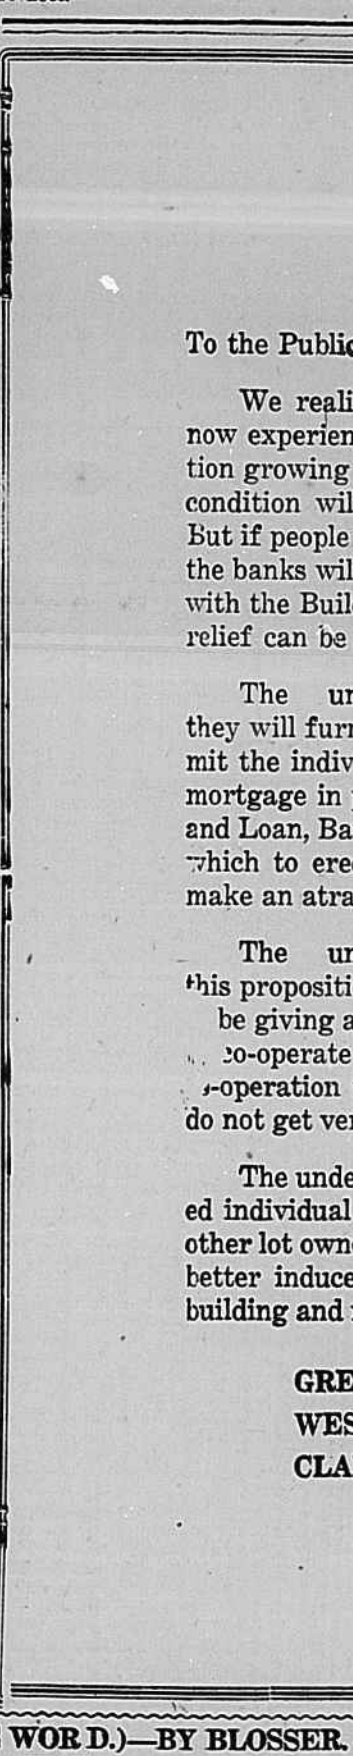

The undersigned wish to announce that they will furnish any building ground necessary and permit the individual or corporation to give them a second mortgage in payment for same, thus giving the Building and Loan, Banks or individual furnishing the money with which to erect a house a first mortgage, which should make an attractive loan.

The undersigned will be glad to go into this proposition with interested parties. We do not claim to be giving anything away, but we do claim to be willing to cooperate with anyone desiring a home, and without cooperation in this home-building or anything else, we do not get very far.

The undersigned companies, as well as the undersigned individual have land in all sections of the city and if other lot owners and corporations will offer the same or a better inducement, we are sure it will encourage home building and relieve the situation now existing.
