

## LAW OF THE LAND.

## THE PRESIDENT SIGNS THE SILVER REPEAL BILL.

It Passes the House by a Vote of 193 to 94 and in Less Than Two Hours Has Executive Approval—Mr. Hill Comes Forward With Two "Far Reel" Amendments to the Senate Rules.

WASHINGTON, Nov. 8.—The Wilson report bill with the "Voucher" amendment was taken up in the House. The opponents of the bill attempted to filibuster but could not muster a sufficient number to call for the yeas and nays. They continually interposed motions to take a recess and to adjourn. Finally at 1:55 the speaker put the question on Mr. Blair's motion to rescind the rule, with instructions to add his amendment (revising the two college act of 1887).

The yeas and nays were taken on Mr. Blair's motion, resulting: Yeas 109, nays 175. On the motion to concur in the Senate amendments, the yeas and nays were ordered and the Senate substitute was concurred in.

This is how the House voted on repeal by parties: Yeas, democrats 124, republicans 69. Nays, democrats 69, republicans 106. The Wilson bill passed the House August 28 by a vote of 230 yeas, 108 nays.

The result was heard without any demonstration. The opposition report on the bill suspending the operation of the law requiring a certain annual expenditure on mining claims was agreed to.

Mr. Cooper (Dem., Ind.) introduced a bill to make greenbacks and treasury notes liable to State and local taxation, and it was referred to committee on banking and currency. The House then adjourned.

**The Repeat Bill Becomes a Law.**  
WASHINGTON, Nov. 8.—The silver purchase-repeal bill was signed by the speaker shortly after its passage. The House then adjourned.

Mr. Cooper (Dem., Ind.) introduced a bill to make greenbacks and treasury notes liable to State and local taxation, and it was referred to committee on banking and currency. The House then adjourned.

When Mr. Pearson presented the enrolled copy of the bill to the president, explaining what it was, Mr. Cleveland immediately took up his pen and wrote these words in the lower left hand corner: "Approved November 9, 1893. Grover Cleveland," and the bill became a law.

The bill was signed by the president at 4:30 o'clock, or one hour and 35 minutes after its passage. Tomorrow the act will be entered on the official record at the White House and the engraved copy of the measure will be sent to the state department for permanent keeping. Secretary Carlisle expressed himself as highly gratified at the passage of the repeal bill.

Soon after its passage was announced Acting Superintendent Preston of the mint bureau, after consultation with Secretary Carlisle, telegraphed to all the United States mints not to make any further purchases of silver. Of the silver offered to-day one dealer had declined to accept the remainder of \$825,000. Two lots aggregating 50,000 ounces had not been heard from and unless their owners reply by telegraph to-night the silver purchases under the Sherman are closed forever.

At the present time the amount of Sherman notes outstanding is \$152,519,000. With silver purchased, but not yet delivered, this amount may be increased \$700,000.

## A QUORUM IN THE SENATE.

## Mr. Hill Offers Amendments to the Rules Regulating the Chinese.

WASHINGTON, Nov. 8.—A joint resolution was reported from the committee on foreign relations to provide for printing the history and digests of international arbitrations to which the United States was a party. The bill was passed.

Mr. Hill, New York, offered two amendments to the rules and asked for a quorum. The committee on rules. The first was, resolved, that subdivision 2 of rule 5 of the standing rules of the Senate be and the same be hereby amended so as to read as follows:

If at any time during the daily sessions of the Senate a question shall be raised by any senator as to the presence of a quorum, the presiding officer shall forthwith direct the secretary to call the roll and shall announce the result, and these proceedings shall be without debate; but no senator while speaking shall be interrupted by any other senator raising the question of the lack of a quorum and the question as to the presence of a quorum shall not be raised in any other way in every hour, but this provision shall not apply when the absence of a quorum is disclosed upon any roll call of the yeas and nays.

The second amendment was as follows: "Resolved, that rule five of the standing rules of the Senate be, and the same be hereby amended by adding at the end thereof the following:

Whenever upon any roll call, any senator who is present within the Senate chamber refuses to make response when his name shall be called, it shall be the duty of the presiding officer, either in his own relation or upon the suggestion of any senator, to request the senator so remaining silent to respond to his name, and if such senator fails to do so, the fact of such request and refusal shall be entered on the journal, and such senator shall be counted as present for the purpose of making a quorum."

## Amendments to the Geary Act.

A resolution was introduced by Mr. Hinton, dem., Virginia, to authorize the formation of a national conservatory of music at Washington. The resolution was referred to committee on the District of Columbia.

Mr. Gray called up the bill to amend the Geary Chinese exclusion act. He spoke in favor of the time in which the provisions of the act should go into effect. He said there were many Chinese in the prisons of California who were held there because there was not money enough available to deport them and because the provisions of the act did not allow of their liberation on bail.

Mr. Hawley asked if the bill before the Senate would liberate those Chinese who were incarcerated in California prisons.

Mr. Gray replied that he thought it would. He hoped the Supreme Court would at some time pass on the constitutionality of all the provisions of the bill.

Mr. Davis, Minnesota, introduced an amendment repealing the several Chinese

## prohibitory acts of Sept. 18, 1888, Oct. 1, 1888, and May 5, 1892.

Mr. Hear introduced an amendment suspending immigration of Chinese until a treaty on that subject shall be determined, except in cases of laborers already properly here, who may be permitted, under certain conditions, to return to the United States after visiting their native land.

Other changes are made, but the remainder of the Geary bill is continued in force until regulations governing immigration shall be established by treaty.

Mr. Palmer opposed the bill. He would not agree to any bill which discriminated against any man on account of his color or nationality.

Mr. Perkins spoke against an extension of time in which the Chinese should be allowed to register.

**Custom Duties on World's Fair Exhibits.**  
Mr. Cullum offered a joint resolution which had already passed the House, relating all custom duties on such exhibits at the world's fair as should be donated to the Columbian museum. He said Mr. Field of Chicago had given \$1,000,000 and a number of foreign exhibitors had made similar pledges to contribute to the museum.

Objection was made to transmuting consideration on the ground that the resolution should have first been acted on by a committee, but Mr. Cullum said he had been induced to introduce the resolution in such an irregular way by the fact that the fair was closing and he had to leave the city. The objection was not withdrawn, so the resolution went over without action.

Mr. Dolph spoke on the pending bill, his remarks being endorsed by a passage at arms with Mr. Gray. He said that the law requiring the Chinese to register was no more degrading than the law compelling Americans to register before voting, or the custom in Europe in European countries requiring Americans traveling through those countries to provide themselves with passports.

The objection had been made that it would require an enormous expenditure of money to carry out the provisions of the law, perhaps six or seven million dollars, but it must be borne in mind that this was not to be expended in one year. It might take four, five or six years to deport all the Chinese who were illegally in the country.

Mr. Spire introduced an amendment to section II of the bill, providing "that the sum of \$100,000 or so much thereof as shall be required during the fiscal year ending June 30, 1894, be appropriated for the enforcement of the several acts of Congress regulating and prohibiting Chinese immigration."

Mr. Gray objected to tacking on any amendments, as they would have the effect of defeating the bill. He thought the funds for the disposal of the treasury surplus for all purposes, but if an attempt at wholesale deportation were made \$100,000 would be as useless as 100 cents.

Mr. Gray asked unanimous consent to close the debate and have a vote on the bill, first at 4 o'clock, then at 6 o'clock tomorrow; but met with objection. The Senate then went into executive session and adjourned.

## DISMANTLING THE FAIR.

## Jackson Park Now a Scene of Desolation—Ferry Wheel Still Turns.

CHICAGO, Nov. 3.—The Columbian exposition management is threatened with a big suit for damages from the management of the Ferris wheel. The great wheel turned as usual yesterday, but the cars were empty and the ticket sellers were idle.

The exposition authorities decided not to have any conflict of the Columbian guards with the Ferris men, but let upon easier and more effective way to stop their lawless. They simply shut up the midway, fenced it in at all points and closed at night, holders of passes only being admitted.

Therefore, though the Ferris wheel revolved as it has done heretofore, it carried only three or four passengers during the morning. The managers intend to allow no break in their claims for damages by letting the wheel stop. It was lighted up even last night, and was the only thing that attracted attention from a distance to the world's fair grounds.

The argument of the Ferris wheel people is that, as the midway is part of the South Park system, the fair authorities have no right to close it against the people. On the other hand, the officials claim the right to do what they like about closing the midway until it reverts to the control of the South Park board on January 1.

The crowd of visitors in the grounds was smaller than ever and was very hard to find. The officials expect that it will dwindle to almost nothing, and it is probable that then the park will be closed altogether.

There is small reason why people should come now. The sight of the place at present serves only to destroy the pleasant impressions of earlier visits. The work of wrecking is going on everywhere and the scene is one of sad desolation. The administration is doing its best to surround the railroad tracks, carpenter and other workmen come in at the gates, and begin at once to load down and nail up exhibits that are soon afterward sent out of the park.

Nearly all of the big buildings are scattered, from one end to the other, with packing material, and the entrances are blocked with signs, banners, cases or hanging awnings. Only the great central buildings are left open, and even these will soon be closed, except to persons having business inside.

The crowds of workmen who hung around the Stony Island avenue gates have sprung back again. But there is no low demand for new now. Nearly all the exposition offices will soon be closed. The few men who kept the crowds off the grass plots were taken down, and the plants were taken under shelter. The workmen spare nothing and destruction and desolation are everywhere.

## ENGINE GOES DOWN A BANK.

## An Open Switch Causes the Accident—Engineer and Fireman Injured.

BRATTLEBORO, Nov. 3.—The passenger train for South Londonderry, on the narrow gauge railroad, which left here at 5:30 p.m. tonight, ran into an open switch at Wilbur's Mills, near Townsend. The engine was thrown down a bank and the truck under the passenger and baggage cars was drawn out. The car fortunately stopped on the bridge. Engineer Baldwin was seriously injured about the head, and the fireman was slightly injured. No other injuries are reported. A wrecking train has started for the scene of the accident.

**Missionary Blunt Called to Middlebury.**  
BARK, Nov. 3.—Simon Blunt Blunt, missionary in charge of the mission of the Good Shepherd, is a graduate of Middlebury College and Hobart College. He will preach his farewell sermon here the last Sunday in this month.

Tabby's "Bread Winner" outwears all other shoes.

## HORSE GOSSIP.

## Many New Records Made This Year—A Partial List of Them.

Lots of records have been smashed this season. The number, however, up to this time, those of all previous years. There have been no special improvements in tracks or sulkies to which the lowering of records can be attributed, but so large a number of champion records makes it evident that the progress is continuous. Each year some important records have been reduced, and the only ones now remaining have stood for many months of time for distances which have never before been attempted. The list as made up by the American Breeder is as follows:

The fastest record for the year is that of the bay gelding Ayres P., with running mate, reducing H. B. Winslow's record of 2:36 to 2:25. The best harness record of Ayres P. is 2:24. He is by Prosper Morrice, 2:21, son of 1892, which is an own brother to McCurdy's Hambletonian, 2:23, also to the great brood mare Biana, by Broadhead and Bernice dam of Biele, four years, 2:24. When Ethan Allen with running mate made a record of 2:15 in that famous match against Dexter, it was thought to be a wonderful performance, but here is a record nearly 12 seconds faster, made in the same manner, and as the running horse, in all such cases, lands nearly or quite all the road, the difference in vehicles would be of no particular account.

The champion pacing record has been equaled this season by Flying Jib, pacing a mile against time in 2:04, which is the same as was made last season by Mares in a race. Flying Jib is by Algonquin, a highly bred son of Almont, dam, Middletown Mare.

The champion record holder of the year, both as regards the number and importance of the new records he has made, is clearly the four-year-old colt Directum, 2:45. The stallion year record, which last year was placed by Dexter at 2:10, Directum has done in the fourth heat of a race which he won at Lexington, October 11, to 2:08, which constituted also the fastest fourth heat record, and it was made in the championship four-heat race, every heat being trotted below 2:40. His first heat of 2:49, and the third, which was 2:48, were also then new four-year-old year records. At Pleasant September 1, he reduced the stallion record to 2:07, and at Chicago, September 15, to 2:06. His present record smashes everything at either trotting or pacing made in a contest with other horses, except the pacing record of 2:04 by Mares, and 2:04 by Hal Pointer, made last year, while only Nelly Hambleton and Flying Jib have as fast yearlings made against time. Directum's record of 2:05 was made October 17, at Nashville, Tenn., in the third heat of a race.

The seven-year-old brown stallion, Saladin, by Sultan, dam, Ella Lewis, 2:07, by Vermont, son of Independence, by Vermont Black Hawk, reduced the stallion pacing record of 2:05, made last year by Guy in the same race in which Mares took his record of 2:04, to 2:05.

Robert J. paced the two fastest consecutive heats ever won by any pacer, each in 2:05, which is the best record for a five-year-old.

A wonderful performance was the most marked race ever trotted, and decidedly the fastest nine-heat race on record, which Alts won, trotting for ninth heat in 2:09, which also constitutes a champion record for the ninth heat. Alts is by Patrogon, own brother to Patron 2:14, and Prodigal 2:16, dam by Attorney, son of Harold. Her second dam is by Gov. Hatch, a half thoroughbred son of Cassius M. Clay, Jr., third dam, belly, dam of three in 2 by Iowa, a third dam son of imported Galileo. The race record as noted above has since been reduced by Directum.

The pacing record by a mare, which was made last year by Violette, by Ethan Wilkes, of 2:04, was reduced by May Marshall, by Billy Wilkes 2:03, son of Barry Wilkes 2:14, by George Wilkes 2:22, dam, Bonnie Schuyler, dam of May Marshall 2:12, by Mantabino, Alabaster, second dam by Nick Monroe, son of Jim Monroe, to 2:09, and again in the second heat of a race, at Nashville, to 2:08.

One of the very best performances is that of the three-year-old bay filly Fantasy in reducing the three-year-old record of 2:10, held jointly by Algonquin and Sunol, October 13 at Nashville, Tenn., in the second heat of a race in which 10 started, to 2:08. Fantasy is by Chimes three years, 2:09, son of Elector and beautiful Belle (2:20), dam by Almonah, a half-thoroughbred son of Almont, second dam by Almont, Jr., 2:26, third dam by Hamilton's Patschen.

The champion pacing record by a four-year-old colt of 2:04, which was made last year by Robert J., son of Hartford, and later equaled by Manger, son of Nutwood (2:13), is now being equaled by Diablo, a chestnut colt by Charles Derby (2:26), son of Chestnut (2:24), by Strathmore, dam by Almonta (2:26), second dam, Jarreda dam of Bayard (2:26), 2:13, by Bayard (2:21), son of that record holder.

Barred his mark at 2:01, but this property still belongs to W. Wood, who has a record of 2:07.

The pacing record of 2:11 over a half-mile track made last year by Riley Medium was reduced by Saladin to 2:09.

The champion trotting record by a gelding of 2:10, which was made by Jay Eye nine years ago, and for one day constituted the champion trotting record of the world, was reduced by Guy, a black gelding 18 years old, by Kentucky Prince, dam, Flora Gardner dam of Fred Folger, 2:20, by American Star, second dam by Ray Richmond, to 2:09.

At the close of last season the gelding record was a little better. Little Albert, a bay gelding, at 2:12. It has been reduced this year to 2:10, and is held by Little Albert, son of Albert W. 2:20, dam by Road's American Star.

The best record for a four-year-old trotting gelding has stood unbroken for some 10 years at 2:19, held by Jay Eye, but this has been reduced this year by the chestnut gelding David R. by Young Jim, son of George Wilkes, dam, Rosa Clay, by American Clay, October 21 to 2:12.

The wagon record at the beginning of this season was 2:15, made by Alberton two years ago, the best previous record having been made 15 years ago. This season the wagon record has been reduced by the little black gelding Guy, 13 years old, to 2:13.

The record by a 3-year-old trotting gelding of 2:18, made by Panet, has been reduced by Little Sump, a gray gelding by Kellar Thomas (2:14), son of Pilot Duroc, by Pilot, Jr., dam, Maud S., 2:28, to 2:17.

The yearling stallion pacing record has been reduced by Ambulator, by Ambassador (2:14), son of George Wilkes (2:22), dam by Regulus, son of Hambletonian, to 2:14.

The yearling trotting record of 2:27, which for two years has been held by Bell Bird, has been reduced by Princess Clara, a brown filly by Prince George, son of Kentucky Prince, dam, Reilly dam of Tuccora, 2:24, by Princess, second dam, Roma dam of Romance, four years, 2:24, etc., by Goldust, third dam, Bruma dam of Woodford Pilot, 2:28, etc., by Pilot, Jr., to 2:26.

A new champion record was made at Saugus, Mass., October 21 by the yearling colt Perid, by Scientist, son of Almont Wilkes, dam by Maynard (2:27), trotting two miles in 2:04, the first mile in 2:10 and the second in 2:04.

Thirty-three years ago, against time, the famous Flora Temple reduced the three-mile harness record to 7:34, which has stood as the champion three-mile trotting record against time. A few weeks ago this was reduced by Bishop Hero, a bay horse by Bishop, son of Prince, dam by Hero of the Maine, second dam by Joe Dows of 7:19. At Nashville, October 29, Nightingale, by Mantabino King, dam by Wood's Hambletonian, on her first attempt reduced all previous three-mile records, whether in harness or against time, at either trotting or pacing, to 6:54.

The five-mile record of 13:09, made 19 years ago by Lady May, was reduced by the black gelding Pascal, against time, to 12:45, and Factory Girl, at Montreal, October 18, reduced this race in which six started to 12:47.

The six-mile record was reduced a few years ago by Satellite to 10:53, which this year has been done by the bay gelding Long Time, by the thoroughbred Jack Rowdy, dam by American Eagle, to 10:48.

## A Problem.

The celebrated Sigma Howland was in the middle of her solo when Little Johnny Tizotte, referring to the conductor of the orchestra, asked, "Why does that man hit at the woman with his stick?"

"He is not hitting at her, keep quiet."

"Well, then, what does she hold her for?"

—Yankee Blade.

## DENNING ALLEN

Sire of the Eastern Trotter set by any stallion standing in New England. (1891) 2:24, 2:04 in third heat of a race. He is the only stallion in the East who has won a race in less than 2:00.

THOUGHT.

(Sire of Mack, 2:23; Arede, 2:24; Mable, W. 2:27; second Duke, 2:28; and many others.)

Denning Allen has been purchased after very careful selection. He is a bay gelding, 10 years old, and is the only stallion in the East who has won a race in less than 2:00. He is the only stallion in the East who has won a race in less than 2:00.

He is a registered in the American Horse Register. His sire was Roman Allen,
