

FOUR MEMBERS OF WILSON'S CABINET

Bryan, McAdoo, Burleson and Daniels Certain, Say High Congressional Authorities.

TWO PLACES ARE UNSETTLED

Boethals under Consideration for Secretary of War—Agricultural Department Other Doubtful Portfolio.

Washington, Feb. 26.—It was positively stated tonight in high congressional quarters, chiefly identified with the incoming administration of President Wilson, that the following cabinet appointments had been definitely determined: Secretary of state—William J. Bryan of Nebraska; Secretary of the treasury—William G. McAdoo of New York; Postmaster-general—Albert S. Burleson of Texas; Secretary of the navy—Josephus Daniels of North Carolina.

The foregoing names and positions are said to have advanced entirely beyond the stage of conjecture or gossip, and to have become final in the forthcoming cabinet list. Other places in the cabinet are said to be reasonably settled with the exception of the portfolios of war and agriculture.

The name of Representative A. Mitchell Palmer of Pennsylvania, which has been prominently mentioned in connection with the treasury-generalship, is now definitely eliminated. It appears that a cabinet position was tendered to Mr. Palmer and declined, the expectations being that he would remain in the House of Representatives to be in a sense the personal representative of Mr. Wilson in the important legislation about to be formulated. This plan was carried into effect by the resignation of Mr. Palmer from the House of Representatives late today when the announcement of Representative Burleson that he would resign the position of chairman of the democratic caucus at an early day was coupled with the announcement by House leaders that Mr. Palmer would succeed as chairman of the caucus.

Other names which have been prominently mentioned for the attorney-generalship, but which are now definitely eliminated from this or other cabinet portfolios, are: Chancellor Walker of New Jersey and Representative Henry of Texas.

Information from certain sources give assurance that Col. George W. Goethals, chief engineer and chairman of the Panama canal commission, is under consideration for secretary of war. Some close friends of the incoming administration have felt that a lawyer should be chosen as head of the war department in view of the legal questions involved relating to the Panama canal, the Philippines and other important matters and they sold to the line of lawyers who have advised the department, such as Robert T. Jackson and Winston. Colonel Goethals's familiarity with the Panama canal, it is declared however, has given him prominence in consideration for this portfolio.

WILSON RESIGNS THE GOVERNORSHIP

Threatens to Come Back as President and Fight for Jury Reform Bill.

Frederick, N. J., Feb. 26.—Governor Woodrow Wilson warned the members of the New Jersey Legislature tonight that as president of the United States he would feel privileged to come back even as early as next week to fight before the people of the State for judicial reform. Mr. Wilson resigned the governorship today to take effect on Saturday. Both houses had hardly received his notice of resignation when the assembly went on record by an overwhelming vote against pushing the jury reform bill from first to second reading. The bill had been urged particularly by Mr. Wilson in his message. It would give away the power to draw judges from the shuffles, holding it with a commission appointed by the governor of the State. Mr. Wilson's original proposal was that the chief justice of the supreme court should name a commission, but in his conference with democratic members of the Legislature recently, the latter body and finally it was agreed that the jury commission be appointed by the governor.

Mr. Wilson regards today's developments as a breach of party discipline. He believes, moreover, that the principle of justice in this country is at stake in the process of selecting juries and he considers the issue so vital that he does not shrink from delivering several speeches on this subject before the people of northern New Jersey, most of whom assembled today in effort to support the Governor today.

"Yes, it looks as if the bill were beaten," said Mr. Wilson tonight, "but it isn't dead yet. It is perfectly well known that the persons who are exerting pressure on the Legislature to defeat this bill are those who wish to control grand juries because they want to break the law and the people of the State will understand that abundantly before I get through with it."

The Governor was asked if he would speak in Jersey City from whose assemblyman proceeds his chief opposition. "I would not surprise me in the least," replied Mr. Wilson. "I can do it as president of the United States just as well as now."

Mr. Wilson said that if the jury reform bill were defeated he would consider that as being booked to speak in the primary campaign next fall against those assemblymen seeking re-election who had voted against the measure.

The Governor's declarations caused a flurry of excitement in political circles. Cheers from many of the counties had

been protesting against the bill and political lines in the night are drawn in every direction.

Mr. Wilson had little national business before him today. He will be at the State House tomorrow for his last working day. On Saturday he will attend the inauguration ceremony here of his successor, James F. Fielder, president of the State Senate.

Governor Wilson sent to the House this afternoon a special message urging the passage of the jury commission bill. Shortly afterward the House by a vote of 14 to 31 refused to take up the bill out of its regular order but later the measure came up in the regular way when Mr. Martin, democrat, said he had some amendments to propose and asked that the bill go over until tomorrow. This was agreed to by practically a unanimous vote.

BRICK HOUSE BY MAIL.

Essex Junction Manufacturer Helps Test the Parcel Post.

Essex Junction, Feb. 25.—H. D. Drury of the Drury Brick & Tile company sent by parcel post this morning a brick of local manufacture to be used in building a brick house at the Coliseum, Chicago, during the Clay Products exposition which is to be held February 26 to March 3. This brick will be one of 25,000 sent by parcel post from every brick plant in the United States to be used in the construction of this house, which will be given away and re-erected after the exposition. The idea was originated to test the merits of the parcel post system. A record will be kept of each brick from the time it is mailed until it is delivered in Chicago in order to see how speedily Uncle Sam can deliver a brick house by mail.

George T. Graves of the Queen City Brick & Stone company, Winoski, also sent a brick of his manufacture to Chicago by parcel post today.

DRINKING AND SMOKING IN U. S. BREAK RECORDS

Washington, Feb. 26.—Americans are drinking more whiskey, smoking more cigars and cigarettes and chewing more tobacco than ever before in history, according to latest tax returns to Regal S. Tamm, commissioner of internal revenue. From July to February the nation has consumed 24,000,000 gallons of whiskey, an increase of 5,000,000 gallons over the corresponding period of the previous year; 25,000,000 cigarettes, an increase of 2,500,000; 4,000,000 cigars, an increase of 250,000; and 25,000,000 pounds of smoking and chewing tobacco, an increase of 1,000,000 pounds. These are record-breaking figures.

In addition, drinkers of beer are resuming their stride. During the fiscal year 1912, the consumption of beer fell off materially, but for the first seven months of the current fiscal year the people of the United States have drunk 28,841,999 barrels, an increase of 1,309,000 barrels over last year.

Drinkers, smokers and chewers are thus enabling the federal government. Internal revenue taxes from July 1 to date are \$12,500,000 greater than any previous record for a similar period.

CANDIDATE OF G. A. R. MEN

Comrades Induce Colonel Hannan to Run for Department Commander.

Burlington, Feb. 26.—Col. Thomas Hannan, superintendent of the Vermont Soldiers' Home, at the solicitations of comrades in various parts of the State, has decided to become a candidate for the office of department commander at the coming encampment of the department of Vermont G. A. R. Colonel Hannan served three years in Co. K, 6th regiment, enlisted as private and was promoted to sergeant. His subsequent record in the G. A. R. in the Vermont militia, and now for many years as superintendent of the Soldiers' Home is well known and will commend him to his comrades.

ABOUT WOMEN.

Levin, Mass., will have not one woman's home where girls working for moderate salaries may find comfortable quarters, but a series of them. The first one was established in a renovated building and cost about \$30,000. Several societies have cooperated to secure the money for these homes.

Mrs. Miriam Hubbard, a student of the University of Michigan, who is a daughter of Elbert Hubbard, is considered one of the most perfectly beautiful girls of the age. She is very fond of outdoor sports and especially of walking. Every morning she may be seen in short tunic and heavy shoes on the campus ready for her walk, or just returning from it.

The Equal Suffrage League of St. Louis has offered a prize of \$5 for the best suffrage poster to be used during the coming two years' campaign. The poster must bear the league slogan, "Suffrage for Missouri, 1914." It must present the purpose of the campaign, and depict the club color, yellow. The competing designs will be exhibited in the parlors of the St. Louis Artists' guild at the close of the contest and a popular vote taken to decide the winner.

Horticulture opens a line of work for women the possibilities of which were little dreamed of a few years ago. Poultry raising and the dairy have attracted women for generations, but a specific line of horticulture is much less complex. For more than one administration a woman near Washington, D. C., supplied the White House with rare asters. An Iowa woman is becoming known for her fine roses. While a woman in Kansas supplies the Kansas City market with white carnations. The western coast is lined with women who are raising hops, loganberries, olives and oranges, while the largest grower of English walnuts in this country is a woman. What one raises matters little if the product is of the best.

RUTLAND PURCHASING AGENT

Rutland, Feb. 24.—James K. Kilborn of Portland, Me., is to succeed A. E. Douglas as purchasing agent of the Rutland railroad, with headquarters in this city. Mr. Kilborn was appointed today and received the appointment. He has been connected with the purchasing department of the Maine Central railroad. Mr. Douglas, after five years in Rutland, goes March 1 to Cincinnati, Ohio, to enter mercantile business.

London, Feb. 25.—Dr. Bruce, a brother of Lady Robert B. Scott, the widow of the Antarctic explorer, Capt. Robert F. Scott, received a wireless despatch from his sister today saying that she had heard of her husband's death and that she was in good health. Lady Scott is on board the steamship Aorangi which is due to reach Wellington, N. Z., on February 27.

TARIFF BILLS TO BE READY APRIL 1

Wilson Announces Date on Which Extra Session of Congress Will Be Called.

MEETS GENERAL APPROVAL

Caucus of Democratic Members of House March 5 Is Expected to Confirm Hold-over Committee-men.

Washington, Feb. 24.—The extra session of Congress, which President-elect Wilson today announced would be called to meet April 1, will find a number of tariff bills ready for its immediate consideration and other general policies mapped out for the new administration. The date received general approval in Congress.

The letter from Democratic Leader Underwood upon which Mr. Wilson based his decision to convene the session April 1 was sent after members of the ways and means committee had advised that it would be possible to perfect several of the tariff bills by that time. Members of the committee today predicted that those measures would consume less than a month in passing the House and that there would be no marked division of opinion in the committee over the preparation of any of the bills.

The caucus of democratic House members March 5 is expected to confirm to serve again all of the hold-over democrats now on the ways and means committee, and to fill the democratic vacancies caused by the retirement of Senator-elect James and Representatives Randall of Texas and Brantley of Georgia.

An income tax bill is being prepared by Representative Hall of Tennessee, and will probably be one of the early measures introduced in the House.

Whether the currency question will be taken up remains a question upon which members of both houses are in doubt. Senate democrats, prominent in the reorganization movement, are now canvassing the situation with a view to calling a caucus within a short time to bring matters to a climax.

The plan now outlined, to which is attached a number of amendments, has been secured from more than a majority of democrats in the next Senate, contemplates the selection of Senator Kern of Indiana as permanent chairman of the caucus; the distribution of important committee places equitably among democrats, leaving the other senators in control of the chairmanships to which seniority would entitle them; and a change of the conference committee's methods so that the leading members of committees shall not dominate the small conference committees that settle differences between the two houses over bills that have passed.

CONGRESS GOOD TO VERMONT

Federal Buildings at Richford, St. Johnsbury and Brattleboro Assured.—Latter Will Cost \$140,000.

Washington, Feb. 25.—Vermont has fared well during the present session of Congress, no less than three new public buildings being assured, including a custom house and postoffice at Richford, a postoffice building at St. Johnsbury, cost \$100,000 and a postoffice and U. S. district court building at Brattleboro, for which appropriations totaling \$190,000 have been made.

The last two building projects have been followed closely by Representative Flinn, and aided by Senator Dillingham who introduced and put the last \$50,000 bill through the Senate for the Brattleboro building. The original appropriation for this building was secured through former Representative Haskins, but the project has been held up for the reason that it was found that, through some oversight, the courthouse section had been omitted.

The necessity for these buildings is well known in the several localities, and all will be fine additions to the State.

Permanent U. S. district courts will now be held in Burlington, Rutland, Windsor and Brattleboro.

FEELS LIKE CELEBRATING.

Middlebury College Invites Graduates to Form Association and Banquet.

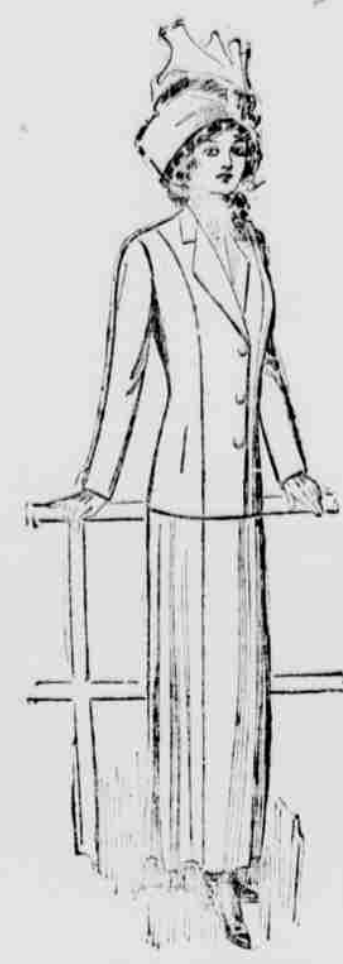

Middlebury, Feb. 25.—Graduates of Middlebury College living in Vermont have been invited to attend a banquet at Bartlett hall Friday evening, March 7, for the purpose of organizing a State alumni association. President John M. Thomas of the college in sending out the invitations calls attention to the addition of \$12,500 which will be received from the State by the recent act of the Legislature. This will make the total annual appropriation from the State, after the first day of next July, \$28,500. The appropriation dedicates the State scholarship, \$2,400 being for this purpose and the balance of \$10,400 for instruction in general subjects.

In 1906 the faculty consisted of nine members, there were 18 students and the income of the college was \$5,914, of which the students paid \$2,536. Now the professors and instructors number 28, there are 290 students, the total income is \$70,748, and the income from students is \$25,000. The general education board fund of \$300,000 has been paid in, one-fourth of it is in the gymnasium, one-fourth in the chemistry building, and \$100,000 is at work as endowment.

The geographical distribution of students is: From Vermont, men 20, women 31, total 51; from Massachusetts, men 22, women 23, total 45; from New York, men 27, women 25, total 52; from Connecticut, men 15, women 12, total 27; from New Hampshire, men 15, women 10, total 25; from New Jersey, men 15, women 11, total 26; from Rhode Island, men 2; from Japan, men 3, women 1, total 4; from Delaware, Ohio, Oklahoma, Canada and Turkey one man each, grand total of 123 men and 117 women.

Lima, Peru, Feb. 25.—The Peruvian cabinet, under the presidency of General Enrique Yela, resigned office today as a sequel to the giving up of its portfolio by the finance minister yesterday.

BAKED HAM.
In taking a ham it seems necessary to have a whole small one, as the cost for fuel and the amount of added time and labor should be made to provide several meals. The baked ham can easily be a knuckle or the top end, and may be a very cheap piece for a small family, as it will be perfectly tender to the very last part of the skin and while the boiling is a simple matter of little labor and some paraffin small amount of fuel, even if a gas range is used. Here is a simple recipe for baked ham, and one that will be more readily followed than some others.

When the ham is very clean, cut it over the fire in a kettle of cold water and let it slowly come to a boil; simmer twenty-one minutes of an hour for each pound of the ham weights. Then for the last half hour of the steaming and leave the ham in the water all night, closely covered. In the morning, wash it, carefully, trim to good shape, and place it in a baking pan, baste in a slow oven about three hours, then take it out and spread over it thickly a mixture made of a cupful of bread crumbs and a half cupful of dark brown sugar. Set it at regular intervals with clove; dot it back in the oven long enough to get brown and crisp, and just before removing it, pour over it a glassful of unfermented grape juice, or a half cup of lemon juice, transferred. Instead of bread crumbs and sugar, some cover with butter, or make a thin crust not over an eighth of an inch. This is put on before baking. Two pinch clove is undesirable. A slight dash of cinnamon or nutmeg will be helpful in many cases.

PARTRIDGE OR CHICKEN MINCE ON TOAST.
While we will not have much of that roast partridge or chicken left over from Sunday, still what there is will be very handy for this breakfast or lunch dish. Any bits of dressing will work in all right and if there is still too little of the mince for the amount desired, use any of the gravy, which may be left. Or, coarse the meat in a mortar and add some of the dressing and the amount stated in the recipe must be reduced proportionately if there be not the quantity of meat specified.

Put through the meat chopper any cold left over partridge or chicken boiled or roasted. Measure To each pint allow a half pint of cream sauce. Heat together one tablespoonful of butter and one of flour; add a half pint of milk, stir until boiling; add a level teaspoonful of salt, a tablespoonful of butter, a half teaspoonful of chopped parsley. To give variety add a half can of chopped mushrooms. Now add the chicken and stir the mixture over hot water while you toast squares of bread, trim off the crusts, cover with a layer of the mince, making a light indentation in the centre. Poach publicly and neatly an egg for each square of

toast; drain, trim them and put one in the centre of each mince. Dust lightly with salt and pepper, and send at once to the table.

SWEET SANDWICHES

For afternoon tea, or even for children's luncheon, sweet sandwiches are often preferred to any other kind. Make one ordinary cake frosting and mix with it chopped raisins, or candied fruits, or figs, or make a hard sauce as for puddings and spread between the slices of bread. Jellies and jims may also be used.

BAKED MACARONI

Cook a cup of macaroni broken in each tenth pieces, in rapidly boiling water until tender; drain and rinse in cold water. Turn into a buttered baking dish. Heat two eggs, and a few grains of cayenne until in full steam; of the mixture can be taken up; then add one cup and a half of milk and pour over the macaroni in the dish. Bake in a moderate oven until the custard is set. Half a cup or less of grated cheese may be mixed through the macaroni before the liquid is poured over. Serve hot.

MINCE PIE.
Four pounds lean beef, boiled and chopped fine, twice as much chopped green apple, one pound suet, three pounds Sultana raisins, two pounds currants, one pound raisins, cut fine, one-half pound citron, cut fine, one pound brown sugar, one quart molasses, one pint vinegar, juice of eight lemons and enough of the stock in which the meat was boiled to give the desired moisture, one tablespoonful of salt, one of pepper, one of nutmeg, four of cinnamon, one of cloves, two nutmegs. Mix well and warm it on the stove.—E. C. R. W.

FRUIT PUNCH.
Two cups sugar, one cup water, one cup strong tea, two cups strawberry pulp, one can grated pineapple, juice from five lemons and five oranges; make syrup by boiling sugar and water 10 minutes; add tea, strawberry, lemon, orange and pineapple. Let stand one-half hour, strain, add two quarts of cold water and pour into a punch bowl with a good sized piece of ice in center or use more of very cold water and serve immediately.

SALMON LOAF

One can of salmon, remove bones and

mince fine, one-half teaspoonful salt, a dash of pepper, one cup cracker crumbs rolled fine, two tablespoons melted butter. Mix and form into loaf and place in baking dish and pour over one-half boiling water and bake 20 or 25 minutes in hot oven.

DOUGHNUTS.

2-1/2 tablespoons of butter,
1 cup of milk,
2-1/2 teaspoon of cinnamon,
1 teaspoon of salt,
1 cup of sugar,
2 eggs,
1-1/2 teaspoons of baking powder,
1-1/2 teaspoon of nutmeg,
Knead wheat flour.

Cream the butter and add half of the sugar, the eggs well beaten, the remaining sugar and the milk; then add three cups of flour stirred with the baking powder, salt and nutmeg. Mix well and add enough more flour to make the mixture stiff enough to roll. Turn the dough on to a floured board, roll one-fourth inch thick, cut out with a doughnut cutter and fry in deep hot fat. Drain on brown paper.

HONEY CAKES.

Bring one and one-half cupfuls of honey to a boiling point. Skim if necessary. Add one-fourth cupful of butter and cook. Add two cupfuls of pastry flour, stirring it in carefully. Let this mixture stand over night. When ready to bake stir in the grated yellow rind of one lemon, two tablespoons of lemon juice, one-half cupful of chopped blanched almonds. Add one-half teaspoonful of sugar dissolved in a little lukewarm water and bake in small round tins, 100 when cool.

PLAIN LEMONADE.

For economy and best refreshing effect there is nothing better than absolutely plain lemonade.

All is extremely good for the health and can easily be made in less than three minutes. Take one good sized California lemon, squeeze out all juice and cut the rind in eighths. Put in three heaping tablespoonfuls of granulated sugar and put both rind and juice in a quart glass jar. Fill with cold water from the faucet, and for winter or spring, use no ice. Being in a jar it may be easily covered and set out in a cool place. A little canned grated lemon pineapple will improve it considerably. This takes about one cent's worth of sugar and a three-cent lemon for a quart. It will improve to stand one hour before using. California seedless lemons give richest taste. Do not heat or make syrup.
