Among them and efficiently, and the history of the are William T. Hickey and Eli M. Gross, past 75 years proves that there is no secretary-treasurer and vice-president of danger of having too many agencies of the Colorado Federation of Labor, charg- transportation.

AN INEXPENSIVE PARM HOUSE.

The provision of proper tenant houses. on farms is of increasing importance to farm management because of the increasing number of rented farms, the growing that -Louisville Times demand of tenants for modern bouses and a better understanding of the influ nces of the home upon farm tabor and field efficiency. The last census teport shows an increase during the previous 10 cears of more than 324,000 rented farms. Many others are flying in buildings wholly unsuited to their needs. The cost of these houses commonly is inconsistent with the Su value of the farms, and the lack of improvements in them too often is in strikng contrast with the outballdings, ing machinery, and field equipment

Special emphasis has been put upon proelding a little home that will be conductive to the health of the family, provide for its social and domestic needs, and save onnecessary steps and operations on the part of the housekeeper-Household Department, in Woman's World for Feb-PHART

WAKE YOUR OWN ICE.

Every farmer can have his own to plant at a cost of from \$12 to \$20, if he will use the apparatus described in a new bulletin just issued by D. J. D. Walters, sas Agricultural college

The fee plant is made of galvanized veto of the Burnett immigration bill, an inner tank about 10 feet long, 2 feet tank should be slightly wider than the would fail by twenty votes to receive bottom. The inner tank should be dithe two-thirds necessary to override vided into six compartments by means agricultural college. After a lecture
