TWENTY-THIRD YEAR. No. 8

Telephone Saved Child's Life

One of the children fell into a water tank on an Alabama farm and was rescued unconscious and apparently lifeless. The frantic mother rushed to the telephone and called the doctor six miles away. He told her what to do and started at once, but before he arrived the child was out of danger.

The protection of women and children is only one of the chief values of the telephone on the farm.

You can have this service at small cost. See the nearest Bell Telephone Manager or send a postal for our free booklet.

For singles—trap or field—just toss in a shell, press the button and "PULL." The side bolt makes it easy. You don't have to tug at the barrel or watch an on-and-off device. The action stays open after each single shot is fired. It always stays open when the magazine is empty. Five shots—three to get the cripples—each under absolute control of the trigger finger. The recoil reloads for you—kicks another shell in; takes the strain off the gun—the discomfort out of the kick—all without diminishing the drive behind the shot.

Simple take-down—a few turns of the readily handled magazine screw-cap makes cleaning, carrying and interchange of barrels quick and easy.

Send for a motion picture booklet telling how the kick is used—how a friction device found only on the Remington-Union Metallic Cartridge Co. Auto-loading Shotgun takes the punishment out of heavy loads.

Write to-day.

HOUSE CENSURES

JUDGE WHITMAN
FOR \$50,000 FEE

Jackson, Feb. 26. By a vote of 68 yeas to 32 nays the House of Representative yesterday adopted a resolution censuring Judge Samuel Whitman, Jr., of the Second Chancery Court District for his conduct in allowing a fee of \$50,000 to the receivers and attorneys of the defunct Union Bank and Trust Company of Meridian.

Immediately following the adoption of the resolution of censure the House passed a concurrent resolution notifying Judge Whitman that he would be addressed out of office, and citing him to appear before the Legislature to defend himself.

Both resolutions will now go to the Senate unless they are held up in the House on a motion to reconsider. Under the rules bills and resolutions lie over one legislative day in each house after passage unless there is a motion to suspend the rules and transmit to the other house immediately. No motion was made to suspend the rules, and the resolution cannot reach the Senate until today.

What action the upper branch of the Legislature will take remains to be determined, but the indications were last night that the Senate will proceed slowly and send the resolutions to committee before any steps will be taken toward passage. This may carry the matter over several days.

The resolution censuring Judge Whitman was introduced in the House by Representative Walker of Lauderdale county. It followed the adoption of the report of the legislative committee on the investigation of the charges against Judge Whitman and provoked a stormy debate. Friends of Judge Whitman attacked the resolution and pleaded that the jurist should be given an opportunity to defend himself while his critics declared that the evidence brought out before the probing committee was sufficient to condemn him. After the adoption of the resolution of censure Representative Rencher of Kemper introduced a concurrent resolution giving notice to Judge Whitman that he would be addressed out of office.

This resolution was likewise adopted. Mr. Rencher was a defender of Judge Whitman when the resolution introduced by Mr. Walker was under debate. His purpose in introducing the second resolution was to give Judge Whitman an opportunity to be heard in his own defense.

WHITMAN WANTS

HEARING, HE SAYS

Chancellor Is In Jackson Getting a Line on Situation.

Jackson, Miss., Feb. 27. Chancellor Sam Whitman, Jr., came to Jackson yesterday afternoon from his home at Laurel to "get a line on the situation," as he expressed it, and to accept the first opportunity to go before the legislature and make a personal defense of his actions that resulted in a condemnation resolution being adopted by the house of representatives yesterday.

The chancellor was accompanied here by a number of attorneys. It is known that he was anxious to go before the house yesterday afternoon but Mr. Jones had withdrawn his resolution to reconsider vote by which the Whitman resolution was adopted, so it now appears that his only chance for a hearing is before the senate, to which body the resolution will go today.

Besides saying that he had done nothing to invite such severe criticism, the chancellor would not make any statement last night. However, he did say that he was prepared to show that all of his actions were lawful and within his rights as a judge.

Gulfport, February 27. Hughie Jennings, manager of the Detroit Tigers, this morning emphatically denied the report that next year the Tigers would train near San Antonio, Texas. The report has been given publicity in northern papers this week.

DREDGE GULFPORT SUFFERED \$15,000 COLLISION DAMAGE

Costly Damage Done When Steamer
Parkwood Rammed Dredge
Wednesday.

Gulfport, February 27.

Examination of the damage sustained by the dredge Gulfport, which was rammed by the steamer Parkwood Wednesday, resulted in the announcement by Capt. W. A. Farmer this morning that the damage amounts to \$15,000 and that it was only by a miracle that the dredge did not go to the bottom.

One pontoon was cut in two, two were smashed, forty feet of twenty-inch pipe line and five rubber connections were ruined, both the upper and lower guards of live oak, which are supported by six-inch copper angle line, were smashed, and the sheets on the port side of the stern were driven in six inches. While the dredge has returned to work, it will have to go to dry dock before the damage can be repaired.

Had not the steamer rammed a bulkhead, it is claimed that it would have gone through the dredge into the boiler room, and the valuable government craft would have gone to the bottom. The Parkwood hit the bulkhead as truly as if it had aimed for it, and that that point was struck is considered a piece of rare good fortune.

The board of enquiry has not yet fixed the blame for the collision, but it is claimed that the Parkwood was not obeying the harbor regulations when she crashed into the stern of the Gulfport. There has been some talk of friction between the shippers and the government engineers, and some discussion of the harbor regulations, it is reported, but Major Keller, in charge of this district, was down from Mobile last night for a personal inspection and investigation, and today it was declared that the reported friction had been eliminated.

The damage to the dredge does not seriously interfere with its operation, and there is reason to believe that it will not go to drydock until it has finished its present work.

The board of survey, which examined the damage sustained by the Parkwood, returned from Ship Island with the announcement that the steamer was seaworthy and had been permitted to go to sea, but that three starboard plates were sprung and the stem bent. From \$1,000 to \$1,500 will repair her, it is said.

It is claimed that the Parkwood did not stop her propeller when passing the dredge, thus violating the government regulations for the harbor and subjecting herself to a fine of \$500.

MAY NOT CONFIRM

ALL APPOINTMENTS

Elective Judiciary Bill May Prevent Executive Session.

Jackson, Miss., Feb. 27. An executive session in the senate before the closing days of the session is very remote according to hints given out by influential members of the body. There will be no confirmation of judicial appointments, is an accompanying statement.

Why? Because either the Norwood bill or the Burkitt bill providing for the election of circuit and chancery judges is practically assured of passage. This will make it unnecessary to confirm appointment, in a sense. The bills call for a special election on this and it is provided that the present judges serve until the election decides who shall serve thereafter. It is a safe prediction that there will be no judicial appointments confirmed by the present legislature.

As to other appointments, such as heads of institutions and others, these will be left until the last minute in order to prevent any friction, but it is given out that there is little fear of failure to confirm the appointments made by the governor when the senate arrives at this stage of the business calendar.

LEWIS AND ENNIS WILL

APPEAL TO HIGH COURTS

Purvis, Miss., Feb. 27. Attorney Salter and Hathorn who are defending Barney Lewis and Jerry Ennis, convicted in Biloxi last week on the charge of holding up and robbing a New Orleans and North-eastern express train near here, will appeal the case to the high courts. Lewis and Ennis were fined \$1,000 each and given ten years in the federal prison in Atlanta.

BOND ISSUE OR RAISE IN TAX LEVY ONLY WILL PREVENT EXTRA SESSION

Jackson, Miss., Feb. 27.

Another obstacle to the session of Mississippi's financial situation developed yesterday morning when members of the house went on record against a state bond issue, and their determination not to vote for such a measure in any form was made apparent.

On the other hand, Governor Brewer is equally determined that the legislature will not be allowed to quite work until some business-like plan of handling the state's finances and meeting all appropriations made for the ensuing two years is adopted. He will not give his approval to any measure that contemplates short term loans or which will force him to borrow money.

The governor has let it be known that he does not intend to give his approval to any temporizing with what, he says, is a plain cold-blooded business proposition; in other words, if the lawmakers make heavy appropriations they must provide for meeting them, either through a raise in the tax levy or a bond issue. Unless this is done it is probable that the governor may call an extra session of the legislature later in the year.

A resolution has been passed in the house to adjourn March 14, and while the governor cannot prevent the adjournment, he has made it plain that he can and will call them back in special session if they do not advise a satisfactory plan of clearing away the existing treasury deficit.

ATTEMPT TO BURN PRISONERS ALIVE

Leland, Miss., February 24.

Sam Petty, a negro, accused of having killed Charles W. Kirkland, a deputy sheriff, here late today, was shot to death by a mob tonight and his body burned. An effort to burn the negro alive failed when the flames burned the ropes with which he had been bound. He was riddled with bullets when he attempted to escape.

Petty, wanted on a trivial charge, opened fire on Kirkland with a shot gun when the officer entered a cabin on the outskirts of Leland in which the negro had taken refuge. Kirkland was instantly killed.

Tonight Petty was captured by a posse of citizens and before officers could secure possession of him a mob had formed and determined on the torch as a means of execution. With little ceremony the negro was bound and placed in an oil-soaked dry box and the match applied. A moment later the man, his clothing aflame, broke from his fastenings and started to run, but before he could gain headway was riddled with bullets. The body was then replaced in the box, fresh inflammables were piled about it and within half an hour burned to ashes.

The mob then dispersed and no further disorder is anticipated. Up to a late hour tonight no arrests had been made.

Several weeks ago a policeman was shot to death here by a negro, and when news of the killing of Kirkland was circulated the mob was quick in gathering tonight. It is estimated that more than 300 men took part in the lynching.

PHOTOGRAPH EYES TO TRAP SLAYER

Aurora, Ill., February 24.

Yielding to persons who have faith in ages-old superstition, the authorities here have photographed the eyes of Theresa Hollander. State Attorney Tyler admitted this today, saying that it was the belief of many that the retina of a murdered person retains the image of the murderer.

Whether the negative, held by the authorities, showed anything of an attorney. Neither did he say whether nature, was not revealed by the state's it would be introduced as evidence in any proceedings growing out of the clubbing to death of Miss Hollander in a cemetery here a week ago.

The picture was taken after a suggestion of an oculist, who asserted with emphasis that the retina of the slain girl's eyes would show the last object before her conscious vision.

The photograph was made the day after the murder, as the body was being cared for by a local undertaker. Authorities here feared they would be ridiculed for this effort, but were anxious to leave nothing undone to get evidence, so went through with the performance, holding every actor in the scene to the most profound

secrecy. A rumor of the photographing got abroad, however, and today State's Attorney Tyler admitted reluctantly that the negative was in the possession of the authorities.

LEWIS MURDERERS ARE LOCATED

Gulfport, February 25.

Forrest County officers, who have been working on the murder of Leonard Lewis, the New Lumber Company's man who was found dead beside the G. & S. I. tracks last week, that Tom Murphy, father-in-law of claim to have discovered several eyewitnesses to the killing. It is alleged Lewis, struck the murdered man over the head with a heavy timber, and Henry Murdock crushed his side with the same stick. Ben Jones, a negro hackman, is charged with carrying the body to the side of the tracks, where it was hoped that the death would be blamed on passing trains, as it was when the body was first found.

STRENUOUS BILOXI LOVER ARRESTED

Tony Pitello, Who Wrote Threatening Letters to Girl and Attempted Murder, Out On \$1250 Bond.

Gulfport, February 27.

Tony Pitello, the Biloxi youth who several weeks ago attempted to kill a pretty Austrian girl in that city, was arrested yesterday by Deputy Ewing at Biloxi on the charges of assault with intent to kill, and of writing threatening letters. The letters were written to the same girl.

Pitello was released on \$250 bond on the letter-writing charge, and on \$1,000 bond on the other charge. The arrest was made an indictment returned by the grand jury at its January session.

WHEN OUT OF SORTS START YOUR LIVER WORKING

No Matter What Ails You, Dodson's Liver Tonic is Usually a Big Help in Getting Well. Avoid Calomel

Nine times out of ten, when you are ill or out of sorts, your liver is out of order and getting it in order again will make you feel better. When your liver is sluggish and torpid and you are constipated and bilious, it is impossible to feel well.

There was a time when a great number of people took calomel when so troubled. But this is not true today. It has become widely known that calomel often has bad after effects and is even dangerous to many. The use of Dodson's Liver Tonic instead of calomel has spread wonderfully because it has proved so beneficial in so many households.

Power Drug Co. recommend and guarantee Dodson's Liver Tonic instead of calomel and guarantee to refund purchase price (50c) to you instantly without question if you are not perfectly pleased with the way in which it relieves you from constipation, sick headache, biliousness, etc. It "lives the liver"
