If Bashful Swain Must Use Postage Stamps to Propose, Why, Don't Do It

Obviously there are still a goodly number of tongue-tied swains in the world-blushers who for the life of them cannot find speech to tell theirlove when face to face with their beloved. On an average of once in six months some timid reader of this despairing type writes to our "Forum" for the alphabet of that dumb "stamp language" whereby through the irregular or abnormal affixing of a stamp to a letter he would transmit the knowledge of that passion which neither lips nor pen dare to tell. Faint-hearted lovers all!

What do the girls think of the man who cannot speak up? Do they not still prefer to be taken by storm, to hear hot words of love ringing in their ears, to be asked manfully and straightforwardly for heart and hand? Do they not insist as never before that faint heart ne'er won fair lady? We read between the lines of Roman history that the Sabine women very promptly recovered from the initial shock of being carried off, and it is not on record that any of them tried to escape from the happy bondage to which they were consigned. Are the women of today any different? We doubt it.

It is admitted on all sides that the woman of today is the stronger vessel -that more than ever is she more deadly than the male. For that very reason man today as never before must summon all the strength that is left to him when he goes forth to meet Troubles, such as Dyspepsia, Sour Stomach, Bad Breath, Sick Headache, Loss of Appetite, his fate. The use of misplaced postage stamps is today worse than futile. Man's last hope of success in matrimony today lies in boldness coupled with candor.-Philadelphia Press. 5 Momen Avoid goerations

For years we have been stating in the newspapers of the country that a great many women have escaped serious operations by taking Lydia E. Pinkham's Vegetable Compound, and it is true.

We are permitted to publish in this announcement extracts from the letters of five women. All have been recently received unsolicited. Could any evidence be more convincing?

Hodgon, Me.—"I had pains in both sides and such a soreness I could scarcely straighten up at times. My back ached and I was so nervous I could not sleep, and I thought I never would be any better until I submitted to an operation, but I commenced taking Lydia E. I had a growth which the doctor said was a tumor, and I never would get well unless I had an operation. A friend advised me to take Lydia E.
