

For more than Forty Years Cotton Growers have known that POTASH PAYS

More than 11,651,200 Tons of Potash Salts had been imported and used in the United States in the 20 years previous to January, 1915, when shipments ceased. Of this 6,460,700 Tons consisted of

KAINIT

which the cotton grower knew was both a plant food and a preventive of blight and rust,—with it came also 1,312,400 Tons of

20 per cent MANURE SALT

which has the same effects on Cotton, but which was used mainly in mixed fertilizers.

Shipments of both Kainit and Manure Salt have been resumed but the shortage of coal and cars and high freight rates make it more desirable to ship Manure Salt, which contains 20 per cent of actual Potash, instead of Kainit, which contains less than 13 per cent actual Potash.

MANURE SALT can be used as a side dressing on Cotton in just the same way as Kainit and will give the same results. Where you used 100 pounds of Kainit, you need to use but 62 pounds of Manure Salt, or 100 pounds of Manure Salt go as far as 161 pounds of Kainit.

MANURE SALT has been coming forward in considerable amounts and cotton growers, who cannot secure Kainit, should make an effort to get Manure Salt for side dressing to aid in making a big Cotton Crop.

Muriate of Potash

50 per cent actual Potash, has been coming forward also,—100 pounds of Muriate are equivalent to 400 pounds of Kainit or 250 pounds of Manure Salt.

These are the three Standard GERMAN Potash Salts that were always used in making Cotton fertilizers and have been used for all these years with great profit and without any damage to the crop.

The supply is not at present as large as in former years, but there is enough to greatly increase the Cotton Crop if you insist on your dealer making the necessary effort to get it for you.

Thousands Have Kidney

Trouble and Never

Applicants for Insurance Often

Rejected.

Judging from reports from druggists who are constantly in direct touch with the public, there is one preparation that has been very successful in overcoming these conditions. The mild and healing influence of Dr. Kilmer's Swamp-Root is soon realized. It stands the highest for its remarkable record of success.

An examining physician for one of the prominent Life Insurance Companies, in an interview on the subject, made the astonishing statement that one reason why so many applicants for insurance are rejected is because kidney trouble is so common to the American people, and the large majority of those whose applications are declined do not even suspect that they have the disease. It is on sale at all drug stores in bottles of two sizes, medium and large.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—Adv.

THE CRACK O' DOOM FOR NASTY CALOMEL

Folks Abandoning Old Drug for "Dodson's Liver Tone," Here in South.

Ugh! Calomel makes you sick. It's horrible! Take a dose of the dangerous drug tonight and tomorrow you lose a day.

Calomel is mercury! When it comes into contact with sour bile, it crashes into it, breaking it up. Then is when you feel that awful nausea and cramping. If you are sluggish, if liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour, just try a spoonful of harmless Dodson's Liver Tone tonight.

Here's my guarantee—Go to any drug store and get a bottle of Dodson's Liver Tone for a few cents. Take a spoonful and if it doesn't straighten you right up and make you feel fine and vigorous, go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it can not salivate or make you sick.—Adv.

"We had the doctor every day and he did everything he knew how, it looked like. Yet I lay there suffering such intense pains as seems I can't describe."

"Finally, I said to my husband, 'let us try Cardui' . . . He went for it at once, and before I had taken the first bottle the . . . came back, the soreness began to go away, and I began to mend. The intense pressure seemed all at once to leave my head, and before long I was up."

"I took three bottles and was well and strong and able to do my work. I believed Cardui saved my life. . . . I cannot praise it enough for what it did for me."

ALABAMA WOMAN SUFFERS TERRIBLY

Selma, Ala.—"After becoming a mother I could not regain my strength. I kept going down in health until I thought I was going to die. The doctor said I would surely die unless I was operated upon at once. My mother would not listen to an operation, but she did get me a bottle of Dr. Pierce's Favorite Prescription and within a few days I commenced to feel stronger. I suffered terribly and realized that I was in a serious condition. My health continued to improve from the time I started to take the 'Prescription' until I was a perfectly well woman. I give Dr. Pierce's Favorite Prescription all the credit in the world for restoring me to a normal and healthy state, and it is a pleasure to recommend it."—Mrs. Bess Allen, 1915 Vogelin Ave.

SAVED HER LIFE

Phoenix City, Ala.—"When I was a young girl Dr. Pierce's Favorite Prescription not only saved my life but it also enabled me to have strong and healthy womanhood. For nearly a year I suffered with suppression. Eight months of that time I was helpless in bed and suffered intensely. This was caused by my getting wet feet at a critical time, when I was sixteen years old. All that year I was under the doctor's care, but did not improve. I kept getting weaker all the time until my mother learned from a neighbor about Dr. Pierce's Favorite Prescription and started to give it to me. The first bottle did such wonderful things for me that they gave me a second bottle. This restored me to a perfectly strong and normal condition, which I still maintain. I have no hesitancy in sending this."—Mrs. Lizzie Spaul, 225 4th Ave.

GOOD ROADS

MORAL NECESSITY TO BUILD

To Maintain Happy and Prosperous People on Farms We Must Improve Rural Conditions.

(By J. DENNY O'NEIL, Pennsylvania Highway Commissioner.)

The problem confronting the highway department in these abnormal times when labor and material are so scarce and so high, is this: Shall we go ahead constructing new roads? I am convinced that good roads are an economic as well as a moral necessity. We must have food, and if we want boys and girls to stay on the farm to produce it, we must dig them out of the mud by building roads so they can get to market or to a railroad.

There are places in Pennsylvania where it costs more to haul farm products to a railroad station than it does to pay the freight to France. As in the past, the hope of the future from a moral point of view, is to maintain a happy, contented and prosperous people on the farms and in the small towns and villages. They don't produce I. W. W.'s, ballot-box stuffers, election fraud crooks, gun-

men and commercialized vice on the farms. These are the exclusive products of the cities, and if we want to keep the people away from the cities, we must give them good roads and do what we can to improve living conditions in rural communities.

FARMERS ARE BEHIND ROADS

National Grange Officers Confer With Senator Townsend on Bill He Has Introduced.

Proceeding in accordance with instructions given them at the annual meeting of the National Grange, held recently in Grand Rapids, Mich., Washington representatives of the organization, which comprises some 700,000 farmers, have conferred with Senator Charles E. Townsend of Michigan and will hold further meetings with him on the measures which he has introduced in Congress providing for a national highway system to be built and maintained by the government under the direction of a federal commission.

In a special report adopted at the grange meeting, it was held that the time has come when, with due regard for the present and future necessities for permanent, hard-surfaced highways, all the highway activities of the national government should be unified in a single administrative department under such limitation of powers as will secure the greatest possible degree of efficiency and economy in the expenditure of national funds.

VITAL IMPORTANCE OF ROADS

Modern Medicine Points Out There Are Few Physicians and Nurses in Rural Communities.

That good roads are of vital importance to the health of a community and particularly those who live in rural communities is shown in an article in Modern Medicine. It is pointed out by the writer that there are few physicians, few nurses, and practically no hospital facilities in rural districts. In some communities, even in older states, there is only one practicing physician to 1,500 population. Hardships of travel make young physicians scarce. Better highways, he points out, will lead physicians to go after country practice in increasing numbers.

HIGHWAY WORK IN WYOMING

Now Under Way \$2,500,000 Worth of Federal Aid Improvements—More to Follow.

There are now under way in Wyoming \$2,500,000 worth of federal aid highway improvements. These improvements are the first ones of a program contemplating the expenditure of \$6,000,000 in three years.

THREE PRINCIPAL DIVISIONS

Due Consideration Must Be Given to Location to Reduce Cost of Maintenance.

The three principal divisions of actual road making are location, construction and maintenance. In planning a road it is necessary that we take into consideration all three of these steps, since proper location affects the cost of construction and may materially reduce cost of maintenance.

New Roads in New Jersey.
New Jersey is building a network of new roads. Many of these are 30 feet wide. Of this 18 feet are macadam and 12 feet are concrete.

Business of Farming.
The whole business of farming is sufficiently dependent upon weather conditions without the added uncertainty of road conditions.

Hard Road Lightened.
The hard pavement is lightened by good roads.

SALTS IF BACKACHE AND KIDNEYS HURT

Stop Eating Meat for a While If Your Bladder is Troubling You.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sours, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink.—Adv.

Another Royal Suggestion

BISCUITS, BUNS and ROLLS

From the NEW ROYAL COOK BOOK

BISCUIT! What delight this word suggests. So tender they fairly melt in the mouth, and of such glorious flavor that the appetite is never satisfied. These are the kind of biscuits anyone can make with Royal Baking Powder and these unusual recipes.

Biscuits

8 cups flour
4 teaspoons Royal Baking Powder
1 1/2 teaspoon salt
4 tablespoons shortening
1 cup milk or half milk and half water

Sift together flour, baking powder and salt, add shortening and rub in very lightly; add liquid slowly; roll or pat on floured board to about one inch in thickness (handle as little as possible); cut with biscuit cutter. Bake in hot oven 15 to 20 minutes.

Royal Cinnamon Buns

8 1/2 cups flour
1 teaspoon salt
4 teaspoons Royal Baking Powder
2 tablespoons shortening
1 egg
1/2 cup water
1/2 cup sugar
4 tablespoons seeded raisins

Sift 3 tablespoons of measured sugar with flour, salt and baking powder; rub shortening in lightly; add beaten egg to water and add slowly. Roll out 1/4 inch

thick on floured board; brush with melted butter, sprinkle with sugar, cinnamon and raisins. Roll as for jelly roll; cut into 1 1/2 inch pieces; place with cut edges up on well-greased pan; sprinkle with a little sugar and cinnamon. Bake in moderate oven 30 to 35 minutes; remove from pan at once.

Parker House Rolls

4 cups flour
1 teaspoon salt
8 teaspoons Royal Baking Powder
2 tablespoons shortening
1 1/2 cups milk

Sift flour, salt and baking powder together. Add melted shortening to milk and add slowly to dry ingredients stirring until smooth. Knead lightly on floured board and roll out 1/4 inch thick. Cut with biscuit cutter. Grease each circle with back of knife one side of center. Butter the small section and fold larger part well over the small. Place one inch apart in greased pan. Allow to stand 15 minutes in warm place. Brush each with melted butter and bake in moderate oven 15 to 20 minutes.
