

Montana News Notes

Orders have been received at the land office in Kalispell withdrawing from entry all lots known as villa sites along Flathead Lake which were surveyed by the government prior to the opening of the Flathead reservation and which were withheld from the Indians because they were deemed more valuable as summer home locations. Recommendations have been filed for withholding these lands so that the possible water power which might be developed below Flathead Lake may be considered. The recommendations claim also that the level of Flathead Lake will have to be raised three feet above the high water mark and maintained there.

Judge Rasch of the federal court, on October 21, gave a decree stating that until the issue is determined on its merits, the Montana, Wyoming & Southern Railway company may continue to charge forty-five cents a ton on coal shipments from Bear Creek to Fromberg, instead of thirty-five cents a ton, as fixed in the recent order of the state railroad commission.

A public hearing will be held in Helena November 16 by the railroad commission when evidence will be heard relating to switching charges between the Chicago, Milwaukee and Puget Sound, and Great Northern Railroads at Judith Gap, and between the first named company and the Northern Pacific at Missoula.

Charles D. Howell, formerly a resident and postmaster of Havre, and deputy sheriff of Chouteau county, has been sentenced to life-long imprisonment in Leavenworth, Kansas, for the robbery of a mail car on the Great Northern Railway between Bonners Ferry, Idaho, and Spokane, Washington, in April, 1910.

Carlotta Redbird, a Sioux Squaw, has a stand in Missoula from which she sells oil of which she is sole proprietor and manufacturer and which is good for many things according to her idea. The oil is manufactured on the Flathead reservation.

News from Whitefish October 25 that a tank car containing 6,500 gallons of gasoline had exploded at Essex causing serious injury to two laborers and lesser injuries to eight or ten others. Supposedly some one attempted drawing gasoline from the tank by torch light.

The houses of Hamilton are being numbered and when the numbering of the residences as well as the business block is complete, measure will be taken toward installing free delivery of mail within the city limits.

About eighteen miles of construction work remain to be done on the last stretch of road being built to the Oregon Short Line's entrance to the Yellowstone National Park. The road will not be completed this fall.

It is expected that saw mills will be built in the vicinity of Libby where the forest fires did much damage and where the timber is on sale at an exceptionally low price.

Throwing open of land on the Dearborn project on October 22 was cancelled by the Cary Land Act board, reclamation having progressed so slowly that the land could not be ready for settlers.

Wheat has dropped to seventy-four cents per bushel in Gallatin county and the greater portion of the large crop is being stored by farmers there who are awaiting a better price.

The new \$5,000 bridge across the Gallatin river two miles north of Manhattan has been completed, and accepted by the county commissioners.

Papers of the amended articles of incorporation of the Wells Fargo

Express company will not be filed in this state until the regular filing fee is paid.

The city council of Butte has passed an ordinance against the sale of more tickets than there are seats in any place of amusement in Butte.

Twenty-seven applicants for rangers' positions took examinations Monday in the office of Supervisor Koch of the Lolo National Forest.

Phillip Tilling, of New York has been appointed receiver of the First National bank of Billings.

Montana leads the sheep industry of the United States with an annual average production of 5,843,000.

Butte is already threatened with coal famine, the orders of the companies not to be filled because of a shortage of cars.

Spanish War veterans in Missoula are making another attempt to organize.

Park county is to be advanced soon from the sixth to the fifth class.

Bill Connell, an old-time placer miner, died at Missoula October 25.

S. E. PETERSON
Republican Candidate for Representative.

S. E. Peterson, Republican candidate for Representative, came to Fergus county four years ago from Minnesota. He was born in Minneapolis in 1879, was graduated from the University of Minnesota Law School and admitted to the bar in 1901, and admitted to practice in Montana in 1907. Besides practicing law he has published Moore's newspaper, The Inland Empire.

Mr. Peterson is widely and favorably known thruout the county and entered the race at the solicitations of Fergus county citizens. He stands on his own responsibility as a representative of the people alone and ranks as a progressive Republican. Mr. Peterson is an able and energetic man, who will represent Fergus county in the legislature with much credit to himself and honor to the county. He has always shown his interest in the welfare of the public and will receive the hearty support of the voters at the polls.

Your Breakfast Room Made Comfortable With Fuel Supplied the Night Before

Cole's Hot Blast Heater maintains a continuous fire—also a steady even heat. It will hold fire from Saturday night until Monday morning (48 hours) without attention. It will hold fire over night with less coal than any other stove.

Open the drafts in the morning and the rooms are quickly heated with the fuel put in the night before. No other stove does this.

Burns Soft Coal, Slack, Siftings, Hard Coal or Lignite. One ton of either kind of fuel goes further and gives you more comfort than two tons, using any other kind or make of stove.

Your attention is called to the unparalleled statement made by the manufacturer of

Cole's Hot Blast Heating Stove

"For several years we have authorized our Agents to sell Cole's Original Hot Blast Heater on the guarantee as follows:

- "1—A saving of one-third in fuel over any lower draft stove of the same size, with soft coal, slack or lignite.
- "2—That Cole's Hot Blast will use less hard coal for heating a given space than any base burner made with the same size fire pot.
- "3—That the rooms can be heated from one to two hours each morning with the soft coal or hard coal put in the stove the evening before.
- "4—That the stove will hold fire with soft coal from Saturday night until Monday morning.
- "5—A uniform heat day and night, with soft coal, hard coal or lignite.
- "6—That every stove will remain absolutely air-tight as long as used.
- "7—That the feed-door is and will remain smoke and dust-proof.
- "8—That the Anti-Puffing Draft will prevent puffing.

"All we ask is that the stove shall be operated according to directions and connected with a good flue."

"(Signed) COLE MANUFACTURING CO., Not Inc." (Makers of the Original Patented Hot Blast Stove)

This remarkable guarantee from the makers of this stove should be of interest to you if you contemplate buying a heating stove.

Years of use has proven that no heater—at twice the price—equals it for radiating heat, for holding fire, requiring so little attention, never giving trouble, and cutting down your coal bill one-third to one-half.

Come in and examine Cole's Original Hot Blast which is now imitated by nearly every other stove manufacturer. Price \$12.00 and upward, according to size.
