GREAT FALLS, MONTANA.

GREAT FALLS is located at the Falls of the Missouri which furnish the greatest available water power on the Continent. Is within 7 miles of the most extensive Coal and Iron district in the West, immediately beyond which are rich Silver and Copper districts. It lays tributary the best agricultural and grazing part of the Territory, and the pineries of the Upper Missouri and tributaries. It has made more progress in the past 8 months in proportion to its size than any other place in Montana, and is especially adapted by its natural resources and geographical position to become the leading manufacturing center between Minneapolis and the Pacific.

The trip to Great Falls will amply repay tourists by the beauty of the scenery on the way, and they will find here the most magnificent series of waterfalls in the world, while the surrounding country is rich in picturesque scenery.

To those wishing to improve property, lots will be sold at very reasonable prices. For particulars addres H.O. CHOWEN, AGENT.

In a Week or So.

In a little while a, a week or two, The buttercups and violets blue Will bloom and flourish on the hill, The birds their sweet notes loudly trill, The roses sweet will bloom and die, And summer breezes gently sigh, The soda-fountain soon will boom, And lovers crowd the ice-cream room, The overcoat will go in pawn, The girl will wear the dress of lawn, The dust will lie thick on the road, The boy will kill the harmless toad, The bull-frog sing his doleful lay, And crickets chirp at close of day, And lovers stroll in lonely lanes, The organ grinder gives you pains. The bicycle man will show his leg. The busy hen will lay her egg, In every pond and lake and bay Boats will be seen each pleasant day, And parties and balls will be o'er, And folks will seek the cool sea shore, The boy each day his bate will take In every puddle, creek and lake, The base ball man will wield the bat. The farmer wear the big straw hat. The peddler on the street will shout, The sun will knock fat people out, The baby-carriage will soon appear, There'll be a boom in lager beer, And picnics will be all the go,

Paying Up.

The land department of the Northern Pacific R. R. company made a deposit in the United States treasury of fees covering 219,883 acres of land in Cass county, Dakota. Lists have have been fowrarded to the surveyor general of Dakota, covering lands in other counties and survey fees will be paid at once on the return of lists. The company expects to have survey fees paid upon a large portion of its Dakota lands in a short time.

A Peculiar Paper.

There is soon to be established in Washington a weekly newspaper of a peculiar order, the venture of twenty resident correspondents, each of whom is to contribute an article a week over his own name. The writers are to choose their own topics, express their own views, and handle men and things in their own way. There is to be no editor no one to say what shall be printed and what left out, nobody to condense and nobody to point out or pad out.

Boiled Pappoose.

A fatal accident occurred at one of the Indian camps near Woodford, Alpine county, California, last week A squaw was cooking acorn soup in a willow basket by putting heated stones in the soup, when her pappoose fell headmoremost in the boiling mass, and was so badly scaleed that it died in a short time. The pappoose was buried, after which the soup was disposed of with the usual relish by the natives.

The Death of Kit Carsn.

Speaking of Kit Carson's death, I am reminded that ex-Governor Hunt, of Colorado, called on me recently, and told me the details of "Kit's" last moments. The governor had been east with the old hero to see the doctors, who told him his days were numbered.
