The changing seasons bring to us again the annual day set aside to observe the memory of the great Washington. This time the 23d of February falls on Sunday, which will probably hinder many from celebrating his birth in a truly patriotic style. The people of the Falls want to have a new judicial district consist of Cascade county. This is a move in the right direction. The district is too large and the business too much for a single judge; and the rapid growth of the Falls and other towns in the district is continually making it more burdensome for the judge. A petition has been sent from this county asking that a new district be made of Cascade county.—Fergus County Argus.

Says the Montana Democrat: "We believe that it would be an excellent scheme to construct a telephone line between Lewistown and Great Falls; in fact it would be a genuine boon to every business man, at least during the continuance of our present unwieldy, primitive methods of transportation. The inconveniences resulting from a lack of telegraphic communication are daily experienced but these could be almost entirely remedied by the more economic telephonic system. Let us resuscitate our Board of Trade and take active measures in behalf of the many public enterprises now clamoring for decisive action." By all means, let us have telephone communication. Business men and others in Great Falls would be glad to aid such a scheme. If the Board of Trade of Lewistown would take the initiative in the matter they would be heartily seconded by the Board of Trade here. Let the Democrat agitate the matter.

Some Routine Business Transacted Last Evening.

A special meeting of the city council was held last evening. In Mayor Dickerman's absence Alderman Bridges was called to the chair.

The minutes of the last meeting were read by Clerk Leslie and approved. The clerk read a report from Chief Ringwald of the fire department, stating the receipt of a new hose wagon, and requesting the purchase of a team for the same; also urging the construction of a complete fire-alarm system. Referred to committee on fire department.

A petition was read from taxpayers objecting to stands or stalls on the street corners. Referred to committee on streets and alleys.

Abstract of the auditing committee reported the following bills: Sam Wilber, freight bill, \$152.78; Leader Publishing company, \$17.41; Thomas Kennedy, \$43. All ordered paid.

Attorney Murphy presented a bill of Richardson's construction on the city jail, for extra work and money claimed to be due him from the city amounting to \$187.80. Referred to auditing committee and city attorney.

Bridges, of the special fire department committee appointed to select a lot for new building, reported that no definite action had been taken.

A petition was read from John P. Dyeas, manager of the Rocky Mountain Telephone company objecting to the tax imposed by the city on each instrument used. The judge appeared in person and argued his side of the question, claiming that the tax was more than the company could stand figuring on the amount of business done at present. He said the same tax was imposed by only one other city in Montana, viz., Helena, where the exchange had been operated for ten years. If the tax was imposed the only recourse of the company would be to increase prices. His argument was listened to attentively. The matter was referred to the committee on licenses. A petition was read from E. G. Hansen, praying for an ordinance empowering him to build another street railway—either horse, cable electric or pneumatic. Referred to committee on ordinances.

There being no further business the meeting adjourned.

From the Des Moines Mail and Times. A few days ago, while sitting in Elder Bros' drug-store at Tingley, Iowa, Mr. T. L. Dyer, a well-known citizen, came in and asked for something for a severe cold which he had. Mr. Elder took down a bottle of Chamberlain's Cough Remedy, and said: "Here is something I can recommend. It commands a large sale and gives genuine satisfaction. It is an excellent preparation and cheap." Mr. Dyer purchased a bottle, and the next day when we saw him he said he was much better, and the day following appeared to be entirely restored. This is a specimen of the effectiveness of this preparation. For sale by Lapeyre Bros.

SHILOH'S CURE will immediately relieve Croup, Whooping Cough and Bronchitis. For sale by J. B. Driver, druggist.

Operations on the Barker and Nehart Lines Soon to Begin.

This will be welcome intelligence not alone to the miners and others of these camps and adjacent mining districts, but to Great Falls and the whole of northern Montana. Hope deferred will soon be realized and the scream of the iron horse will soon awaken the dead echoes in one of the richest mineral belts in the world.

REALTY MOVEMENTS.

The Demand for Real Estate Active with a Strong Upward Tendency.

Notwithstanding the cold snap there is an active demand for both city and outside property, and real estate dealers are kept on the qui vive looking after their customers' wants. THE BUTTE & BOSTON CO.

Work on the New Smelter Will Begin Early in the Spring and be Carried to Completion.

Great Falls to be the Site of All the Great Copper Smelters in the State.

Don't Forget the Concert at the Baptist Church Tonight—It Will be a Treat.

Mr. Jos. A. Coram, who is largely interested in the Butte & Boston company, said to a TRIBUNE representative yesterday that work on the new smelter for the company at Great Falls will begin early in the spring, to be carried to completion at the earliest possible day. Mr. Coram passed through the city yesterday en route to Chicago, but will return to the city within ten days. In speaking of Great Falls he expressed the opinion that we would have a permanent population of over 10,000 by the first of January next, and that that would be but the beginning of a most remarkable growth. He takes the ground that this will be not only the site of all the great copper smelters of the state, but that each of them must have refineries in which the matte will be reduced to the "pure stuff," the copper and silver being separated. Electricity is the important factor in the process, "and nowhere else in the world," said Mr. Coram, "can it be produced so cheaply."

Great Northern Not Interested. A telegram from Tacoma says that once for all the rumors which have been in circulation as to the probable change in the route of the Union Pacific in this particular vicinity have been laid at rest. There will be no deviation from the original route decided upon by Chief Engineer Rogue. The Union Pacific will come into Tacoma with its main line before the close of next year, Mr. Rogue telegraphing from New York today to this effect. As has been stated, Vice President Clough of the Great Northern has declared that that road is not interested with the Union Pacific in building the line in question to this city. The Union Pacific, therefore, according to this statement, is building it entirely alone.
