They approved the same and ordered it filed. The report which is exhaustive showe that the total amount on hand is \$2-20.518 total amount on hand is \$2-20.518 total amount on hand is \$2-20.518 total amount on hand is \$3-20.518 total amount on hand is \$3-20. ss between the United States and That condition affects Washing iiii. That condition affects Washing and Oregon to a larger extent than spie who have not lived there can agine. In the last few years there is been an increasing demand in Chii do ther South American councies for lumber of all kinds on those states. The recent couble with Chili has put quite a maper on the trade, and its result is it more or less on the coast, as a numer of large mills have been forced to but down. Mr. Tearnan says he is surrised to note the rapid growth of Great alls since he left. He says he does not hink anything short of a miracle could ver prevent this becoming the city of fortana.

leap roasting will doubtless be a thing the past in Butte. As the city author were slow to act the people took matter in their own hands and the ing ore heaps have been covered

In the district court Wednesday Judge deflation granted a permanent injunction restraining the Boston & Montanompany from roasting ore in heaps, the judge said all people have the right of our air. The company was cited to our air. The company was cited to our air. The company was cited to our air. The company injunction. It is estimated that 75,000 tons of ore burning. The state of feeling may be imagined from the fact that eight eaths occurred in the city today and here were rive funerals. During the state of heap roasting and no smoke, the city of the month, when there are no heap roasting and no smoke, there were cleven deaths, while during he past six days, with the heaps burning, there have been twenty one deaths. the district court Wednesday Judg

to attest the high esterning to attest the high esterning. We are informed net 1884. Mr. Wanner erected house ever built in the city of its. At that time many of his ances thought him foolish for inget the idea that a city would and flourish there; but it did y seven years have elapsed since ic. Mr. Wanner is now a raneth the vicinity of Sand Coulecters.

Bridges Ordered.

Geremony.

Fought at Nethart

A great event in sporting circles took a place in Neihart Saturday evening. It was a pugilistic contest between James Lovett, champion light weight of British Columbia and G. L. Rohl, trainer of the Black Pearl, weil known in Montana. The stakes were 8200 a side and gate receipts; to light to a finish. Both contestants were in good condition and great interest was taken in the contest, considerable money being staked on the New Hridges Ordered.

county commissioners Thursday of that a bridge be built of iron or at or near Nathan Cibson's ranch specreek, said bridge to be at least set long and fourteen feet wide, two stone abuttments. SUICIDE BY AMMONIA.

No poison brings death with more madening agony than ammonia, but that fact does not seem to discourage the suicide. The man Harrowitz, who deliber-ately swallowed a fatal dose of the drug the year, when the salary law passed by in New York recently, is only one of the many who have gone the ammonia route to death in spite of the exeruciating pain.

nected with the coroner's office in New York.

Cases of slew poisoning from ammonia are of constant occurrence among men who work in its manufacture, or even in decomposing substances which give it off in considerable quantities. Ammonia slowly and from day to day taken into the system, causes the complexion to lose its freshness, and the skin of men who get heavily impregnated with it has a disagreeable blotched and discolored appearance.

Taken into the stomach from day to day in even and small quantities used to adulterate food, such as baking powder, it not only injures the complexion to the system, causes the complexion to took it is shown in the consequent increase in the use of ammonia for various purposes, and the consequent increase in the use of ammonia for various purposes, and the consequent increase in the use of ammonia for various purposes, and the consequent increase in the use of ammonia for various purposes, and the consequent increase in the use of ammonia for various purposes, and the consequent increase in the use of ammonia for various purposes, and the consequent increase in the use of ammonia for various purposes, and the consequent increase in the use of ammonia for various purposes, and the consequent increase in the use of ammonia for various purposes, and the consequent increase in the use of ammonia for various purposes, and the consequent increase in the use of ammonia for various purposes, and the consequent increase in the use of ammonia for various purposes, and the consequent increase in the use of ammonia for various purposes, and the consequent increase in the use of ammonia for various purposes, and the consequent increase in the use of ammonia for various purposes, and the consequent increase in the use of the co

who get heavily impregnated with these a disagreeable blotched and discolored appearance.

Taken into the stomach from day to day in even and small quantities used to adulterate food, such as baking powder, it not only injures the complexion but attacks the lining of the stomach, and is the source of much general ill heatth.

The recent rapid increase in the use of amnonia for various purposes, and the consequent increase in its manufacture, have made it one of the most easily obtained poisons and, although everybody is familiar with it in some form, there is a surprising amount of ignorance of its dangerous qualities. Its use as an adulterant in any food preparation is simply a crime, and as a crime should be pumished.

Court House.

Court House. J. W. Hopkins vs. Butte & Montana Commercial company; suit to recover of \$1,500 damages for alleged injury to plaintiff's crops. He claims that last \$June the log-drive of the B. & M. company got jammed near his ranch on Deep creek and dammed the stream to such an extent that it overflowed its banks and ruined his crops. It is allogether an original suit which involves many nice legal points. The trial commenced Tuesday afternoon and continued all'day vesterday. It will probably be concluded today. Leslie & Downing appear for the plaintiff and A. J. Shores for the defendant.

State vs. Patrick Crogan. Information filed charging bim with conveying mort gaged property out of the county. He was recently bound over to the district court from Judge Race's court and, being unable to furnish bonds, is in jail.

The court vesterday instructed the J. W. Hopkins vs. Butte & Montana

L. G. Phelps of Helena is building an addition in the rear of the store building did not give any particulars of the affair occupied by W. B. Raleigh & Co. on Centuri it is supposed that some cowboys tral avenue. The business of that pop-ular firm has grown to such an extent that they are compelled to have ampler that they are compelled to have ampler store facilities. The addition is of brick and is two stories in height, twenty-five feet wide and lifty feet deep. In connection with the present store occupied by Raleigh & Co. it will give them one of the largest stores in the city, as they expect to use the upper part for a carpet department. The present front on Central avenue will be torn down and replaced with an elegant plate glass front of the latest approved design. The improvements will be finished by the first of next month.

Fullerton, successor to J. A. Whyte-attends strictly to business, and under-stands all the latest novelties in his line.d8-4f

THEIR SALARIES PIXED.

The Terrible Agony Does Not Prevent Its | The County Commissioners Fix the Sal-

The county commissioners yesterday fixed the salaries and decided upon the number of deputies to be allowed the

the last legislature goes into effect.

The law fixed the salary of county officers but left the question of the numto death in spite of the exerciciting pain.

Dr. Blyth has recorded thirty cases of amonia poisoning in the small London district of which he is health officer; eases, and four have occurred during the short time. Dr. Jenkins has been consected with the coroner's office in New York.

Cases of slow poisoning from amonia in the county of the first class (and a first class valuation. Caseade, of course, is a county to the first class (and a first class county to the first class (and a first class county to the county officials will be paid the county of the first class (and a fir of ber and pay of the various deputies with ent counties. The counties were classed first and second, according to the assessed valuation. Cascade, of course, is a county of the first class and a first class county too). After the lat of January next the county officials will be paid the following salaries, the fee system being

Dan Ledgerwood, formerly engaged in business in this city but now living in the Highwood country, brought to town Wednesday the sad intelligence that his house was totally destroyed by fire Monday. With his wife he was attending to some chores when they were horrified to see flames issuing from the roof of their see flames issuing from the roof of their home. By the time they reached the house the fire had advanced to such a stage that they were unable to save anything of any importance. Mr. Ledgerwood got his gun from the kitchen and fired several shots to attract the neighbors. But when they arrived it was impossible to quench the flames with the meager fire apparatus of the average ranch. However, they succeeded in confining the fire to the house, thereby preventing the adjoining buildings and some hay from being ignited.

The loss was about \$2,000. The house and furniture were insured with local agents for \$1,300. It is supposed the fire caught in some way from the stove.

ACCIDENTALLY SHOT.

Former Hotel Keeper at Malta Dang ously Wounded.

James Bailey received a telegram from Malta Wednesday saying that WB.Smith of that place had been accidentally shot and could not recover. Smith ran a hotel there until about a month ago when his placed burned, since which time he has been helping in a saloon. The dispatch

did not give any particulars of the affair but it is supposed that some cowboys from neighboring ranches were cutting up in the saloon as is their custom when out for a time and in the sport a pistol was discharged with fatal results.

Malta is a cattle shipping point on the Great Northern about sixty-six miles this side of Glasgow.

Mr. Balley says that the wounded man was a quiet, inoffensive sort of a fellow who always minded his own business and could hardly be expected to get mixed in any kind of a shooting scrape. He was pretty well known here.

The Old and the New.

The Old and the New.

"Of course it hurts, but you must grin and bear it," is the old-time consolation given to persons troubled with rheumatism. "If you will take the trouble to dampen a piece of tlannel with Chamberlain's Pain Bain and bind it on over the sent of pain your rheumatism will disappear." is the modern and much more satisfactory advice. Fifty cent bottles for sale by Lapeyre Bros.

If you want Window or Door Frame call on J. J. Richardson.

GOOD LUCK.

Dr. Price's Cream Baking Powder is often called the Good-Luck Baking Powder.

Owing to the fact that good luck always attends the use of Dr. Price's, it is not essential to use it the moment it is mixed nor is it required to have the oven always just so, as in the case with ammonia or alum powders. It is not luck after all, but the exact accuracy and care exercised in the preparation and combination of all the ingredients of Dr. Price's Cream Baking Powder. Competent chemists are employed to test the strength and purity of each ingredient. Nothing is trusted to chance. Hence, it is always uniform in its work.

House wives never fail to have "good luck" in makait, pastry and cakes that y Baking Powder that conand . tains the white of eggs.

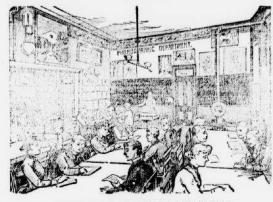

Dr. Price's Cream Baking Powder is reported by all authorities as free from Ammonia, Alum, or any other adulterant. In fact, the purity of this ideal powder has never been ques-
