

MONTANA NEWS.

The Mayday company's clothing store at Helena has been closed under attachments amounting to \$17,000.

The democrats of Fergus county now have an organ, having purchased the Lewistown Republican on Saturday last.

The county clerk's return of the equalized assessment of Yellowstone, makes the total real estate and improvements, \$2,000,324, personal property \$1,960,263.

The two-year-old filly, Lady Wilton, owned by Bransfield of Lexington, Kentucky, has been purchased by Marcus Daly of Anaconda. The purchase price is said to have been \$10,000.

The Boston and Montana Consolidated Copper and Silver Mining company has just declared a dividend of \$1.50 per share, which, on \$125,000 shares, makes \$187,500. This is virtually a quarterly dividend.

Steve Mattler, alias "Arizona Kid," who shot and killed August Turner at Garrison on the 6th of August in a dispute over the price of a meal, has been found guilty of murder in the second degree. The jury recommended a sentence of imprisonment for life. A new trial was asked for by Mattler's attorney.

Thugs and thieves infested Miles City during the races last week. I. Orschel & Co's store was broken into and some wearing apparel stolen. R. J. Campbell was sandbagged and robbed of his gold watch and chain and his small change. One of the boys who delivers the daily paper was also relieved of his watch. The police succeeded in capturing the thugs and have found some of the stolen property on their persons.

Fort Benton Review: J. B. Tracy informs us that the Homestead Cattle company have shipped 375 cars of cattle from Culbertson this season and will ship 187 more. Nineteen cars were shipped last Monday and four more trains will be shipped before next Monday. At present there are 380 stock cars ordered between Culbertson and Great Falls. Who can dispute that this is the finest stock country in the world?

A Great Falls dispatch of the 13th says: The new scale of wages was in augmented this morning, \$2.50 being fixed as the minimum rate. The advance was refused at the B. & M. works, the dam and at the Union smelter. Thereupon 500 men quit work. The smelter asked for the protection of the sheriff and the state militia, a request which in the extreme, as there was not even an approach to violence. The men are quiet, but firm and hopeful.

A fire at Miles City Tuesday evening destroyed a section of the box stalls recently erected at the race track. The race horse Chico, confined in one of the stalls, had succeeded in kicking his way out and escaped with slight injury. A work mare belonging to the owner of Chico and a dog were incinerated. The fire was of incendiary origin, and is supposed to have been set with a view to ruining the race horse Chico, or through malice against the association. The loss is about \$500.

Gazette: A mail pouch was lost or stolen from a coach on the Billings & Benton stage line last August and was found near Lavinia Township by Supt. J. J. Davis and sent to the Billings office for its proper destination. The sack was cut open and the contents had been hastily looked over, apparently, and then replaced in the sack as nothing could be traced as lost. That the sack was stolen for the purpose of robbery is evidenced by a registered package having been opened. A check was in the package, which was addressed to Louis Fenske, and it was carefully replaced.

Husbandman: One of the biggest finds yet reported in the Castle mountains has recently been made at Four-mile, between the location of the King of the Castles and the Columbia. A tunnel was run in through a mass of iron and an immense body of high grade galena exposed. There is considerable excitement over this find for two reasons, first, that it is in the granite, and second, that it is on the White Sulphur Springs slope of the Castles, and gives assurance that the mineral belt extends around the northern slope fully as strong as on the southern declivity.

The annual report of the commissioner of the general land office contains a long communication from the surveyor general of Montana, in which he urges the survey of a large tract along Clark's fork of the Columbia river. The interests of the government, as well as of the settler, demand that this be surveyed as soon as practicable. The survey in Montana for the year have been 62,161 acres. The business of the land office is as follows: Bozeman office, 811 entries, 86179 acres, sold for \$70,775; Helena office, 1493 entries, 362,192 acres, sold for \$221,280; Miles City office, 270 entries, 33,444 acres, sold for \$5,007.

Mining Review: It is reported that a party of civil engineers are making a preliminary survey for the purpose of ascertaining the feasibility of constructing a railroad from Three Forks to Castle, and in connection with the report it is said that the Anaconda company has decided to erect extensive smelting and refining works at Three Forks, and that operations in that direction will begin at an early day. It is surmised that the surveyors are in the employ of the Union Pacific company, which contemplates extending its line from Butte to Three Forks and so on to the rich and extensive carbonate mines in the Castle mountains.

The case of E. A. Kenney, state auditor, vs. H. C. Kessler, treasurer of Silver Bow county, came up for hearing before Judge McAllister at Butte Saturday. It has been the practice of Mr. Kessler to take the commission allowed him by law out of the state taxes collected by him before remitting to the state treasurer. The state claims that he is entitled to no fee for collecting state taxes, and accordingly sues to recover the commissions collected by Mr. Kessler. The case is of interest to every county in the state as it will be made a test and carried through the courts in order that the law upon that subject may be given authoritative construction. Owing to its importance Judge McAllister will take some time in preparing his decision.

At Missoula Friday morning last a teamer hauling slabs to the electric

light works noticed a man lying on his face under the north approach to Missoula bridge. Examination revealed the fact that the body was that of an Indian and from all appearances was dead. The coroner at once summoned a jury who carried him out and had him brought to the undertaker's. From other Indians who saw him it is learned his name is Samuel, a Pond O'Reille, who was a witness in the case of the Indians now in jail for horse stealing. When found the body was quite warm, showing that he had not been dead long. At the feet of the body a broken beer bottle, that had contained whisky, was found. Mr. Dougan, the miller, says that he saw the Indian the previous night lying on a plank near the electric light works, and the engineer at the works says that he came in there and made signs, putting his hands to his head and stomach, as though in pain, but the engineer could not understand him. The supposition is that the dead man was sick, and after getting hold of the whisky he drank enough to kill him.

A Helena dispatch of the 10th says: A large number of Knights of Pythius of Cranes are looking for one George J. Crane. He enrolled nearly 2300 of them in the Pythian Life association of Omaha, Neb., and they have since learned sufficient of the organization to know that it is no good, and that they have been duped. Several thousand dollars were secured by Crane for policies. Neither the supreme lodge nor the supreme lodge of Nebraska recognizes the association. E. S. French, a prominent member of the order, charged Crane with misrepresenting himself and compelled him to refund \$20 he had secured for a policy. This was done on a threat to expose him. French promised to keep quiet and today Crane left the city. He told some parties he was going to Butte. At the hotel he said he was going to Missoula. He was very successful at Livingston and Bozeman before coming here. Attorney Shropshire of the Union Pacific, with an office at Butte, Crane says is the association's attorney. Many prominent citizens of this place are interested, as they have given notes to be redeemed when the policies are received by them. Crane has sold many of the notes to a banker at a discount.

RED LODGE NOTES.

[From the Pickler.] Frank Doran, an employee of the Rocky Fork Coal company, had the misfortune to drop two fingers of his right hand badly mangled in the mines Tuesday.

The stage line between Corbet and Lovel, Way, has been sub-contracted by the agent and a stage will be run weekly between these points carrying passengers and express.

Ed. Gallagher was out among the people Tuesday to raise some money for charitable purposes. He succeeded in raising \$140 in a short time. The people of Red Lodge are noted for their liberality and kind-heartedness.

According to the official returns from the census bureau Red Lodge has a population of twelve hundred inhabitants. This gives the coal metropolis two hundred and fifty more inhabitants than Miles City.

Dr. W. A. Allen and son of Billings and James S. Bateman of Red Lodge are highly elated over some mining properties that they recently secured seven miles this side of Cooke City, in the New World mining district. They are prospecting four last week they located the Mollie Allen and the Whip-poorwill lodes. The ore is free milling, runs fifteen dollars per ton from the grass roots, and the leads of both claims are twenty feet wide and well defined. We hope there may be millions in the rich find.

CASTLE NOTES.

[From the Reporter.] Mr. H. H. Barnes brought home from his placer mine diggings some fine specimens of Montana sapphires and gold nuggets.

The Etta people are busy this week erecting a shaft house and preparing for the winter. The Etta is showing up better every day and is bound to prove a bonanza to its owners.

The people of Castle have plainly heard the whistles at both the Iron Chief and California mines the present week. Both these companies now have their steam hoists in fine working order. J. J. Bonner, superintendent of the Judge, was in Castle Friday. Mr. Bonner informs us that the steam hoist was started up last Tuesday and works like a charm. The Judge is looking better as each foot in depth is gained.

The Little Dot's annual election occurred last evening with the following result: J. M. Kumpe, president; N. E. Benson, vice president; Mrs. Dottie Lakel, secretary and treasurer. Directors—Mrs. Dottie Lakel, J. A. Fitzpatrick, N. E. Benson, J. M. Kumpe and Ben Gardner.

The cold weather has now revived Castle's builders and new buildings are daily spring up in all parts of our city. At the present time more buildings are being erected than at any other period during the existence of our prosperous city, and had we the lumber a large number of residences would be erected this fall, but will be compelled to wait till spring when, it is hoped, our saw mills will be able to cope with the emergency.

Justice to the Soldier. Washington special: No session of congress since the close of the war has been characterized by more general or more beneficial pension legislation than the first session of the fifty-first congress.

Every soldier who received a disability in the service and in the line of his duty, and every soldier who has a present disability which disables him from self-support to the degree of six dollars a month, whether contracted in the service or not, is now pensionable in proportion to his disability. Moreover, the dependent parent of every soldier who died from the effects of his service, whether in the service or since, is also pensionable. Every widow of every soldier who lost his life in the service, or who has since died from the effects of his service, under 16 years of age, or every deceased soldier who has died from the effects of his service, are pen-

sionable. Every widow of a Union soldier who is dependent upon her own efforts for her support is pensionable, without proof that the death of her husband resulted from the service. Who shall say, under these circumstances, that the republican party has not kept to the utmost its pledges to provide more liberal pensions for the disabled Union soldiers, and who shall say that the sacred promise of Abraham Lincoln to care for those who have borne the burden of the battle, and for his widow and orphan, has not been fully and honorably redeemed?

A Rip-Off Age.

J. H. Holcomb and wife, of Belcher, Texas, have celebrated their fifty-fifth wedding anniversary, and are still hale and hearty. The secret of their long life and good health is that they correct any slight ailment promptly, and in that way avoid serious sickness. Like most every one else, they are more frequently troubled with constipation than any other physical disorder. To correct this they take St. Patrick's Pills in preference to any other, because, as Mr. Holcomb says, "They are a mild pill, and besides, keep the whole system in good order. We prize them very highly." For sale by J. B. Ferte, Livingston; Moore & Co., Big Timber; C. N. Sargent, Gardiner.

Persons who lead a life of exposure are subject to rheumatism, neuralgia and lumbago, and will find a valuable remedy in Dr. J. H. McLean's Volcanic Oil Liniment; it will banish pain and subside inflammation. For sale by M. A. Peterson.

When you are constipated, with loss of appetite, headache, take Dr. J. H. McLean's Little Liver and Kidney Pills. They are pleasant to take and will cure you; 25 cents a visit. For sale by M. A. Peterson.

Painful digestion causes disorders of the liver, and the whole system becomes deranged. Dr. J. H. McLean's Strengthening Cordial and Blood Purifier perfects the process of digestion and assimilation, and thus makes pure blood. For sale by M. A. Peterson.

We find St. Patrick's Pills to be very extra and to give general satisfaction. They are now the only kind called for. W. A. Wallace, Omsa, Ia. For sale by J. B. Ferte, Livingston; Moore & Co., Big Timber; C. N. Sargent, Gardiner.

There may be persons in this community who are at times troubled with colic, or subject to attacks of bowel complaint. If so, they should try Chamberlain's Colic, Cholera and Diarrhoea Remedy. It will afford almost instant relief, and when reduced with water is pleasant to take. If taken as soon as the first indication of the disease is felt it will ward off the attack. Many people use it in this way, and find that it never fails them. A 25-cent bottle may be obtained from J. B. Ferte, Livingston; Moore & Co., Big Timber; C. N. Sargent, Gardiner.

Our customers all speak highly in praise of St. Patrick's Pills. They are the best. Jerry Brock, Carroll, Nebraska. For sale by J. B. Ferte, Livingston; Moore & Co., Big Timber; C. N. Sargent, Gardiner.
