SOLE AGENTS FOR

Also dealers in

Blank Books and Stationery,
Wall Paper, School Books,
Cigars and Tobacco.

TOILET ARTICLES, FRUITS, CONFECTIONS.

NEWS OF THE WEEK.

Information was received Saturday of the death of Hon. George Harrington, formerly assistant secretary of the treasury and minister to Switzerland under President Lincoln. He died at sea the 5th inst., while on his way from New York to Hamburg.

The treasury department has decided that a Chinese merchant who left this country twenty years ago and engaged in business in China, thereby forfeiting his domiciliary rights in the United States, can not return here without a certificate of his own government, required by the Chinese exclusion act.

The Black Hills National bank of Rapid City, South Dakota, closed its doors Tuesday, being unable to pay a certificate of deposit for a large amount. The bank is now in the hands of the state bank examiner. The directors say the depositors will lose nothing and that the institution will resume.

Secretary Noble has accepted the conveyance to the United States by the St. Paul, Minneapolis & Manitoba (Great Northern) of 45,000 acres of land in the Red river valley in North Dakota, under the act of August 5, 1892, and has issued instructions authorizing the company to make indemnity selections thereof of non-mineral, unoccupied lands in Minnesota, North and South Dakota, Montana and Idaho.

The senate in executive session on the 8th confirmed the following nominations: John H. Gear of Iowa, assistant secretary of the treasury; David P. Thompson of Oregon, minister to Turkey; William Potter of Pennsylvania, minister to Italy; Edward C. Little of Kansas, consul general at Cairo; William R. Estes of Minnesota, consul at Hamburg; William Stone of Iowa, commissioner of the general land office.

Martin J. Burke, one of the men sent to Joliet prison for life for complicity in the noted murder of Dr. Cronin of Chicago, died at the penitentiary Saturday evening of quick consumption. The long expected confession did not materialize as far as known. Burke contracted a severe cold while working in the cooper shop last summer, and was transferred to lighter work. He steadily grew worse, however, and in September was placed in the hospital, suffering from the disease which carried him away.

The senate has confirmed the following nominations: P. B. Cheney, of New Hampshire, extraordinary and minister plenipotentiary to Switzerland; G. M. Lambertson, of Nebraska, assistant secretary of the treasury; M. R. Rose, of Ohio, assistant commissioner of the general land office; I. A. Benton, United States marshal of Utah; Thos. Frazer, register of the land office at Sacramento, California. Judges of probate in Utah: Chas. Foote, Juab county; W. W. Wallace, Sevier county; S. A. Herman, Toole county.

The official returns on the recount of the vote of Nelson county gives a sufficient majority to elect all the Weaver electors in North Dakota. The official vote on presidential electors now stands: Clark, rep., 17,496; Maunberg, rep., 17,509; Yeager, rep., 17,462; Burnett, Weaver, 17,511; Rondestvedt, Weaver, 17,507; Williams, Weaver, 17,521. Rondestvedt has 88 majority, Williams 59 and Burnett 15. The only other contest yet unsettled is that of Emmons county. If the court should order a recount in this county, and the original decision of the county canvassing board be changed, it would add to the majorities of the Weaver electors.

A Chicago dispatch of the 12th says: Philip D. Armour, the millionaire packer, started tonight for New York on his way to Europe, leaving behind his Christmas gift of more than a million and a half dollars to the city of Chicago. Absolutely unknown to the public, work has been going on for a year past toward the erection of a magnificent building in Armour avenue, and it is now all but ready for occupancy. It is to be known as the Armour institute and to Chicago it will be all that the Drexel institute is to Philadelphia and the Pratt institute to Brooklyn. The building is but a small part of the gift.

In addition to it and for its support, Mr. Armour gives \$1,400,000. All that money and brains can do will be done toward making it the greatest institution for manual training, sciences and art in the country. Mr. Armour conceived the plan years ago.

A fatal explosion occurred Wednesday morning in Bamfurlong colliery, Oregon, by which a number of miners lost their lives.

There is a serious question as to whether the Weaver electors have been legally chosen in Kansas. The ballots cast by democrats were headed, "Democratic Ticket—For President, Grover Cleveland; for Vice-President, Adlai Stevenson." Although the people's party electors follow the above caption, the vote it is claimed, was not a legal one for Gen. Weaver, as the democrat who cast the ballot instructed the electors to vote in the electoral college for Cleveland and Stevenson. If there were 2,000 such votes cast, as is claimed, the question is, should the electoral vote of Kansas be counted for Weaver? If it does not legally belong to Weaver then the republican electors of Kansas have the right to give the state's vote for Harrison. The democratic fusionists held a convention, adopted a platform, and, as democrats, formally nominated the electors which appeared upon the democratic ticket, and had Cleveland tickets been more numerous than those bearing Weaver's name, there is no question but the electoral vote would have been claimed for Cleveland.

RED LODGE NEWS.

[From the Picket.]

T. P. McDonald, county assessor elect, took the oath of office before Justice Brown the other day and forwarded his bond to the county clerk and recorder. It is for \$2,000, with Adolph Freiman and P. F. Hanley, two good republicans, as sureties.

Joseph Polman, who was on his way from Wilsey station to the ranch of Shorey in the Lake basin country, stopped at Stillwater last Saturday and got drunk. He left there on horseback at 9 p. m. and the next day his riderless horse was found and Polman's remains were scattered along the track for half a mile. It is supposed he was run down by the east bound passenger. Coroner Chappell is holding his horse and a few dollars in money for his relatives.

Michael Murray and his sons returned from Helena Monday where they have been in attendance at the session of the United States court, charged with changing brands on W. J. Anderson's cattle. One action against them was dismissed, we are informed, but another action has been brought against them which will be heard at the next term of court. The case against the youngest boy, William, was dismissed altogether.

Billings has a genuine murder mystery. It seems that E. C. Gladwin and a man named Stephany were camped on Dry Head, about sixty miles from Billings, for the purpose of prospecting in the Big Horn canyon. They were joined by a little Irishman named Gaffney, who was on his way from Hill City to Sheridan, Wyo., to start a saloon. He had a team, a gold watch and considerable money. Five weeks ago last Sunday Stephany and Gaffney started to move the supplies about a mile down the canyon, leaving Gladwin in camp. They never returned, and after searching for them three weeks Gladwin reported the matter to Sheriff Ramsey. A searching party found the remains of Gaffney riddled with buckshot and half devoured by wolves. It is supposed he was murdered by Stephany for his valuables, and that the murderer is now entrenched in a cabin near Dry Head with a noted horsethief and will resist arrest to the death. Deputy Sheriff Ramsey and posse have gone after them.

Poisoned Workmen.

A startling story comes from Pittsburgh to the effect that a conspiracy has been disclosed which had for its object the ridding of the Carnegie steel works at Homestead of non-union workmen. The disclosures as made by a Sunday paper of Pittsburgh show that a systematic plan for wholesale poisoning was carried out by cooks employed in pre-

paring the food of non-union men employed to take the place of strikers. It is asserted that a number of deaths are directly attributable to this diabolical conspiracy, in which members of the advisory committee, members of the Amalgamated association and officials of some of the labor organizations sympathizing with the locked out men are implicated. Several arrests have been made, among the persons in custody being the chief cook at the Homestead works. It is alleged that he has made a confession that he was to receive \$5,000 for his work. A Homestead druggist and physician are also implicated.

The Box Elder Count.

The Leech-Hamilton case came up in the supreme court at Helena on the 9th, under the title of the "State of Montana ex rel. vs. the Commissioners of Choteau County," on whom a writ of mandate was served to issue a certificate to Leech, or show cause why. The commissioners were not present, but were represented by their counsel, Judge Tatten of Fort Benton, Robert Smith and George F. Shelton of Helena. The contestant was represented by Judge D. C. Wade and Ella L. Knowles. A motion to quash the indictment was first made by Judge Tatten on the following grounds:

First—That it was issued and attested in vacation and out of term time.

Second—That it does not appear to have been issued by the supreme court of Montana, but to have been issued by the clerk of said court under seal without any authority thereof.

Third—That no record appears in the minutes of this court or any proceedings to authorize the writ.

Fourth—It appears from the records and minutes of this court that the October term adjourned on Dec. 3, 1892, and there was no intervening term until Dec. 16, 1892, and that the pretended writ appears to have been issued between these dates and without authority of said court.

The motion was argued and taken under advisement until Saturday morning when Chief Justice Blake announced orally that a majority of the court had decided to overrule the motion to quash the writ on the grounds presented by counsel for the Choteau commissioners.

It is not known, but generally believed, that Judge DeWitt held the dissenting opinion. The counsel filed a demurrer and the case was adjourned until Monday morning.

Charged With Murder.

G. W. Jones and M. C. Walker, Northern Pacific brakemen of Missoula, have been arrested, charged with the murder of George Ramsey. It will be remembered that Ramsey was last week found in an insensible condition beside the Northern Pacific track near Elliston, and subsequently died at Deer Lodge hospital, whither he was taken for treatment. At that time it was announced that his injuries resulted from a fall from the cars while trying to steal a ride. Later reports state during rational moments prior to his death Ramsey told the attending physician that he was riding in a box car, from which he was forcibly ejected by the brakemen, Jones and Walker, who pushed him head first down a rocky embankment. The prisoners G. W. Jones and M. C. Walker, both claimed that the man was stealing a ride on the rods underneath the cars, and it is said that a workman by the name of Akers saw the deceased man go under the car at the depot in Elliston.

A preliminary hearing was held Tuesday night at Deer Lodge. The evidence adduced showed that Ramsey was riding on the brakes and must have fallen off. The men were discharged.

Chronicle: Harry W. Dyer, the democratic treasurer-elect of Park county, who, although a resident of the United States for nineteen years and never had the time nor inclination to take out citizenship papers, will probably hold his office, as the time for filing a notice of contest has expired and Mr. Dyer has secured his certificate of election. Mr. Dyer is, from all we can learn, a good citizen and will make a model officer; but just the same, his neglecting to become a full-fledged citizen of this country before he became an office-holder is inexcusable.

The United States Official Investigation of Baking Powders,

Made under authority of Congress by the Chemical Division of the Dep't of Agriculture, Washington, D. C., and recently completed,

Shows the Royal Baking Powder to be a cream of tartar baking powder of the highest quality, superior to all others in strength, leavening power, and general usefulness.

The Royal Baking Powder is thus distinguished by the highest expert official authority the leading Baking Powder of the world
