

People and Notes of Interest

Lieutenant Governor Sullivan, after a couple of days in Goldfield, is back on the job in his office.

State Engineer Scrugham, who spent yesterday in Reno, returned on this morning's train.

Justice and Mrs. J. A. Sanders returned last evening from the riverside city, where they had spent the past two days.

Will Epstein of the Golden Jewelry store is confined to his home with a severe cold. With care and attention he will probably be out in a few days.

Charley Gorman, auditor of the university, came up from Reno this morning. He is to meet with the members of the board of education during the day.

Billy Harris, who came down from Marlette lake to spend several days, changed his mind during the day and left for the lake, as he feared another storm is on the way.

Secretary of State Brodigan has returned from Goldfield, where he went to vote. George is not quite sure that he really voted a Democratic ticket out south, as there were so few of them he thinks his must have been overlooked.

THE GENTLE ZEPHYR

One of the famed Washoe zephyrs landed in this valley during the afternoon, scattering leaves, hats and dust about the city.

While it is always a part of the fall program it is hardly welcome, as the lawns will have to be recleaned and the riffs of leaves consigned to a new firing.

To Bring Body Home

The body of Ernest Twaddle, one of the Reno boys who met death in France during the war, is to be brought home for burial. The funeral is to be conducted by members of the American Legion in Reno.

PLAN BIG TIME ON 11TH

One week from tonight has been reserved for a display of American Legion originality.

Two years ago the armistice was signed and since that time the boys have been busy in picking up dance ideas from the four corners of the world, and said ideas, augmented by a few that were born here in Carson, will be brought forth for display next Thursday night.

A special train will bring a number of dancers from the Comstock and arrangements are also being made to run a special train from Minden and Gardnerville.

WORKING NEW SCHEME IN CHICKEN BUSINESS

Will Knippenberg, who has gone into chicken farming on a large scale, and has built the only modern place of its kind in this city, is also working out a new scheme which threatens to revolutionize the chicken game. "Nipp" reasoned that if men could be worked in shifts, why not chickens, so he got busy.

At the chicken houses he has rigged up an automatic electric system. For instance, he takes the oldest members of the flock and puts them in the daylight shift. They are allowed out after the sun is warm and bright and they get busy during the day-time.

Then the second shift is put to work. They are confined in the houses under drawn curtains until evening, when the automatic electric lights are turned on. Immediately the second shift gets busy, as there is feed, scratch stuff and nests awaiting them. They put in their regular eight hours, when off the lights go and this flock retires to rest. The graveyard, or midnight shift, then gets busy.

Mr. Knippenberg, who has worked out the three shift program, is now endeavoring to keep the chickens on an open hour basis, as should a union be formed he fears that some of his plans might be upset.

The neighbors declare that the egg farm is the busiest place in Carson and that there is no mistake in the results being accomplished.

THANKS THE VOTERS

Charley Riley, who made the run on the Democratic ticket for assessor, wishes through the press to thank the people of this county for their support. While he was defeated by a very small majority, he states he is more than pleased to know he has so many friends in this city and county.

IN YE OLDEN TIME

Hoop skirts were worn by those who first asked the druggist for, and insisted on having, the genuine Golden Medical Discovery put up by Dr. Pierce over fifty years ago. Dress has changed very much since then! But Dr. Pierce's medicines contain the same dependable ingredients. They are standard today just as they were fifty years ago.

Dr. Pierce's Golden Medical Discovery for the stomach and blood cannot be surpassed by any remedy today.

Dr. Pierce's Favorite Prescription for weak women has never been equalled for the distressing complaints incident to womanhood. What others say:

LOS ANGELES, CAL.—"I suffered from nervous prostration for several years, trying various remedies furnished by the doctor. At last I tried Doctor Pierce's Favorite Prescription, together with Doctor Pierce's Golden Medical Discovery, at the advice of a friend who had used it and had been cured, and my recovery was prompt and permanent."—ROSE FAULKNER, 232 South Grand Avenue.

THINKS WORLD WILL BE DRY IN FIFTY YEARS

(By United Press) SEATTLE, Wash., Oct. 30.—C. W. Saleeby, scientist, who just arrived here from England, believes the whole world will be dry in fifty years. England will be dry in ten years, he said.

"It will be a result of economic changes. Englishmen visiting the United States carry back stories of the workings of prohibition," asserted Saleeby. Lord Levelhulme, a shrewd business man, visited the United States a wet and returned a dry.

"At first Europe was surprised at the news that America was dry. Then came amusement. Newspapers carried hundreds of stories ridiculing America. Now England is beginning to see America in the true economic light. Europe is becoming impressed. The liquor interests are beginning to fight. Prohibition is gradually sweeping over the entire world as a result of the demand for increased economic efficiency and of conditions which force regulation of the liquor traffic. There are several well-defined steps in the battle for full prohibition.

Uncovers Rich Ore

Exploration of the Silver Hills workings on the 209-foot level under the enormously rich high-grade ore shoot now being worked on the 100-foot level brought the conclusion that the downward continuation of the ledge was thrown out by the intrusion that carried the shoot 150 feet to the northwest.—Tonopah Times.

E. R. Converse, who jumped his bail and fled to the southeastern part of Oregon, in an endeavor to escape paying the penalty for the crime of which he was convicted in the district court, was returned to this city yesterday by Sheriff Springer. An Invincible Beaten

Sidney Foster, justice of the peace of Reno, who has been regarded as one of the invincibles, and who has also made a record in the administration of local justice, was among those caught in the tidal wave of the Republican overflow. Sid went down to defeat at the hands of J. Bull.

TAKING SPAWN

The work of taking spawn from the eastern brook trout at Marlette lake is under way. Considerable difficulty has been encountered this fall owing to the low water at the lake and the freezing weather in the mornings.

The first batch of 250,000 fertilized eggs has been delivered at the Lake View hatchery. Jim Voght, in charge of the work hopes to secure 1,000,000 eggs for hatching, and while hampered by weather and low water, expects the amount will be secured.

Marlette lake is the only place in Nevada where the eastern brook trout eggs can be secured and an effort is being made to keep this lake replenished with new stock from the federal hatcheries.

MORNING FIRE

Shortly after 7 o'clock this morning the fire department was called out by a fire at the home of J. R. Ainsley.

It was found that the lean-to on the west end of the house was on fire and before the flames were under control the roof of that section of the house was practically destroyed.

Between the fire and water the kitchen end of the home is pretty well wrecked.

The fire originated through a defective flue. The loss is partially covered by insurance.

GOOD FALL FEED

Several bands of sheep have been moved from the valley to the foot hills, as unusually good feed has followed the recent storms. As a rule the sheep men are moving out instead of into the hills at this time of the year.

A large band was taken through town yesterday for range in the section west of town.

Work of laying stone was resumed on the county building yesterday morning. The pouring of concrete for the vaults was finished Monday.

PETEY, LISTEN HARD!
Buffalo, N. Y. —on a Saturday!

When it's your good luck to butt into Buffalo, go to that store on Ellicott Square where the dark haired clerk slips out Camels with both hands—plus a tank of talk on the side!

The thing that tickled me most was his sureness that I was after Camels! As soon as I had my coin on the counter and before I could say a word, he flashed me a package of Camels! When I asked him how he knew I wanted Camels, he took a pull on his laugh stock and soiled me with this:—"Can't tell you, old mayonnaise—I'm dressing!"

After he had waited on several other men who drew their Camels like I did, this salesman said:—"For a fact, most men here smoke Camels. They hit the popular taste! Camels have the right body and the right mildness and the right flavor! They're ALL right!"

And, Pete—he added this without a stutter: The more I see of the world and the more I learn about cigarettes, the more respect I have for Camels and Camels quality! I don't believe a better cigarette could be made at any price!"

And Pete—oh, Pete—listen to this gem:—"And it's an odds on bet I'm a good judge. I've tried 'em all—and my taste is the jury box!"

If that isn't a swell line of Camel talk, I'll sell my shoes! But, Peter, that salesman is right! It's my belief that no cigarette in the world can be favorably compared with Camels—they're so smooth and mellow and delightful!

I'm herewith slipping between the sheets, old book. So, you tell 'em the rest—you're so full of knowledge!

Sincerely
Shorty.
