VOLUME 50

CARSON CITY, NEVADA, FRIDAY, SEPTEMBER 15, 1922

NUMBER 209

## MAKES STATEMENT ABOUT MINE RESCUE

Owing to the failure of those directing the rescue of the forty-seven miners entombed in the Argonaut mine at Jackson, Cal., to reverse the air currents of that mine will result in the loss of life of every one of the workmen, in the opinion of A. J. Stinson, inspector of mines in Nevada.

Stinson has made this statement as a result of a personal visit to the scene of the accident in California and in the way of explanation in reply to an inquiry from H. M. Wolfelin, superintendent of the industrial accident commission of California.

Stinson's views were partially given to the press earlier this month when he stated that by reversing fans in the Muldoon shaft that passageway would have been made a downcast and the Argonaut mine an upcast, which, in turn would have greatly decreased the possibility of the entombed men being overcome with the poisonous gases created by the fire in the Argonaut.

It is also claimed by the Nevada mine inspector that as conditions are at present there is grave danger of those engaged in rescue work being overcome by gas when they make connection from the Kennedy mine, which is daily expected.

## STATE CANDIDATES VISIT AT ELKO COUNTY FAIR

A number of state candidates were arrivals in Elko recently, coming for the double purpose of taking in the fair and races as well as becoming acquainted with Elko people, says the Independent. Among those noted were the following: J. G. Scruggam, candidate for governor; Joe Farnsworth, for state printer; George Cole, for state controller; Ed Malley for state treasurer, and Judge J. A. Sanders for justice of the supreme court.

## AMERICAN WORKMEN BENEFIT IN ELY RAISE

The Nevada Consolidated Copper Company has raised wages effective today, the raise amounting to fifty cents per day for American workmen and forty cents per day for foreign laborers. The present craftsmen, in accordance with this raise, will receive \$5.50 for an eight hour shift and the underground miners \$4.75 per day, while mill operators will get \$4.25 per shift.

## HENDERSON'S SON WILL ENTER HARVARD SCHOOL

Senator Charles B. Henderson has advised members of the Elko Progressive Club of his inability to attend the club's dinner as toastmaster owing to the fact that his son is departing for Harvard where he will enter upon his fall term. Attorney Ed Caine will conduct the meeting in place of Henderson.—Independent.

## CARSON AND RENO NOW JOINED BY CONCRETE ROAD

The last stretch of the Reno-Carson concrete highway, comprising the 18-foot section in the city limits of Carson, was opened to traffic last evening, linking the payments of the metropolis and the capital with a continuous concrete roadway.

The length of the concrete road between the cities of Reno and Carson is 28.69 miles. Add to this the half mile of new paving in Carson City from the north boundary to the main track of the Virginia & Truckee and the distance from the railroad station in Carson to the south limit of Reno is 29.19 miles.

Preliminary studies and surveys for this work were started soon after the formation of the highway department under R. K. West, who was the state highway engineer. The surveys were continued and the portion of the road in Washoe county constructed under C. C. Cottrell and the Ormsby county portion, the closing link, was constructed under George W. Borden, present state highway engineer.

## TWO PROCLAMATIONS ISSUED BY GOVERNOR

Proclamations designating October 2 to 9 as Fire Prevention Week and modifying a former quarantine proclamation have been issued by Governor Boyle.

Sheep from Plumas and Lassen counties in California may now be brought into Nevada under certain restrictions, according to the latter proclamation.

Under the new order, the sheep must be accompanied by a certificate not more than three weeks old, issued by a California state agent or an agent of the United States bureau of animal industry declaring them free from disease or exposure to disease, otherwise they must be dipped.

Sheep from all other counties in California must be accompanied by a health certificate required by the Nevada laws and by the rules of the state board of sheep commissioners.

"Year by year, the national destruction of life and property by fire has been mounting until the total annual loss of material wealth now approximates the enormous sum of \$845,000,000. This means the wiping out of needed resources at the rate of about \$1,375,000 a day, in addition to the destruction of forty-eight lives daily," the fire-prevention proclamation states.

"In our state, during the five years ended with 1920 our fire waste came to the great total of \$1,377,169, a sum that would build 275 five-thousand-dollar homes or many miles of good roads. Thus it is evident that we have been paying our full share of the tax levied by carelessness and ignorance in handling fire hazards.

"Since most fires are preventable, the regrettable devastation by burning that takes place day after day is largely unnecessary. It goes without saying that every effort should be made to relieve the people of the self-imposed burden represented by preventable fire."

## RAISES OBJECTION TO PURCHASE OF CARSON SCHOOL AUTO BUS

Declaring among other things that it is against the public policy for the board of school trustees to purchase an automobile from one of the members of the board, A. Pozzi, proprietor of the Carson City Garage, prepared today to attack the legality of the purchase of a bus for transporting children from Stewart to this city and return.

The purchase of the bus is illegal, Pozzi holds, because school money in the district has already been appropriated for certain purposes and the item of automobile purchase is not included in the budget, that Frank Meder, from whom the automobile was purchased, is a member of the school board and that there was no competitive bidding on the new vehicle.

The written objection given by Pozzi to the board today is as follows:

"Carson City, Nev., Sept 15, 1922

To the Honorable Board of School Trustees, Carson City, Nevada,

"Gentlemen:—You will please to take notice that the undersigned, Archie Pozzi, a resident and elector of Carson City, Nevada, and this school district, hereby objects to the alleged contract of purchase, or the consummation thereof by your honorable board, for the purchase of one Chevrolet Auto Truck from F. E. Meder, one of your

## HUMBOLDT OFFICE SEEKERS ASK PRIMARY RECOUNT

Harry Warren and Mrs. Georgia Rutherford, Democratic candidates for the nomination of county attorney and county treasurer of Humboldt county, have filed with the county clerk notices of court contests against their respective opponents, County Attorney L. G. Wilson and County Treasurer Mrs. Cora M. Hoenstine, alleging the casting of illegal votes, mis-counting, mal-conduct, inadvertence, erroneous and illegal determination of totals, and just ordinary, common, everyday mistakes.—Winnemucca Silver State.

## "TOO MUCH BUSINESS" AND "THE BLIZZARD" TO BE PROGRAM AT GRAND THURSDAY AND FRIDAY

TWO BIG ROARING COMEDIES TO FEATURE BILL AT THE REGULAR ADMISSION PRICES; 10 AND 30 CENTS ONE SHOW EACH NIGHT AT 7:15

"Too Much Business," a straight comedy in seven reels, adapted from Earl Derr Bigger's original story in the Saturday Evening Post, "John Henry and the Restless Sex," has been called the greatest seven-reel comedy of the past four years. It was made on the Pacific Coast under the personal direction of Jess Robbins. It is unique in motion picture entertainment, as it is not comedy in the sense usually ascribed to motion pictures. There is not the slightest touch of slapstick about it, al-

though the comedy action occasionally borders on the farcical. It is, really, more a parallel of the four-act stage comedy of the successful sort which has run so frequently on Broadway, New York.

The plot of "Too Much Business" is clearly defined, following closely the inimitable Earl Derr Bigger's story in the Post, with an engrossing love story intertwined. The all-star cast is headed by Tully Marshall, who starred on the stage in such notable successes as "Paid in Full" and "The City."

The brush fire that threatened to do great damage in Jacks Valley last week, the destruction of several arm buildings being prevented through the timely assistance of a large number of fire fighters is still burning and has eaten its way into the James Canyon, says the Gardnerville Record-Courier.

Tuesday night, fanned by a heavy wind, the fire broke out anew and for a time the canyon was a seething mass of flames that shot skyward and were plainly visible from Gardnerville.

Fearing further damage to timber, twenty or thirty men worked all night to prevent the flames from reaching the heavy timber on the south slope of the canyon and were successful in their work.

If you have something to be bought or sold see Thos. C. Fradsham.—Adv.

Fire spreads to James Canyon

## FOOTBALL MAY BE PLAYED HERE NEXT WEEK

That Carson City football fans may see their first game this year two weeks from tomorrow was the cheerful report from the high school today. The Black Hawk eleven of Reno will come here for the initial contest of 1922 for Western Nevada.

Efforts of Superintendent McKeown and Coach Jones of the Carson school to communicate with Coach Welch of Reno to schedule games for the season have so far been unavailing, but it is believed that at least three contests will be arranged before the season is over.

Yerington high school will not have a team this year, according to word reaching Carson, and an expected contest with the Mason Valley players is consequently not believed to be forthcoming. The local school will probably meet the Stewart Indians in several contests, however, and the squad may be taken to Tonopah for a game with the Nye county miners, who have always been blessed with a strong team.

The Black Hawks of Reno are said to have in their line-up some University of Nevada students who are unable to make the first team and the first game is expected to be one of the hardest of the season for Carson.

Forty students are out for practice here and the first scrimmage was held last night for a ten-minute period.

ELY ASKS AID IN REPAIR OF DAMAGED STREETS

A petition has been received by the state board of finance requesting authorization for a temporary loan of \$10,000 by the city of Ely for the purpose of repairing damaged streets, taking care of the flood waters of Murray Creek, and making permanent improvements of the streets so repaired.

The petition sets forth that recent heavy rains and cloudbursts have greatly damaged certain streets in Ely and have also created great damage to the property of individuals besides stopping up and rendering useless the flume which formerly carried the waters of Murray Creek through the city.

FOWLER SAYS FIFTEEN DUCK LIMIT PREVAILS

An opinion that the state game law allowing a limit of fifteen ducks prevails was the opinion given today by Attorney-General L. B. Fowler in reply to an inquiry as to whether the state limit of fifteen or the federal limit of twenty-five prevailed.

The opinion was given to District Attorney Kenny of Churchill county, who explained in his request that a dispute was on in Fallon on the point.

RUSSELL FLETCHER GOES TO HARVARD

Russell Fletcher, formerly of Carson, son of F. N. Fletcher, director of the Nevada Economy League, left last night for Cambridge, Mass., where he will enter the Medical College of Harvard University.

MEXICANS CELEBRATE

Tonopah Mexicans will celebrate Mexican Independence Day tomorrow with a program and dance.

Want to hear from owner having farm for sale; give particulars and lowest price. JOHN J. BLACK, Nevada street, Chippewa Falls, Wisconsin.—Ad.

ATTRACTIVE ROOMS — Bath on same floor. Gentlemen preferred, Farrell's Rooming House, Curry st., near V. & T. depot. m21tf.

WANTED—To buy show cases. Give location and price. Box 543, Carson City. S6-1w.

For sand, gravel or soil for cemetery plots or other purposes. Phone 1614.—Adv.

See Fradsham for all kinds of House Furnishings. Phone 436.—Adv.

## STATE BANK GETS LOWER TAX ON BUILDING

During the morning session of the equalization board the valuation of the State Bank & Trust Company building at Tonopah was placed at \$53,995. The valuation last year was \$77,395 and the receiver this year placed the valuation at \$53,995, this valuation being sustained by the county assessor. The county board then raised it to the old figure of \$77,395 and when brought before the state board today the lower valuation was placed.

The State Bank case was presented to the board by Attorney George Green. The valuation of an automobile owned by J. L. McCarthy of Goldfield was fixed at \$1985. McCarthy purchased the automobile in June of this year and at the same time turned in a smaller vehicle valued at about \$250. He sought to pay taxes this year on the old machine instead of the new, but the assessor's contention that he should be taxed on the new machine was sustained.

TENNIS TROPHIES TO BE PRESENTED THIS EVENING

Those who enjoy a good laugh—and who does not—will receive their fill by an attendance at the Grand Theatre tonight where, for the last time, a big special comedy program is being presented. "Too Much Business" the feature of the bill is an unusual production in seven reels which affords much amusement in an exceptionally clever way. Its funny strain is not farcical but depicts some very funny situations.

Jimmy Aubrey also appears on the bill in "The Blizzard" and although a storm such as Jimmy experiences for two reels is no joke, one takes advantage of having the laugh at his expense.

At tonight's show presentation of trophies won in the recent tennis tournament will be made to the champions by Mayor A. B. Gray.

METSCHER APPLE CROP YIELDS EXCELLENT FRUIT

Apples with a flavor equal to the best grown in the United States are being picked by W. H. Metscher on his ranch west of Carson and are being distributed by him. Calls for the apples have been received from California and several boxes are to be shipped to points in that state.

Roman Beauties, raised by Metscher, have a delicious taste and his Maiden Blush apples are also thoroughly palatable.

MISS BOOE HURT

Miss Viola Booe is wearing her right shoulder in a plaster cast following an accident recently in which she fell and her shoulder was thrown out of joint. The shoulder is mending slowly, however.

NO HUNTING

The public is hereby given notice that no hunting or trespassing will be allowed on my property. F.W. COOK.

Grand Theater

THURSDAY AND FRIDAY September 14 and 15

"Too Much Business." A seven reel comedy special. One of the funniest comedies of the year. Based on the Saturday Evening Post story, "John Henry and the Restless Sex."

Jimmie Aubrey in two reels of comedy, "The Blizzard." This program is one big laugh special consisting of nine reels. Regular admission, 10c and 30c. One show each night at 7:15.

SATURDAY September 16

Tom Moore in "From the Ground Up" From a ditch digger to a millionaire contractor. A bit of Ireland transplanted in America. A typical Tom Moore comedy. A Goldwyn picture.

Edgar Pomroy in "Edgar Takes the Cake." Bray Pictograph and cartoon. Two shows: 7:15 and 9:00 p.m. 10c and 30c.

## Introducing A. G. MEYERS

Independent Candidate for the Assembly

Height: Five feet eleven and a half inches.

Weight: 235 pounds.

Won't tell his age.

Married.

Not a politician

Never been in jail.

Answers to the name of "Art."

## "THE BLIZZARD"

Many and strange have been the demands made by Jimmy Aubrey for articles, creatures and paraphernalia to be used in his rollicking comedies. He has been provided with whales, wild bulls, an octopus, a balky burro, a bucking ladder, a trick bicycle which ran by itself, unusual and strangely built automobiles and many other things difficult to provide but essential to the carrying out of his elaborate plans for making his audiences laugh themselves into exhaustion. When he asked for a terrific snowstorm, however, it was suggested that he had better think of something else. Jimmy Aubrey and his company work in and about Los Angeles, Cal., where snow storms do not abound. To be sure, snow falls every two or three years on Mount Lowe, no more than twenty miles from Los Angeles as the crow flies, though much farther by trolley and mule trail, but the storms are never of the "terrific" variety desired by Jimmy.

However, the comedian had his plans all mapped out for "The Blizzard," a Vitaphone Jimmy Aubrey special comedy which will be shown at the Grand Theatre on Thursday and Friday nights and they included a storm of the character and degree specified. As no such storm could be brought to Jimmy, Jimmy and

his company went to the storm. It was discovered at Truckee, Cal., near the Nevada state-line, high in the Sierra Nevada. There Jimmy Aubrey, who appears in the comedy garbed in night-clothes, got all the storm he wanted. He went shivering back to balmy southern California resolved to eschew snow-storms for awhile.

The result, however, proved highly gratifying, as "The Blizzard" turned out to be one of the most roaringly funny comedies ever shown on a motion picture screen.

The storm came and blew out a window, sash and pane. The blast took the bedclothes, mattress and roomer from the bed and deposited them in a corner. The man found peace in a small wardrobe until morning and then—

Everything was covered with drifts of snow. He shivered and shook. Tried to light a gas stove, but alas; the heater vanished in smoke. Added to this he lost his trousers out the window and they were claimed by the police. This is part of the fun.

He found a baby in his room. It was not his, but it was hungry, and the kindly tenant decided to borrow someone's milk—he did not care whose. In the hall he saw a bottle but before he could possess it the bottle vanished!
