

Salmagundi

From Friday's Daily

Sam Wines is in from Ruby valley.

Rheumatism had us in its grip today and came very near knocking us out.

A report went over the wires this forenoon that the United States had declared war against England. Nothing in it, dear reader, only a typical Hearst headline in the San Francisco Examiner.

The walls of all the rooms of a new building at the university of Paris are lined with lead to make them impervious to emanations of radium, with which experiments are conducted.

James Moyer was arraigned before Judge Taber this forenoon, on an information charging him with forgery committed at Wells. He pleaded guilty and will receive his sentence at 3 o'clock tomorrow afternoon.

About 8:30 o'clock last evening a white man and a negro were held up on the street near Masonic Hall by four or five toughs and robbed. The negro lost \$42 and the white man a cheap watch. The officers are working on the case. We were unable to learn the names of the men who were robbed.

That the war has raised Cain with the mines on the Comstock is evident by the fact that word has been received from San Francisco to close down all properties controlled by operators in that city. All men except those in charge of the pumps, have been laid off until further notice.—Appeal.

On account of a careless mistake in the film office, Episode No. 5 of the "Perils of Pauline" was sent instead of Episode No. 6. However Episode No. 6 will be shown tomorrow night, and tonight four new reels of pictures in addition to Episode No. 5 of the "Perils of Pauline" will be shown at the Bradley.—Advt.

Charles Iverson, who was committed to the Washoe county jail from here for disposing of liquors to Indians, has been removed to the county hospital. He is said to be in the last stages of consumption. It is reported that Iverson is nearly 6 feet tall and weighs but 81 pounds. If he is that tall, he has grown about a foot since leaving Elko.

The Carson News thinks that if the European war continues there will be no exposition at San Francisco next year and Nevada will save at least a part of its \$140,000 appropriation. The News misjudges the ability of San Francisco's grafters to milk suckers. The exposition is too good a thing and suckers are too plenty to stop the show when the harvest promises such a big return.

The news from the European war is so contradictory that it is of very little importance. Belgium is putting up a stiff fight to prevent the German army from marching through it to attack the northern frontier of France. While Belgium is fighting, the armies and navies of the other countries are preparing for the great struggle.

Following a conference this afternoon McGucken, the I. W. W. organizer, promised Sheriff Ingalls that he would leave Goldfield and named tomorrow as the date of his departure. McGucken was in the midst of an inflammatory street address last night when interrupted by the sheriff and told that he would have to tone down his remarks if he wished to proceed. Thereafter his remarks were of a less incendiary nature. At their conference today Sheriff Ingalls informed McGucken that the people of Goldfield desire no industrial strife and that anarchistic remarks will not be tolerated.—Tribune.

Two strangers recently appeared in Pioche and declared they had lost their saddle horses. They asked for the loan of horses to enable them to regain possession of their own animals. Finally they hired one horse and one of the men went on the search, the other remaining in Pioche. Several days later it was discovered that the man who had remained in Pioche was missing and the rented horse and rider failed to return.

John M. Gearhart, a pioneer of the Comstock, passed away at the

county hospital in Virginia City recently after a long illness. The deceased was seventy-seven years old and a native of Pennsylvania, coming to Virginia City many years ago. He was at one time a prominent man in the political life of the state, having served as secretary on the republican state central committee.

Salmagundi

From Saturday's Daily

Judge Castle sent Tom Kelley to jail for 30 days today for being a bum, one of the leeches that gets money from drunken men.

At 2 o'clock this afternoon, 194 republicans, 168 democrats, 28 socialists, 5 non-partisans and 1 progressive had registered with Judge Castle for the primary election.

The officers don't take much stock in the reported hold-up of a negro and white man Thursday night. The stories they told do not jibe with the facts learned by the officers.

While Ralph Young was working with bottles at the soda works this forenoon, one of the bottles broke and cut one of his arms severely. Dr. Hood stitched up the wound and Ralph will be all right in a few days.

Governor Oddie has issued an appeal to the people of the state to contribute to the American Red Cross fund for the benefit of the soldiers of Europe's warring nations. Contributions may be sent to Governor Oddie, John Henderson, Elko, Lem Allen, Reno, or Judge Somers, Goldfield.

We read in the European war news that England issued a moratorium to bridge over its financial trouble at the breaking out of the war. Now what is a moratorium? The dictionary says it is "An emergency act of legislation authorizing a government bank to suspend specie payment for a given period."

The funeral of Mrs. Woodrow Wilson will be held at the White House at 2 o'clock Tuesday afternoon. After the services, the remains will be taken to Rome, Georgia, her girlhood home, and laid away. Speaker Clark and half a hundred of the senior members from each state will represent the house. Senators Martine of New Jersey and Kenyon of Iowa were appointed a committee on flowers. Flags are at half-mast in town today as a respect to Mrs. Wilson's memory.

True to his promise of yesterday to Sheriff Ingalls, Organizer McGucken of the Industrial Workers of the World, who, on Tuesday night was interrupted in his delivery of an inflammatory street speech by that officer, shook the dust of Goldfield from his feet this morning and departed for Tonopah. Sheriff Ingalls was on hand at the T. & G. depot to see that McGucken made good his promise. McGucken told the sheriff that Goldfield did not appeal to him as a particularly favorable field for his endeavors and those of his ilk.—Tribune.

Salmagundi

From Monday's Daily

Percy Hull of Ely is visiting his boyhood friends in Elko.

Registration is proceeding slowly. At 2 o'clock this afternoon 404 voters had registered with Judge Castle. Of this number, 197 are republicans, 173 democrats, 28 socialists, 5 non-partisans and 1 progressive.

Hon. Leonard B. Fowler, democratic candidate for the congressional nomination arrived from the east last night. He will remain in town two or three days to size up the political situation. Mr. Fowler would make an excellent member of congress.

Civil Engineer F. T. Moore, president of a scientific society of Winsted, Conn., reports an unusual find in the woods of Barkhamstead, where he felled a tree containing three species in one. The butt of the tree was oak, the middle chestnut, and the top hemlock. Mr. Moore is also a church member.—Boston Herald.

The lunch counter car owned by the Southern Pacific Railroad Co., ran off the track early Friday morning at Churchill and caused the train to be two hours late. One waiter and a cook were cut and

bruised about the face and arms, but the rest of the crew escaped without any injury.

This forenoon Judge Castle performed the ceremony that made Perry L. White of Mound Valley and Miss Jane Gabbott of Utah husband and wife. The ceremony took place at the residence of Mr. and Mrs. Ed Carville. The young people will make their home in Mound Valley. The Independent extends congratulations.

Judge Castle was somewhat out of humor this forenoon and law-breakers received no mercy. A drunken squaw was given 60 days in the cooler and James Murphy and Jim Douglas, dope fiends, who bummed the town Saturday were given 90 days each in which to repent of their wicked ways.

Saturday afternoon a checked valise was stolen from the Southern Pacific truck at the passenger depot, and Saturday night the suspected thief was arrested while trying to dispose of a razor. The valise was found by the officers and will be shipped to the owner at Golconda tonight. When found the valise was broken open and its contents scattered about. Detective Cordón is investigating the matter.

Prof. F. C. Lincoln, who has recently been appointed head of the Mackay School of Mines at the University of Nevada, has arrived in Reno to take up his work as professor of mining engineering at the University. Professor Lincoln comes from South America where he has for the past year been a resident mining engineer for the Bolivia Development and Exploitation company, which owns large properties in Bolivia and Peru.

A letter received yesterday morning from Mr. L. T. Taylor at Palisade says that Mr. Charles Sexton, an engineer from San Francisco, was there and would begin today to survey the railroad from Raine's siding on the E. & P. to Bullion. Mr. Taylor is the manager of the trucks hauling ore from Bullion. He says it looks like business and thinks the E. & P. is behind the survey.

Salmagundi

From Tuesday's Daily

What has become of the English fleet that was dispatched with orders to find the German fleet and destroy it?

At 2 o'clock this afternoon, 203 republicans, 179 democrats, 28 socialists, 5 non-partisans and 1 progressive were registered in town.

Mrs. Morgan Hill has named her new residence Miramonte, meaning Mountain view. A very pretty name for the finest residence in eastern Nevada.

The government paid 52 cents an ounce for silver in New York City yesterday. If this price is maintained the silver mines of Nevada will continue to do business.

The war maps now being published in the papers are dandies. If a person tries to study them all, he will sooner or later be a candidate for the bug-house.

The coroner's jury that investigated the killing of five Austrians at Copper Flat by a premature explosion of powder, found that the men came to their death through the carelessness of J. Tyson, powder foreman of the Nevada Consolidated Copper company.

Judge Castle sent Ham Blaine to jail today for 6 months for assault and battery committed on his ex-wife. When Ham's skin was filled with liquor, he would beat and abuse the squaw when he met her. She appealed to Judge Castle for protection and Ham will not bother her for 6 months.

Sunday afternoon the sheriff's office received word from Good Hope north of Tuscarora that a crazy man was there and to come after him. Jailer McMullen was sent after the man but returned last night empty-handed and out of humor as there was no crazy man there nor had there been. The person who sent the message doubtless thinks he did a great thing.

There is very little real war news. The Belgians are the only ones so far that have done any real work in holding back the German advance. Their stubborn resistance will give England and France time to concentrate a large army to assist them in driving Germany out

of their territory. The Belgians have held the center of the stage so far.

"Dogs of war" is not a mere metaphor, in the Middle Ages mastiffs were used as auxiliaries in attack, and were equipped with mail studded with spikes and scythes, so that they could even attack cavalry. Henry VIII offered King Charles V of Spain 40,000 men and 4000 war dogs to fight against France. Of late to a certain extent, a use has been found for dogs in the army to aid sentries in detecting the presence of an enemy.

Salmagundi

From Wednesday's Daily

Frank Boskowitz, the prince of drummers, is in town interviewing his customers.

Miss Nellie Wilkerson leaves for Berkeley tonight to enter the University of California.

The little war news that filters through the censors is very contradictory. Neither side has really got down to business.

Will Rigby arrived from Ely last night to visit his father and boyhood friends. Mrs. Rigby will join him in a few days.

Population of the United States on July 1, 1914, was 109,021,992, according to government estimates a gain of more than 7,000,000 since 1910 census.

Democrats should register and vote at the primary election. There are several contests on the state ticket and every democrat should express his choice by his ballot. Remember that your duty as a citizen is to vote at the primary election.

The Connelly hotel at Wendover, a two story building and personal property, including that of the guests, were totally destroyed by fire last night. The damage, exclusive of the personal property of the guests, is estimated at \$7,000. The origin of the fire is unknown.

Oddie and Lozano is the team that will head the Republican state ticket. Sounds like the name of a foreign vaudeville team, doesn't it? Well, the governor has proven himself some artist and the other fellow may also be a star performer.—Clark County Review.

Groundless fears prevail in Goldfield as elsewhere throughout the United States, as to the possibility of a money stringency in consequence of the European war. Bankers throughout the United States maintain that the action of the government in providing \$500,000,000 in emergency funds absolutely precludes the possibility of financial difficulties in this country. It is the opinion of the majority of bankers that it will not be necessary to place any part of the emergency funds in circulation.—Tribune.

Salmagundi

From Thursday's Daily

There are 32 names on the sheriff's list of boarders. One of them is temporarily at the county hospital.

It is estimated it will take two years to appraise the value of J. P. Morgan's estate. An expert says his miniatures alone are worth \$5,000,000.

At 1 o'clock this afternoon, the republicans were 22 ahead in the town registration, 182 democrats and 204 republicans being on the list. The other parties remain about the same as yesterday.

W. C. Van Buren of Reno, a young man well known about the State, has been sued in the District Court for \$25,000 by Miss Forest Clover, a young lady of Oregon on a breach of promise charge.

We understand that Mr. and Mrs. Morgan are in a very bad condition. Judge Morgan had the misfortune to fall Sunday and break his ribs and Mrs. Morgan has been an invalid for several months. Both are now confined to their beds and require the attention of nurses.

This forenoon Judge Castle sent James Hannan and Joe Kennane to jail for three months each on the charge of vagrancy. They are the men suspected of stealing the valise from the Southern Pacific truck the other night. The evidence was not sufficient to hold them on that charge.

While reading a war bulletin in front of the Expositor office today, Dave Bartley was asked by an old Indian squaw, "What's maller, I no sabe." Mr. Bartley endeavored to explain the European situation to the native and after he finished the kindergarten course, she replied, "Hub, maheso."—Ely Expositor.

Judge Coleman of Ely spent yesterday in town interviewing the voters. He arrived Tuesday night late but was up and rustling before 8 o'clock in the morning. He carries with him books to show that he is a worker and up-to-date in his profession. He made many friends here and will poll a big vote in the primary election. He left last night for the west.

There is on display in the window at the Chamber of Commerce office a small collection of what is called Nevada diamonds. There are two kinds—white and black. The black may be seen in the matrix. The stones when polished are very pretty. They were brought in by W. H. O'Neil, recent local agent of the Western Pacific. The locality from which they were obtained is not divulged.—Winnemucca Star.

Democrats should register for the primary election. There are several important contests on the state ticket that must be settled at the primary. Among them being governor, supreme judge, congressman, clerk of supreme court, lieutenant governor and state superintendent of schools. If you have a choice for these positions register so that you can vote at the primary election.

E. A. Saxton, one of the pioneers of the Seven Troughs district had an accident yesterday from which he miraculously escaped serious injury. In his return from the Rabbit Hole country, where he had been prospecting, he stopped over night at the Half Way House. In the morning while cooking breakfast he attempted to turn his gray with coal oil supposing it to be water. The mixture exploded and in the fire which followed Saxton was very severely burned about the arms. In spite of the agonizing pain, Saxton succeeded in putting out the fire which followed the explosion and then came on to Lovelock where he received medical attention.—Lovelock Review.

\$100 REWARD, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease requires constitutional treatment. Hall's Catarrh Cure is taken internally acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative power that they offer One Hundred Dollars for any case that it fails to cure.

Send for list of testimonials. Address: F. J. Cheney & Co., Toledo, O.

Sold by all druggists, 75 cents. Take Hall's family Pills for constipation.

JOHN D. MCFARLANE

John D. McFarlane, the popular merchant and citizen, announces in this issue that he is a republican candidate for the nomination for assemblyman. He stands high as a citizen and a business man. If nominated and elected to the assembly, we believe he has the ability to make an acceptable lawmaker.

We say this notwithstanding the fact that we will be "agin" at the polls. But this does not deter us from giving him a fair show in the fight. If he were a democrat, we could say no more in his favor than is said herein.

His hat is in the ring and whether successful or defeated he will be the same genial fellow that he has always been. Success will not unduly puff him up nor will defeat make him sour or surly. He submits his name to his party and asks its consideration. Worse men than John D. McFarlane have represented Elko county in the

legislature. With this write-up we leave him to his fate.

GEORGE B. THATCHER

This issue contains the announcement of George B. Thatcher as the democratic candidate for attorney general. He has no opposition at the primary election and under the law becomes the nominee of his party.

Mr. Thatcher, was born, we believe, in Virginia City and his early life was spent amid the stirring scenes of the Comstock. When the mines of the Comstock failed his father, whom we knew well, sought other fields.

On the death of Attorney General Baker, he was appointed to fill the vacancy. His record since then is before the people. On that record he stands as his party's candidate. His qualifications for the office are admitted by all who know him. He has the ability, the industry and the experience to make the state an excellent official.

He submits his official record to his party for its endorsement at the polls. If successful, he promises honest, faithful service.

VIOLENTLY INSANE

Last Friday a man who gave his name as Tim O'Neill was found in the eastern part of town, acting like a crazy man. He was taken to jail and put in the "bull pen" with a number of other prisoners as his actions were thought to be the result of booze. He remained comparatively quiet until Sunday evening when he became violent and fought the prisoners in the pen. Jailor Cotant was called away from the jail Sunday evening and on his return he heard the cries for help and went to the relief of the prisoners. O'Neill was wild and Cotant was unable to manage him. Sheriff Harris was called and O'Neill was finally coaxed into a cell and locked up.

Yesterday he was examined before Judge Taber and there being no doubt of his insanity he was committed to the asylum at Reno. S. B. Lannom, an asylum attendant came this morning to take him away. When the time came to take him to the train O'Neill, put up a fight and it took 6 or 7 men to subdue him. He was finally pulled from the cell and taken to the jailer's office, where he was held down while the handcuffs and leg irons were put on him. He made no further trouble and was put on No. 2 and started for Reno. O'Neill is a big husky man and the officers handled him as gently as they could. He imagines all sorts of things, among them being that the devil has turned one side of his face black by breathing on it and that his satanic majesty cats off the same plate with him. He came from Battle Mountain here.

RABBITS KILLED BY NEW METHOD

At last an effective way has been found to combat rabbits that infest the farming regions each year and as a result the little pests are being killed off in large numbers while the farmer sleeps.

On the government project in Hermiston district the new plan is working like a charm. Dairy salt and strychnine make up the agency that is depleting the ranks of the destructive animals. The farmers at that point have placed at different points over the land small receptacles containing the poisoned salt. Br'er rabbit, always fond of salt, takes a nibble at the mineral and soon dies from the effect of the tiny bit of strychnine that he gets with the more choice morsel.

As a result it is said that thousands of carcasses are lying scattered about the places where the poisoned salt has been placed, sending out anything but a pleasant odor during the high temperature. But crops are damaged less.

The proportion of the poison is one ounce to a pound of salt, and a small vessel containing a tiny bit of the stuff is sufficient to cause the death of a large number of the pests.—Pendleton, Ore., Tribune.

Today.

One today is worth two tomorrow.—Franklin.

SCHOOL STATISTICS

Deputy Superintendent Anderson has forwarded his report for the school year ending June 30th to the state superintendent. It contains the following interesting statistics:

Number of elementary schools	62
Number of district high schools	2
Number of county high schools	2
Number of high schools	4
Total number of schools	66
Total number of school districts	64
Schoolhouses built of brick	4
Schoolhouses built of wood	47
Schoolhouses built of adobe	1
Schoolhouses built of stone	2
Schoolhouses rented	2
Schoolhouses unfit for use	15
New schoolhouses erected	5
Male teachers	11
Female teachers	74
Total number of teachers	85
Average monthly salary paid to male teachers	\$113 83
Average monthly salary paid to female teachers	\$80 20
Schools maintained less than six months	2
Schools maintained six months	4
Schools maintained more than six and less than eight months	7
Schools maintained eight months or more	49
Schools maintained nine months or more	40
Schools maintained ten months	20
Average number of months for all schools in Supervision District	8 7
Teachers who have made reports according to law	77
Teachers who have failed to make such reports	8
Amount of money expended for district and county institutes	0
Salary of Deputy Superintendent	\$2000
Number of school visits made by Deputy Superintendent	64
Rate of county school tax on the \$100	20
Number of districts having special tax	8
The county is paying \$7,630.39 per month for teacher's salaries. With average term at 8.7 months \$66,389.09 is spent for teacher's salaries each year.	

A SERIOUS QUANDRY

At San Diego, Calif., Emil Berkovitch, whose father was a Russian, and his mother was a German, was in a serious quandry last week. Berkovitch had received two orders—one from the Russian consul to report for duty with Russia and one from the German representative to join the legions of the kaiser, it appearing that despite his Russian birth, he had served in the German army. Berkovitch shook dice in Peyton's cigar store to decide which army he should join, but after two ties decided that he would join neither. "I will go in the back room and fight mit myself," he announced.

SPEED RECORD BROKEN

The world's speed record for automobiles was broken yesterday at the Salduro race course, a few miles east of Wendover, Utah. Toddy Tetzlaff drove a Blitzen Benz racing car a half mile in 12.6 seconds or at the rate of a mile in 25.2 seconds. The course is over the Salduro salt beds and is said to be the finest in the world. Tetzlaff said he was confident that a speed of 155 miles an hour could be attained on the course.

For Sale

A ranch on North Fork with the horses and cattle on the ranch or belonging to the owner. For terms of sale address, Charles Doherty, North Fork, Elko County, Nevada. Advt. 33

Recipe for Happiness. Happiness comes from striving, doing, loving, achieving, conquering—always something positive and forceful.—David Starr Jordan.
