Ague Cure,

Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache, or Bilious Headache, and Billous Fevers, indeed for the whole class of discuses originating in biliary derangement, caused by the Malaria of miasmatic countries.

No one remedy is louder called for by the accessities of the American people than a sure and safe cure for Fever and Ague. Such we are now enabled to offer, with a perfect certainty that it will eradicate the disease and with assurance, founded on proof, that no harm can arise from its use in any quantity.

no harm can arise from its use in any quantity.

That which protects from or prevents this divorder must be of immense service in the sommunities where it prevails. Prevention is better than cure, for the patient escapes the risk which he must run in violent attacks of this baleful distemper. This "Cune" expels the missuratic poison of Feven and Ague from the system and prevents the development of the disease, if taken on the first approach of its premonitory symptoms. It is from the system and prevents the development of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of every body; and in billious districts, where Fever and Aoue prevails, every cody should have it and use it freely both for cure and protection. It is hope this price will place it within the reach of au—the poor as well as the rich. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermittents is, that it contains so Quinine or mineral, consequently it produces no quintant or their imprious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never and the disease.

Fever and Agueis not slone the consequence of the miasmatic poison. A great variety of disorders arise from its irritation, among which are Neuralgia, Rheumatism, Gout, Headache, Blindness, Toothache, Barache, Catarrh, A.-h. Headache, Hysterics, Pain in the Bowels, Colie, Paralysis, and Derangement of the Stomach, all of which, when originating in this cause,

Spleen, Hysterics, Pain in the Bowels, Colic, Paralysis, and Derangement of the Stomach, all of which, when originating in this cause, put on the intermittent type, or become periodical. This "CURE" expels the poison from the blood, and consequently cures them all allike. It is an invaluable protection to immigrants and persons travelling or temporarily residing in the malarious districts. If taken occasionally or daily while expessed to the infection, that will be excreted from the system, and cannot accumulate in sufficient quantity to ripen into disease. House it is even more valuable for protection than cure, and few will ever suffer the Lapronittents, if they avail themselves of the protection this remedy affords.

Ayer's Cathartic Pills, FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and isolated and invigorate every portion of the buman organism, correcting its diseased action, and restoring its healthy vitallties. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Continuous, Indigention, Pain in and Morbid Sto... ch, Natura, Indigention, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions. They are an excellent alterative for the renovation of the blood and the restoration of tone and strength to the system debilitated by disease.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF oughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every ether medicine of its kind is too apparent to escape observation, and where its virtues are known, the public ne lessger hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are merident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afficted they can never forget, and produced cures too numerous and too remarkable to be forgotten.
