Dr. Till Has a Rival.

A dispatch to the daily papers states John Till, the plaster specialist, who has reopened his plaster shop at Almena, Barron county, has a rival. Octave Cloutier, Till's former manager at Somerset, at his farm retreat is putting on plasters, the genuine Till article, so he claims. But Till does not care. From Almena come reports that Till is rushed away beyond the capacity of himself and assistants and that his books show 160 applicants for treatment daily.

Life as We See It.

"A Dangerous Friend" is a remarkable drama of every-day events and is further remarkable for the fact that it is excellently handled by a splendid cast. Life as we see it about us every day, as we read it in the newspapers, as we meet it in our homes, is presented in a most fascinating style, it brings forward the same questions and is on the same plan as "Paid in Full," "The Servant in the House," and the "Witching Hour," and both author and actors deserve the good things which the theater goers are saying about them. "A Dangerous Friend" will appear at Royal hall Wednesday evening, Oct. 21.

Watch Repairing

More good watches are ruined in the hands of inexperienced workmen than in any other way. A watch is too costly an article to entrust to any one who may claim the title of watchmaker. During our many years in business we have always given the

closest attention to the careful, thorough repairing of watches brought to us. Our charges are never excessive, only sufficient to cover the cost of thorough work. We neither do unnecessary work nor charge for work we do not do. Don't wait until your watch refuses to run before having it cleaned and freshly oiled.

Two Men Drop 4,000 Feet.
The International balloon race, which started Sunday near Berlin, from the suburb of Schmargendorf, was the occasion of a thrilling accident, two aeronauts from the United States having a miraculous escape from death. The balloon Conqueror, the only United States-built craft in the contest, having on board A. Holland Forbes, and Augustus Post, less than two minutes after the start, burst at an altitude of 4,000 feet. For 2,000 feet it shot down like a bullet and then the torn silk bag assumed the shape of a parachute, thus checking the rapidity of the descent. Coming close to the earth, however, the basket smashed into the roof of a house, but the two men escaped with but slight injuries.

Famous Suit Ends Secretly.

At Mineola, N. Y., a settlement with a clause binding both sides to absolute secrecy as to its terms ended the famous \$2,000,000 suit of Daniel Leroy Dresser against the Mercantile Trust company of New York, and a number of bankers as co-defendants for losses claimed to have been sustained in purchasing and underwriting through their alleged instrumentality stock of the United States Shipbuilding company. The suit has been pending for five years.
