## THE OLD OAKEN BUCKET.

Disease May Lurk In the Draft With Which  
It Refreshes.

Let us now examine into some of the  
conditions surrounding domestic wells  
and springs in the larger towns and vil-  
lages, conditions which also prevail some-  
times even about rural homes. We shall  
then be better able to understand how a  
well, like a Nevada silver mine, may have  
"millions in it," and how "the old oaken  
bucket" may bring from the depths ele-  
ments of disease with the same draft that  
refreshes the thirsty throat. For conven-  
ience a well is situated in the back yard,  
perhaps a rod away from the house, or it  
may even be nearer. Certain other things,  
also for convenience's sake, are grouped  
close about the back door. Here is a cess-  
pool but a short distance, perhaps only a  
few feet, from the well. There is a vault,  
a filthy institution, which is an open dis-  
grace to civilization. A little farther away  
is the garbage heap. In other adjacent  
localities are the chicken coop, the pigpen  
and the stable, with their accumulations  
of decomposing filth. It may be that in a  
corner a dead animal has been buried to  
save the trouble of conveying it to a dis-  
tance. A damp and reeking spot near  
the back door marks the place where the  
slops have been deposited since the drain  
to the cesspool became stopped up with  
the accumulated refuse of half a dozen  
years.

Every one of the sources of contamination  
mentioned is a contributor to the well.  
A part of the putrid material floats  
upon the ground and is disposed of by  
evaporation, but the greater portion of it  
soaks into the ground. It is a common  
error to suppose that whatever has dis-  
appeared into the ground is destroyed. The  
filth which has disappeared from the sur-  
face may be out of sight, but it is not out  
of existence. If the soil is filled with refuse  
of various kinds, the well will be con-  
taminated. Every rain washes the filth a lit-  
tle deeper down until it reaches the well  
proper or one of the underground veins of  
water by which it is fed. It may not be  
generally known that a well will draw  
water a distance of 60 feet.—Arens.

## CHECKS ON BUSINESS.

Delay by Congress and the Coal  
Miners' Strike.

OUTLOOK, HOWEVER, VERY BRIGHT

There is More Demand Now Visible for  
Nearly All Products—Coal Dispute Will  
Easily Be Settled by a General Revival  
of Industrial Activity—Speculation in  
the Wool Market Continues—Advance  
in the Price of Wheat.

New York, July 19.—R. G. Dun &  
Co.'s Weekly Review of Trade says:  
Excepting the great coal miners' strike,  
which may terminate at any time, there  
is scarcely a feature of the business  
outlook which is not encouraging. The  
season considered. Crop prospects have  
been improved by needed rain in some  
regions, and foreign advices continue  
to promise a large demand. In many  
home industries, particularly in build-  
ing, there is more activity than in any  
year since 1892, and the week has  
brought a better demand in boots and  
shoes and in woollens, while the move-  
ment of freight, mainly iron ore, through  
the Sault Ste. Marie canal is the large-  
est in its history. With money markets  
unclouded, there is nothing in sight to  
hinder rapid improvement when uncer-  
tainty about legislation has been re-  
moved, for the miners' strike could not  
last long if business and industries  
should become active.

Coal from West Virginia.

There is much less apprehension of a  
failure of fuel supply than there was  
during the first few days, when prices  
rapidly advanced, and large quantities  
of coal from West Virginia have reached  
northern markets, but some of the min-  
ers in that state have struck. The ad-  
vance in wheat to 8 1/4 cents was not  
due to the government estimate, which  
was followed by a decline, but to for-  
eign advices and considerable buying  
for export. Demand is already felt from  
Australia, South Africa, Brazil and  
even Argentina, while the promise for  
European crops is not considered bright.  
The disposition of farmers to keep back  
wheat for higher prices may affect the  
outward movement, but Atlantic ex-  
ports during July, flour included, have  
been 3,115,443 bushels, against 2,953,817  
last year, although in the same weeks  
4,659,315 bushels of corn went out,  
against 1,574,072 last year. Wheat closed  
4 cents higher for the week, and corn  
1/2 cent higher.

Cotton a Little Higher.

Cotton is a sixteenth higher, the clos-  
ing or partial stoppage of important  
New England mills hardly neutralizing  
in market estimation the apprehensions  
of injury from drought. The cotton  
goods market does not yet reduce large  
accumulated stocks, as the curtailment  
of production shows, but is growing a  
little more healthy without change in  
prices. Woollens for the coming season  
have not been generally shown, though  
on some low-priced goods advances of  
7 1/2 cents are asked, and presumably  
will be asked on better grades. There  
is rather more business in reorders, and  
the tone is more confident. Speculation  
in the wool market continues with prices  
at all points stronger, at Boston ad-  
vancing with signs of a boom among  
dealers, in which manufacturers are  
taking little part in current prices, and  
at the west, where holders are looking  
for a great advance. Imports at Bos-  
ton were 28,862 bales in two weeks, and  
dealers are said to have bought 100,000  
bales more in London. Sales were 10,  
452,300 pounds at the three markets for  
the week, and 24,572,800 in two weeks,  
of which 12,607,200 were domestic.

State of the Iron Trade.

The output of iron furnaces July 1  
was 164,064 tons weekly, against 168,380  
June 1, but several furnaces have gone  
into blast since July 1, and the output  
is large for the season. Presumably an  
unprecedented share of it is to supply  
the great steel companies, which are  
even now putting more furnaces into  
blast, and have heavy orders taken  
when prices were dropped, while the  
demand for structural shapes and  
plates is large, and for bars improving,  
though steel bars are now at the low-  
est quotation ever known in Pittsburgh,  
87 1/2 to 90 cents, with Bessemer pig quot-  
ed slightly lower. Tin plates are also  
lower at \$3.10 for full weight, and less  
than \$3 is paid for 100-pound boxes.  
Failures for the week have been 263 in  
the United States, against 269 last year,  
and twenty-seven in Canada, against  
thirty-nine last year.

Looks Like He Was Drowned.

Lake Geneva, Wis., July 19.—Edwin  
C. Waldo, former secretary of the Cen-  
tral Relief Association of Chicago, and  
later attached to the University set-  
tlement in Forsythe street, New York  
city, has disappeared. He was the  
guest of C. C. Boyle of Chicago at his  
summer residence here. He went out  
rowing and later the empty boat con-  
taining his coat was found. He was  
well connected.

Smuggled Jewelry Seized.

New York, July 19.—Custom detec-  
tives made a haul of smuggled jewels  
on the steamer Fuerst Bismarck at Ho-  
boken, N. J., Friday. They found in  
the pockets of a sailor passenger, Jo-  
seph Ehrenberger of Chicago, a diamond  
brooch, a pair of diamond earrings, a  
diamond necklace, and two diamond  
scarfpins. The jewelry was seized, but  
no arrests were made.

Muslims Admonished.

Canea, Island of Crete, July 19.—In  
consequence of the increasing turbu-  
lence of the Muslims and the almost  
incessant outbreaks and disorders,  
the admirals of the international fleet  
have issued a proclamation admonish-  
ing the Muslims and announcing  
that if a single European soldier is  
harmful they will bombard the town.

Dastard Jealousy Once More.

Chicago, July 19.—Frank W. Phelan  
became jealous and fatally shot Kitt  
Wadsworth Friday night and then killed  
himself. Phelan was prominent in the  
railway strike of 1894, and was sent to  
jail for contempt with other American  
Railway union officials.

Weyer Suggests Some Pardons.

Havana, July 19.—Acting upon the  
suggestion of Captain General Weyer,  
the queen regent has granted pardons  
to the insurgent chiefs Rogelio, Cam-  
acho, Domingo, Gonzales, Castillo, Guil-  
lermo, Puente and Rivero, who were un-  
der sentence of death.

## THE NEWS IN BRIEF.

Edward Harvey, a boy at Evansville,  
Ind., was shot accidentally by Otto Is-  
mus and fatally wounded.

A strange defense has been offered in  
England by a captain who ran an ex-  
cursion steamer, as it seemed, delib-  
erately on the rocks near Scarborough.  
The passengers thought he was drunk,  
but he wants to be let off because he  
was under the influence of opium taken  
to relieve pain.

Mrs. S. Morrison of Arcola, Ill., was  
attacked by a ferocious bull and badly  
injured. She is in a serious condition.

The queen, it is calculated, has now  
spent more time in Scotland than many  
kings and queens who ruled Scotland  
alone. In fact, her majesty's spring  
and autumn sojourns in the Highlands  
since 1842 make an aggregate of about  
eighteen years.

Mrs. Isaac Richards, wife of one of  
the wealthiest farmers in LaGrange,  
Ind., committed suicide by hanging her-  
self in the orchard.

A knight was recently given to  
Mr. R. Guinness, the acting manager  
of Guinness & Co. His brewery firm  
had already received two peerages and  
the ribbon of St. Patrick. Mr. R. Guin-  
ness is a cousin of Lord Iveagh and the  
brother of Lady Iveagh.

David Myers of Eldora, Ia., a veteran,  
is missing. He drew \$135 pension money  
at New Providence last Friday.

John D. Rockefeller has notified the  
Des Moines, Ia., Baptist college that he  
will give \$2 for every \$1 the college will  
raise from other sources.

Frederick Hong of Reading, Mich.,  
shot himself through the heart because  
of disappointment in love.

A Vermont family that started out  
to name the children to commemorate their  
birthday has one, born on the 4th of  
July, christened Freedom; and another,  
identified with the great storm nine  
years ago, is called Blizzard.

SAGINAW PEOPLE WALKING.

The Street Railway System Completely  
Tied Up.

Saginaw, Mich., July 19.—The city's  
street railway system is completely tied  
up as a result of a several months' fight  
between the city and the Union Street  
Railway company, which culmi-  
nated recently in a decision by the su-  
preme court sustaining the right of the  
city to take any measures to compel the  
railway company to settle certain special  
improvement taxes. Following this  
the common council declared the com-  
pany's franchise forfeited. Action like  
that was not expected, however, until  
next week.

During Friday night the police placed  
a big steam roller across the car tracks  
leading to the main lines and are guard-  
ing the machine against any molesta-  
tion. The bondholders and stockholders  
of the company have vainly tried to  
agree on a basis of settlement of the  
trouble, the bone of contention being a  
debt of \$45,000, which the bondholders  
were unwilling to assume.

Passed Counterfeit Money.

Marquette, Wis., July 19.—The police  
Friday arrested three men charged with  
passing counterfeit money. Two of  
them are Erik Lundgren and James  
Christianson of this city and the other  
John St. Clair of DePere. The latter, it  
is alleged, furnished the money, which  
was bogus silver dollars. Many of them  
were passed upon the business men of  
the city. They are nicely made and can  
be told from the genuine only by the  
ring.

Always Finds the British There.

Paris, July 19.—The Figaro publishes  
a proclamation alleged to have been  
issued by the chiefs of the Tanala tribe  
of Madagascar inciting their followers  
to massacre all the Europeans in the  
island with the exception of the English.  
Commenting upon the activity of the  
English in the island The Figaro says:  
"Wherever the natives revolt against us  
we find them in alliance with the British."
