

Among the Students.

Happenings at the Calumet Public High School.

The Woodmen Will Banquet

Soon to Commemorate the Adding of 100 New Members to the Roll—Juvenile Offenders.

Our foot ball boys are in great demand and if they played with every team that has challenged them they would be kept busy until Christmas. They have won two games this season and are rapidly improving. They have nearly reached the top of the foot ball ladder of fame, but still have the Ishpeming team to defeat and then they will have nearly accomplished their task.

Examinations are being conducted this week and students as well as teachers are deeply interested therein.

The freshmen want something nice about themselves in the notes this week, so we will say that they are learning fast and growing in all respects; they also said their grammars were not at all dusty, for they cleaned their libraries once in a while.

The seniors are preparing essays for rhetorical work and many of them look happy again, this must be because they have completed their essays. These are not the graduation essays, but they are helps, so that the seniors will be able to accomplish that monstrous task when June arrives.

The regular meetings of the literary society are to be held every Friday. The chairman of the last meeting has appointed a committee to get the matter in readiness. It is the aim of this society to give more knowledge of the great minds of the ages to high school students and also to prepare some person for the oratorical contest to be given in the near future. The school will derive many benefits from the society as in it is included every thing that will be interesting and beneficial.

The stenography class expect their typewriter soon and are anxiously awaiting the time when they will be able to take up this branch of their course.

The geometry class has finished Book 1 and has adopted a new method of rectifying Book 2.

The drawing students are anxiously waiting for their drawing tools to arrive. They have been expected for two months and it is the opinion of the drawing people that the ship carrying this precious cargo to the Calumet students has either been sunk, dashed to pieces on the rocky shores of rugged Lake Superior or burned.

For Beer Drinkers.

Mr. Charles Klein of Laurium, is the agent of the Upper Peninsula for the liquid carbonic acid gas beer pump. This is something new and a decided improvement, which will, no doubt, be appreciated by those who use the beverage.

To those who want to drink fresh and pure beer the accompanying illustration shows an apparatus in use at the following places in this vicinity:

J. F. Schoeder, Joseph Wilmer, J. R. O'Neil, Paul Kratt, Merz & Moir, Boyer & Boyer, William Planiff, Frank Distel, Z. Ethier, Matt Housen, Frank Kopp, Dittler Bros., Joseph Stephanic and Joseph Trudell. It is called a liquid carbonic acid drum and it is used to keep the beer in its original condition.

By its use the beer is kept charged with carbonic acid gas until the last drop is taken from the barrel. When the beer is barrelled in the brewery it is charged with the gas, but as soon as the keg is tapped the gas begins to escape and the beer soon becomes flat and insipid. This gas is gathered from the fermenting tubs in large breweries and compressed into cylinders or drums under an immense pressure. These cylinders are shown in the illustration. This gas is the natural gas from the earth and is just what the beer requires to keep it good. In the ordinary way of keeping beer with the air or water pump on pressure of air is kept on it by pumping air in the keg. This air is usually drawn from near the saloon floor or cellar and of course is rather foul and when under pressure of foul air is kept on the beer all the time it gives it a bad taste. With the carbonator machine attached to the kegs nothing but pure malt gas goes into the beer and the beer is always fresh and keeps its natural taste which it should have when first made.

Orders can be given Mr. Klein or telephoned to his son factory in Laurium and will receive prompt attention.

For a Big Banquet.

The Modern Woodmen are making preparations for a big banquet to be given in honor of the fact that the membership of Seneca Camp of this city has been so largely increased of late by the efforts of

Deputy Harry Whitnall and the work of most of the members of the local organization. The banquet will take place at the Italian Hall and will be given under the auspices of Seneca Camp and will be participated in by the members of the different Camps at Hancock, Houghton, Lake Linden, Dollar Bay and South Lake Linden, whom, it is expected, will turn out in large numbers to the event. Preparations are being made and arrangements completed with the railroad company for a special train to be run for the accommodation of the members from other parts of the county.

At the meeting to take place previous to the banquet nearly 100 new members are expected to join the local Camp through the work of Mr. Whitnall.

An elaborate program is being prepared for the occasion and will include speeches by some of the best-known local citizens who have recently become affiliated with the Woodmen. Some of the prominent State officials of the order are also expected to be on hand. State Deputy Burns, of Ishpeming, is expected to be here for the occasion. The program will also include musical and literary numbers by some of the best local talent and some of the out-of-town members will also be asked to take part in the doings.

It was at first intended to have the banquet next Thursday evening, but later Tuesday was decided upon as more available for it. Messrs. George Berryman and Ed Kruka visited the different Camps of the county Thursday and they promised to turn out in goodly numbers to the banquet.

More Juvenile Cases.

Calumet youngsters seem to have a faculty for getting into scrapes of some kind or other and every other day there are a number of cases of this kind reported. The latest is one at the schoolhouse. It seems that the members of the foot ball team who changed their clothing in one of the cloakrooms at the central building when they went to practice had noticed the unaccountable disappearance of any loose change that happened to be in the clothing which they had left in the cloakroom.

This thing had been going on for two or three weeks until the boys began to think that someone was in the habit of going through their clothing, and yesterday afternoon they set one of the boys on guard. He did not have to wait long when he saw two youngsters run quietly into the room and close the door. After a little they came out and left the building in a hurry. The boys were chased and caught. In their pockets were found considerable small change and numerous pocket knives and other such things which the boys had from time to time misused. They had also left a marked quarter of a dollar in the trousers pocket of one of the boys and this was also found.

The boys were both very small fellows and brothers. Their case was reported to the superintendent and they will probably be turned over to the county agent. It seems that their stealings, although they had not amounted to a great deal, had been going on for some time and they had been kept in spending-money at the expense of the high school foot ball team.

Got \$10 Damages

The trial of Mrs. Casson in the suit for damages commenced by Anna Postelitz, who wanted \$125 for injury done her by the former when she was assaulted in front of St. Joseph's church three weeks ago tomorrow, came off in Justice Fisher's court yesterday afternoon. It took the greater part of the day to get through the trial and a large number of interested spectators were on hand. Attorney McDonald appeared for Anna Postelitz and Attorney Larson for Mrs. Casson. Some time was occupied in securing a jury.

After all the testimony had been taken and the arguments made on both sides the jury was out a short time when they returned a verdict awarding \$10 damages to the plaintiff in the case. As Mrs. Casson is without funds it will be practically impossible to even collect the small amount of damages allowed by the jury.

Tamarack Jottings

Mat Corie was discharged from the Tamarack hospital yesterday where he had been laid up for some time suffering from an attack of appendicitis. There have been half a dozen patients at the hospital within the past few months suffering from appendicitis but in very few cases has it been found necessary to perform a surgical operation.

Work on the large addition which is being built to the blacksmith shop at the mine is progressing very favorably and a few more weeks will see the work all completed and the new shop ready for occupancy. The addition is 60x4 and gives considerable more room for the workmen who have been rather crowded of late.

Lost—A black and white cow without any horns about a week ago. Information of its whereabouts will be thankfully received by Mr. B. Quello. He will reward the person who brings the cow back.

Our crockery is breakable as well as others, but the cheaper you get it the less you worry when it does break. Buy it from us and save worrying.

A CARD.

From Dr. Ira C. Williams to the Citizens of Houghton County.

To the Editor:—It gives me pleasure to announce to your readers that I have taken up my permanent residence in Calumet, and have assumed charge of the British Medical Institute, have recently been promoted to the position of chief consulting physician of that institution.

In thus announcing myself I think it is due to the public to state who and what I am. I was born in the city of Prattburg, New York, in the year 1851, hence am 46 years old. I was educated at the Corning (New York) Free Academy, took a two year course in the University of Michigan, and graduated in 1873 from the Long Island College Hospital, of Brooklyn, New York, taking from it my degree of M. D. I was for several years a member of the Michigan State Medical Society, and at present a member of the Cheboygan County Medical Society, also an honorary member of the Jackson Academy of Medicine.

If this record, which is clear and untarnished, commends me to the confidence and patronage of the citizens of Houghton county, I will feel more than repaid for this breach of the so-called medical ethics.

Having had over twenty-four years of experience in the active practice of my profession, and having devoted nearly all of that period to the study and treatment of all Chronic, Nervous, Special, and Sexual Diseases, I feel fully competent to treat successfully all cases entrusted to my care.

Invalids who suffer from Catarrh or Catarrhal-deafness, male or female weakness, rupture or any diseases of the rectum, I can assure of a speedy and painless cure. I might with truth say that the diseases peculiar to men and women I have made the study of my life. Young men, the victims of their own follies, will, I hope, find me their friend and benefactor; and women bowed down with pains and weaknesses, from maladies peculiar to their sex, I especially invite to call upon me; my facilities for the successful treatment of their cases are, I believe, second to none.

My office is in the Agnitz block, 430 Fifth street, Calumet, where I can be found every week day from 9 a. m. till 8 p. m. and on Sundays from 10 till 2.

Yours respectfully,

IRA C. WILLIAMS, M. D.

Charles Ojala has opened a great sale in winter, hand and foot wear. He sells also whole lined German socks at 90 cents per pair. 447 Pine Street.

Our lodge room can be rented for meetings on Saturday evenings.

RYBERT OLSON.

To Let—Furnished room. Apply to Mrs. M. Charles, over 454 Front street.

For Sale—Two fresh milk cows. Apply to George Jacka.

TO HAVE OR NOT TO HAVE

That is the Question

Now agitating the minds of both big and little folks. Chilly winter winds must be counteracted by heavier clothing must be bought to do it, time is being put off the Children's cloak purchases, every day's delay carries with it a risk of health. Warm underwear and dress goods, they too, deserve more of a lingering thought. The buyers of this store are students of the questions--to have or not to have--what it will be.
