HANCOCK CITY HALL TO BE DECORATED FOR HOME COMING

COUNCIL DECIDES TO GIVE JOB OF DECORATING TO EXPERTS.

No Concessions For Fakirs of Others West of the Crossing.

The Hancock city hall is to be one of the most elaborately decorated buildings in Hancock during the homecoming, the city fathers in special adjourned session last evening deciding that it should be done in a manner that would set an example in the way of decorating that others might emulate, and consequently the job will be turned over to one of the expert decorators now in the city. Several buildings have already been decorated and the decorations are something new locally where the exterior decoration of business places has usually been limited to a few streamers of bunting and cheap flags. The Northwestern Hotel, the Bram drug store, Northy building, Ehlers, Callahans and the Portage Coal and Dock company's office are among those that are making a good showing and when all the buildings on Quincy street are similarly decorated it will present a scene of beauty and color never before seen in Hancock. The city by giving the job of decorating the city hall to one of the experts

will be something that will be well worth while. The matters of illuminating the hall during the week was left to the city hall committee.

A motion was adopted last evening by which it was decided that no concessions of any kind are to be granted, either to outsiders or to home people, in the district west of the railroad crossing on Quincy street. This action is taken for the purpose of preventing anyone from trespassing upon the privileges of the homecoming committee.

City Clerk Macdonald was authorized to instruct property owners on Quincy street, Hancock street and Railroad avenue to repair defective sidewalks.

Health Officer Arminen reported that several persons who had been ordered to make sewer connections had failed to comply. The matter was referred to the health committee with power to act.

Alderman Hosking offered a suggestion that the pipe to be used on Poplar street for water mains should be four instead of two inches in diameter. No action was taken.

A letter was read by C. F. Rogers from a woodworker's concern which desires a site and a bonus for establishing a factory. This, too, was passed up without the council taking any action.

The liquor bond applications receiving favorable action, the applicants be-

AVIATOR CHARLES MOROK, ARRIVES HERE WITH MACHINE

VISITORS ARRIVING DAILY FOR HOME-COMING CELEBRATION.

Decoration of City in Progress on Most Elaborate Scale.

Charles Morok, the aviator, who is to give daily flights at the city park during the homecoming celebration next week, arrived in the city last evening accompanied by his mechanic and bringing with him the biplane in which the flights will be made. Mr. Morok says that his machine is of the Farman type, and that there will be no difficulty in giving the exhibitions unless the wind should be blowing too hard. "It's just as easy to manipulate an aeroplane," said Mr. Morok this morning, "as it is to run a motor car, and a man who this season may be a chauffeur on a taxicab may next year

ing Edmund Gagnon and Joel Mattson.

Mayor Dodge last evening reported that he had received a communication from the Mineral Range officials in regard to the matter of the city securing a strip of land along the right of way on Railroad avenue for street purposes, the railroad company proposing to exchange land on the north side of the right of way for a corresponding strip on the south side, foot for foot. The matter will be given further consideration at the regular meeting of the council next Wednesday evening.

Work at the park is being rushed by Manager Quinn and his assistants, and the flag poles, streamers and other decorations are being put in place, the park being at present the busiest place in the city.

be making records in aeroplane flights. In some respects the steering of an aeroplane is less difficult than navigating a motor car through a city street as there is no likelihood of anyone getting in the way and no sharp turns to negotiate.

Mr. Morok went to the exhibition grounds this morning to put his machine together and expects this evening to make a trial flight.

The decorating of the city is now under full swing, a number of business places having already been decorated in ornamental and attractive designs by one of the firms of decorators now in the city. The decorations are different from any ever attempted in Hancock before, being similar to those seen in large cities at big celebrations, the entire fronts being covered with flags and bunting from cornice to foundations. The Northwestern hotel, Callahans, Ehlers, Nichols, Clabatt's, the Scott laundry, the Northy block and others have already been decorated and the beautiful effect produced will result in similar work being done on practically every business house in town.

The Houghton County Electric Light company is going to erect a big searchlight on Quincy street, which will serve to illuminate the decorations at night and afford illumination for some of the parades which may take place at night. The light will be placed on a pivot, revolving so as to be reflected in every direction.

Work at the park is being rushed by Manager Quinn and his assistants, and the flag poles, streamers and other decorations are being put in place, the park being at present the busiest place in the city.

DANGER TO CHILDREN IN STEALING RIDES ON CARS

TRACTION OFFICIALS TAKING STEPS TO AVOID ACCIDENTS.

Parents Cautioned to Warn Children Against Riding on Trailers.

During the Hancock homecoming celebration next week and also at the time of the mining college reunion in August the Houghton County Traction company contemplates running a five or six minute car service, with double headers, or trailers, to accommodate the immense passenger traffic that is expected.

In connection with this arrangement, Frank O. Mayotte, claim agent of the traction company, calls attention to the danger resulting from children stealing rides on these trailers, as illustrated a few days ago by the horrible accident which befell an Escanaba boy through falling between the two cars and the second car running over his body, killing him.

It is impossible, Mr. Mayotte stated, for the conductor to watch both the cars while he is in one of them collecting fares, and it is therefore urged upon the parents or guardians of children and the public at large to be careful about allowing youngsters to jump on and off the cars to steal rides while the conductor is so engaged that he cannot watch them.

SITE FOR SHRINERS.

Invitation Sent to Rochester Meeting by Greater Hancock Club.

The Nobles of the Mystic Shrine, in convention at Rochester, N. Y. were wired an invitation yesterday by the Greater Hancock Club, to select this city as the site for the establishment of the proposed Shriners' Mecca, suggested by Imperial Potentate Hines. Mr. Hines in an address to the convention on Tuesday, recommended that a tract of 5,000 acres be obtained on either Lake Superior or Green Bay, and there be erected a club house, drill hall, ball room, hotel and summer cottages for the Shriners, instead of depending upon various cities for hospitality on the occasion of holding conventions.

CHARGED WITH OBTAINING HIS ELECTRIC LIGHT FREE

JOHN PERONI ARRESTED ON COMPLAINT OF COMPANY.

Two Dodgeville Men Fined for Assault and Battery by Judge Little Today.

John Peroni of Hancock, who runs a saloon near the car barns in west Hancock, was arrested last night on a warrant issued on complaint of the Houghton County Traction Light company, charging him with attaching a wire to the main wire of the company and thereby obtaining current for electric lighting without paying for it. That this had been going on for some time had been suspected by the Electric Light company, and last night two officers went to Peroni's place and found the lights burning, without being attached to a meter. This morning when arraigned before Justice Little in Houghton, Peroni pleaded not guilty and demanded an examination, which was set for 8 o'clock tomorrow morning.

Dodgeville Men Arrested.

Two Dodgeville men were arrested last night by Officer James Maher, charged with assault and battery on complaint of Peter Jockovac of the Superior Mine. The two men were Louis Milanovich and Rudolf Kosanovich, the latter of whom it was shown had been the principal offender, having had a fabled grievance against Jockovac, and inducing Milanovich to join with him in an attempt to get even. The two men laid for Jockovac and pelted him with rocks, one of which inflicted a severe injury to Jockovac's back. Milanovich was fined ten dollars and costs which he paid, and Kosanovich was assessed \$25 and costs or 90 days in jail as an alternative. He was sent to jail until the money for the fine and costs is forthcoming.

NO ACTION TAKEN.

No action was taken by the Portage Lake Business Men's Association upon the request of the executive committee of the homecoming celebration that Wednesday next, July 15, be observed as a general holiday. The request was submitted to the association by the secretary but as there was a small attendance of members it was decided to lay it on the table.
