### STILL ANOTHER 1913 CONVENTION

ANNUAL RE-UNION OF ITALIAN  
FEDERATED SOCIETIES MAY  
BE HELD HERE NEXT  
SUMMER.

Hancock as a city will be ten years old next year, and while it is not expected that any special celebration or observance will mark the anniversary of its incorporation, it is likely that the summer of 1912 will be notable for the gathering here of at least three big state conventions. Already announcement has been made of the efforts to be made by the Eagles and of the German Aid societies to bring the state meetings of those organizations here next year, and today it was announced that the Italian Citizens' League will endeavor to have the delegates at this year's reunion select Hancock as the place for the gathering in 1913.

At a recent meeting of the Hancock Italian Citizens' League, No. 2, Bert Milano and Natali Pucci were elected as delegates to attend the annual convention and reunion at Iron Mountain on July 26 and 27, and were instructed to use every effort to have Hancock selected for the gathering a year from now. Guarantees will be given of the strongest financial backing for the movement and the prospects are excellent for having the delegates in attendance at Iron Mountain vote in favor of the claims of Hancock. The convention is one well worth going after, there being forty-eight societies affiliated with the federation, and many of these are unformed organizations they make an imposing showing on parade, and with their families and friends bring many visitors to witness the features of the reunion. The annual convention of the Italian Federated societies was held in Hancock two years ago, on August 27. It was one of the biggest re-unions ever held in the city, and was further marked by the attendance of Senator Townsend, Congressman Young, and a large number of county officers who made addresses at the picnic held at the Hancock grove. So well was the affair handled and with such a successful outcome that in spite of the fact that Hancock has so recently entertained the convention it is not anticipated that this will prove any obstacle in the way of getting it again for next year, but on the contrary it is thought the remembrance of the splendid gathering held two years ago will be an incentive to have it held here again.

#### SPECIAL CAR FOR DEMOS.

Arrangements have been made for a special car to be attached to the South Shore train leaving the copper country Monday evening for the convenience of the delegates recently named to represent this county at the state Democratic convention. The party will also include delegates from Baraga and Keweenaw counties. The copper country delegates are all pledged to support Wilson for the presidential nomination and an interesting fight is expected as the Wilson, Clark and Harmon forces are believed to be about evenly divided.

#### REVIVAL CONTINUES.

The revival services at the Methodist church are continuing this week, and are attracting larger congregations than during the first week of the meetings. Rev. A. B. Davidson of Louisville, Kentucky, evangelist who is conducting the services, is an eloquent and forceful pulpit speaker and his addresses and exhortations are showing good results.

### WELL-KNOWN LAWYER CURED OF ECZEMA

By Cuticura Remedies Which He Recommends for Skin Troubles.

"While attending school at Lebanon, Ohio, in 1882, there was a small-pox scare, and we were all vaccinated. Presumably from impure virus used, I became afflicted with boils, which lasted for about two years, when the affliction assumed the form of eczema on my face, the lower part of my face being inflamed most of the time. There would be water-blisters rise up, and open, and wherever the water would touch it would burn, and cause another one to rise. After the blisters would open, the place would scab over, and would burn and itch so as to be almost unbearable at times. In this way the sores would spread from one place to another, back and forth over the whole of my upper lip and chin, and at times the whole lower part of my face would be a solid sore. This condition continued for four or five years, without getting any better, and in fact got worse all the time, so much so that my wife became alarmed lest it prove fatal."

"During all this time of boils and eczema, I doctored with the best physicians of that part of the country, but to no avail. Finally I decided to try Cuticura Remedies, which I did, taking the Cuticura Resolvent internally, applying the Cuticura Ointment to the sores, and using the Cuticura Soap for washing. In a very short time I began to notice improvements, and continued to use the Cuticura Remedies until within less than a year I was well again, and have not had a recurrence of the trouble since, which is over twenty years. I have recommended Cuticura Remedies to others ever since, and have great faith in them as remedies for skin diseases." (Signed) A. C. Brandon, Attorney-at-Law, Greenville, O., Jan. 17, 1911.

Sold throughout the world. Send to Potter D. & C. Corp., Dept. 3A, Boston, for free sample of Cuticura Soap and Ointment.

#### "ALMA" AGAIN TONIGHT.

French Comedy Will Be Given A Second Local Presentation.

The French comedy "Alma, Where Do You Live?" which was presented at the Kerredge theater last evening, will be given another presentation here this evening, the opportunity to witness it a second time being afforded through the cancellation of an original engagement for this date. The play is very funny, and the characterization of the several roles by the members of the cast was clever and artistic, especially those of Alma, played by Miss Nanette Mack, who has a pleasing personality and voice; Charles A. Murray, Miss Rae Hamilton and Aubrey Yates and the other parts were in good hands. The scenic settings were admirable and the musical numbers were catchy and tuneful. The version given last night was that of George V. Hobart, adapted from the German version, and it was well received by the audience.

#### NAVAL RESERVES BUSY.

Painting Ship and Getting Ready for  
Summers' Drills and Cruises.

The crew of the Yantic is engaged in painting the hull of the boat, having completed the painting of the decks and spars and the small boats and from now on the training ship of the Naval Reserves will be the scene of continual activity.

It is probable that on Sunday next if the weather permits the sailors of the two local divisions will go to the canal in the whaleboats of the Yantic, towed by the steam cutter for a day's practice on the shores of Lake Superior.

Both of the divisions are working hard to secure new members, and by the time for the first cruise of the summer, probably on July 4, the ranks of both are expected to be filled. The new division is making good progress in its drills, being aided to a large extent by having a number of the members of the first division, whose experience is valuable to the newer recruits. The club rooms in the Germania hall are attractively fitted up and with the drills, and experience given to the members, the annual cruise, and the social and club privileges that the members enjoy membership in the reserves is made attractive to young men generally and should result in many applications for membership.

#### COLLEGE CLOSES MAY 30.

Seminary and Commercial Branches.

The committee which is to arrange the program will meet in a few days to decide the features of the commencement program.

The five who will graduate in the Academic department are Anti Immonen, Worcester, Mass; Uho Kustaa Janssberg, Hancock; Svante Luoma, Pittsburgh, Mass; Eli Merijarvi, Hancock.

The Hancock Finnish college seminary department is the only school in the United States training students for service in the ministry of the Finnish Lutheran church, and the six who will graduate this year are: Taavetti Elm, New York; Otto Karro, Hancock; Matti Kortemaki, Fairport, Ohio; Victor Kuusisto, Monessen, Pa; Antti Kononen, Hancock, and Samanen Taavetti, Hancock.

#### BOATING SEASON BEGINS.

Next Sunday Will Be Banner Day for  
the Motor Boat Owners.

If the weather continues fair, Sunday next will see many motor boats chugging on Portage Lake, and the day will mark the beginning of the active boating season, which has been delayed by the backward weather. Boat owners have been busy for a month past getting their craft in shape, tinkering the engines, cleaning up generally and painting where necessary, so that practically all the boats are in readiness to take advantage of the first favorable weather for trips to the canal or the entry.

A number of new boats will be seen on the lake this summer, among them being a twenty-one foot autocraft with a four horse power Ferro engine for Aho & Merila, the West Hancock grocers.

Emil Tolonen has ordered a new eleven horse power Ferro from Ed Pinton for his boat and other boats will have more powerful engines installed in place of smaller ones.

Rev. Fr. Glaser will have a motor boat this season and is erecting a boat house in West Hancock on the lake front to shelter it.

#### PROF. FRIDAY'S LECTURE.

Superintendent La Rowe of the Hancock schools has mailed to residents of Hancock invitations to attend the lecture to be given at the high school assembly hall this evening by Prof. David Friday of the University of Michigan, who will give an address on "Tax Reforms in Michigan." #### PAVING CONTRACTOR HERE.

D. C. Tabor Will Resume Work As  
Soon as the Weather Permits.

D. C. Tabor of Muskegon, the paving contractor who had charge of the work on Calumet street last summer and who has spent the winter and early spring in the east, arrived in Lake Linden this morning and will immediately begin preparations for the resumption of work as soon as the weather permits.

There is sufficient equipment on the grounds for the completion of the work. The large tank brought here last summer for heating the asphalt is still in the grounds and ready to go into commission at any time. Owing to the winter's accumulation of dirt on the street, it will be necessary to clean this off before the second layer of rock can be placed on the concrete.

Good speakers will be secured and a program of sports and other features will be arranged.

### Safety of the Seas a Question For The Hague Tribunal

By CHARLES VON HELMOTH, German Steamship Official

WITH the laws of every nation at variance regarding the safety of passengers on board steamships I believe the proper solution is to HAVE THE HAGUE TRIBUNAL TAKE UP THE MATTER and adopt such joint regulations as would insure as nearly absolute safety as is possible and under which all steamship companies of every nation would be compelled to operate.

It is a matter which demands INTERNATIONAL AGREEMENT, as most steamship companies must conform with maritime laws of several countries.

CERTAINLY THE SAFETY OF HUMAN LIFE IS VASTLY OF MORE IMPORTANCE THAN THE SETTLEMENT OF SEALING RIGHTS OR OF BOUNDARY DISPUTES, WHICH SUBJECTS WERE SO SKILLFULLY HANDLED AT THE DUTCH CAPITAL.

### Women Are at Fault If Home Life Isn't Ideal

By Mrs. GABRIELLE S. MULLINER, Lawyer and Suffragist

WHEN A MAN MARRIES A WOMAN HE PAYS HER THE HIGHEST COMPLIMENT IT IS IN HIS POWER TO GIVE. HE WANTS HER FOR HIS COMPANION THROUGH LIFE. SHE IS AT THAT TIME HIS IDEAL. IF THE TIME EVER COMES WHEN HE INSULTS HER SOMEHOW SHE HAS FAILED TO KEEP THAT IDEAL ALIVE.

Let us decide what an insult is. It isn't a hasty word struck off from tired nerves as a shower of sparks flies from a passing engine and goes out in smoke. The man who says these hasty words isn't speaking them consciously to his wife. He is HURLING HIS IMPATIENCE WITH THE DAY'S AFFAIRS, HIS WEARINESS AND DISCOURAGEMENT, AT THE NEAREST OBJECT. It might be his office assistant, or the subway guard, or the street car conductor. But it happens to be his wife because at the moment of the explosion she happens to be nearest. She should PARDON THIS OUTBREAK and take it at its true meaning, which is nothing.

IF A MAN IS WORTH MARRYING HE IS WORTH MUCH THOUGHT AND ATTENTION.

It pays to advertise.
