Edwin Jory and William J. Trevelyan Answer Summons

Edwin Jory, aged 54 years, a resident of Calumet for almost half a century, passed away at his home last evening after an illness of several weeks with diabetes. The deceased was well known in the copper country district and word of his demise was received with general regret.

The late Mr. Jory was a native of Cornwall, England, coming to the copper country when a young man. He was employed continuously by the C. & H. Mining company in the blacksmith department for a period of forty-one years, being one of the oldest of the company's employees. He continued at work until a few weeks ago and few of his friends were aware of the serious nature of his illness.

Besides Mrs. Jory, five children, four daughters and a son, survive. They are Mrs. Stephen J. Tobin, Mrs. Fred Richards and Mrs. Christopher Trevelyan of Calumet, Mrs. Charles Ham of Calgary, Alberta, and Edwin Jory, bookkeeper at the office of Fawcett Bros. and Guck in Laurium. He was a member of the Calumet Lodge of Odd Fellows for many years.

He then removed to the copper country, residing here in Calumet for an extended period. He was employed here as a blacksmith and was well known. Two years ago he went to Iron River. Four children survive him. Mr. Richards was a member of Calumet Lodge No. 144, I. O. O. F. and of Calumet Foremost No. 77.

DEMAND FOR LICENSES.

Deer Hunters Will Not Be Required to Secure Gun License Too.
Township Clerk George Martin is in receipt of a letter from Game Warden Oates in response to an inquiry as to whether deer hunters will find it necessary to secure both deer licenses and gun licenses, in which the game warden interprets the law to mean that deer hunters will be required to have deer licenses only. The gun license is only necessary for those who desire to hunt small game, rabbits, partridges, etc. Hunters with deer licenses only will not be permitted to shoot small game and those with gun licenses will not be permitted to kill deer unless they have deer licenses as well.

To date the township clerk, who is acting as deputy county clerk, has issued 38 deer licenses and 350 gun licenses. Mr. Martin suggests that those hunters who desire to take out deer licenses make application early, for the license cannot be issued direct by the township clerk, it necessitating from one to two days for the latter to secure the permits from the county clerk, after affidavits have been taken.

"AS YOU LIKE IT"

Its Gayety and Charm Not Revealed By Reading Last Evening

A fair sized but unenthusiastic audience listened for an hour last evening to the reading of Shakespeare's "As You Like It" by Genevieve Howard, of Boston, at the Calumet Congregational church.

Miss Howard has a good voice for such reading and some of the scenes were well interpreted. But the gayety and charm of this brightly comedy were not revealed by the selections given, nor by the manner of the reader. The atmosphere was heavy and tragic.

It is to be regretted that we cannot have our Shakespeare in dramatic form. Surely no one could get any true idea of the great dramatist from last night's performance.

EMBROIDERY "DON'TS."

Timely Hints for Readers of the News.

Those who would embroider should have several coils of various sizes in their workbags; they are useful for many purposes.

A pretty idea is to crochet with silk over several coils, attach them to baby ribbon of different lengths; stick the hooks, the scissors, the pincers and the needles in them.

Following are a few "Don'ts" which the would-be fancy worker in general may find helpful:

First—Don't forget to sit up straight; hold the work up; never bend down to it; and

Don't forget the necessity of a good light, which must fall over the left shoulder.

Don't allow light to shine in the eyes when sewing, reading or embroidery.

Don't work for hours at a time on fine embroidery; it is nerve-trying as well as nerve-draining.

Don't work roughly or try to hurry. Don't be impatient over embroidery; it never pays to be like our faithful friend, the tortoise—"Slow, but sure."

Don't use sewing needles for embroidery; let buy the proper kind, which comes in all sizes for the purposes.

Don't knit the cotton or silk; that causes lumps and makes poor, unattractive work; start and finish with a button hole stitch or two.

Don't work unless your hands are perfectly dry and clean; soiled work of any kind is an abomination, even if it will wash.
