MANY EXTRA BASE HITS.

Smaller Parks. What hig league teams can do in what hig league teams can do in white league parks has been demonstrated by the terrific shagging of the White Sox and the Giants, who have completed their tour of the United States and departed for the Orient. strated by the terrific slugging of the White Sox and the Giants, who have

States and departed for the Orient. The tourists made more home runs than the ordinary big league team loes in a whole season, in spite of the fact that they have been on the road less than 20 playing days, while the varue season is five times that long. The tourists smashed the ball over

the short field fence in the bush league towns 22 times. They have driven it to the far corners of the lots for 22 tripics. They have soaked it for one extra base hit 128 times, or an average of over four doubles for every same. Sam Crawford, of the Tigers, led in the sturging with four of the hom-

and ten of the doubles. Probably a world's record for doub es was established at Joplin, Mo. when the two teams made 17 of them, At Douglas, Ariz, they made five hor

ers and four of the triples to his credit

PREPARE NEW BIOGRAPHY.

Achievements of Late King Edward to be Chronicled.

London, Nov. 22 - Three lives King Edward VII have been published since the death of that messarch, on written by his chauffeur. They of save been interesting and goodby, bu n high circles they are considered a lealing just a little too famillarly with the "Peace Master." Not one gave serious estimate of Klaig Edwarf's chievements during his reign and t cover this deficiency King George, he son, has commissioned Lord Rosebery in conjunction with Lord Knollys, t prepare a life of Edward. The tool will not be easy. King is Iward, m like his mother, Queen Victoria, neve kept a diary, and as mest of his sur cesses as a diplomat were made conversations with the rater and foreign ministers of the countries which he dealt, there is sittle data I go on.

GIRL CLUCKS LIKE HEN WHEN ASLEEP

The case of little Anna Samaroff a the Children's hospital has haffled not oils the nurse, but physicians who attend that institution. In the day time Anna is just as halo and hearty as car e, led before she has been asleep five finates she is clucking like a hen.

Hour after hour Anna, apparently deeping peacefully, will be heard uttering indescribable sounds, which are est conveyed as a monotonous "cluck The night nurse whose attention was first drawn to Anna's peculiarity, reported the matter to Miss Vannier, superintendent of the coupling, and it was brought to the attention of the house physicians.

For several nights following this discovery a careful watch was maintained over Anna, and every night the monetonous "clucking" would be repeated before the girl had been asleen tive minutes. She does not say the work, "cluck," but actually makes the same sound to her throat that a her makes. Her mother was questioned on her last visit to the hospital as to whether she could give any reason why Anna might have had this habit thrust upon her" Mrs. Samaroff could remember no circumstances that would have led to such a mysterious habit and stated that she had not observed the clucking noise until after her daughter has returned home from the county hospital, where she had been sent to have a broken leg treated.

Owing to the large number ions that eventually will be in opera tion, it is expected that the aircraft will be able to find ready refuge when surprised by bad weather. Most of the stations are constructed to accommo tate two ships.

LABOUCHERE ASKED FOR POST AT WASHINGTON.

Publication of the Circumstances

Causes Good Deal of Comment. London, Nov. 22.-The publication sy Lord Eversley, a former member

T Mr. Gladstone's cabinet, of the ircumstances under which the govrament refused the post of minister t Washington to Henry Labouchere. as caused a good deal of talk in political circles.

As is well known, Queen Victoria efused to have Mr. Labouchere among er advisers. He was consequently arred from cabinet rank, Just as have con other elever men for having made lies or having faults which the sovereign of the day refused to overlook, Mr. Labouchere always posed as a Eversley shows that he did ask Lord lectual leadership in America, it is imlesebery, then secretary of state for portant that a large number of techoreign affairs, for the Washington ost, and because he did not get it ever forgave his old political ally, Ithough as it turns out, the cabinet nd not Lord Reselvery, refused to appointment,

Held Rosebery Responsible Lord Rosebery brought the matter een admitted to the new government. xisting government, and it was therefore to the interest of ministers that he should withdraw. He had been thinking over what was possible for him, as a justification for giving up his sent, and had come to the conclusion that the post best suited for him was that of minister at Washington Lord Rosebery said that if the cabinet this morning. After slaying the three was in favor of the appointment, he as Foreign Minister, would acquiesce. The cabinet, lowever, decided against the appointment and Lord Eversley xpresses the belief that the attacks m Lord Rosebery, which appeared in Truth" thereafter, were made because inbouchere believed that Lord Rosehery was responsible for the refusai

of the appointment.

ADDITIONAL HOUGHTON TRIALS WITH DIRIGIBLES SOUTH AMERICAN COMPANIES WANT MORE M. C. M. MEN

PRESIDENT MCNAIR GETS TWO

REQUESTS FOR GRADUATE ENGINEERS. Two requests for graduates of the Michigan College of Mines have re-Ing in South America. One of these companies is opening up a new iron district in the northern end of the Laurium.

continent, and has asked the College President McNair is finding pre-eminent position this institution has always held in training iron and copper mining. Situated i the heart of a great copper mining district, and close at hand to all the Lake Superior iron districts, the College of Mines is able to give its gradnates familiar and practical experience with these two branches of the

These men going to South America will further increase the representation of College of Mines men in South America. At this time a year ago, twents per cent of the graduates of the college were employed in South Am erica, Central America and Mexico according to a report compiled by mining engineer who spends most o his time in these countries. And ye even with such representations as this from all our technicial schools, the autiness establishments of Europe-of England and Germany especially-ar still carrying off the larger part of the trade of these southern republics. No only from the viewpoint of those wh think in terms of the commercia greatness of the United States, but from the viewpoint of those who are interested in our political and inteltrically trained men be sent to South America and the Latin republics.

Half of Graduates in U. P.

One half of the 1913 graduates

the Michigan College of Mines are now employed in the Lake Superior districts, and all but three of this hat? are employed in Michigan. Because o the attention of the cabinet by the strike disturbance, not so many ading a letter from Labouchere, in thre being used this year by the copper high the latter said that not baying mining companies. Most of the others are employed in the west, mostly in the copper mines of Arizona, Nevada and Seeling the advance of years, he and Montana. Alasks, Ontario and House of Commons. He added that if the remained his business would be few more of them. Thus, although he remained his business would be. Iew more of them. Thus, although as it always has been, to attack the there are always openings for mining engineers away from home, the districts near by have always drawn the largest number of the graduates, Naturally an overwhelmingly large percentage of the mining engineers in the cooper country are College of Mines graduates; but the showing is no less creditable for the iron districts. For example, at the last Lake Superior Mining Institute meeting, held on the Mesaba Range, there were over fifty College of Mines graduates present.
