GRAHAM'S AMERICAN MONTHLY MAGAZINE.

The next number closes the second volume of Graham The next number closes the second volume of Graham for 1833, and we cannot refrain from than the most heartily both the press and our subscribers for the encouragement afforded us to persevere in elevating the literary and pictorial character of the work. The volume, when closed, will embrace every variety of Magazine illustration, and have furnished to our readers papers upon all the topics of interest which absorb the times, and alse a series of a futices of a purely diserary coareter of a higner order than have herefoor been found in the mouth! Magazines it will be our aim to improve Graham still further in these respects and by careful attention and enterprise to command the public approbation.

15 "women and Wisse's coarse and fine Bo tees, for the most as when he was a hose. It would be useless to enumerate more, as every on and Shoes in Western Wiscomin, and purchase direct from the manuscurers.

A Good Assortment of Trunks.

HARD-WARE & IRON, such as from in every variety of size, ast Steel. Iron Axles, Seat and Burgy Springs, Nails—we ugn, and cut,

and support.

The Yew Volume-commencing with the January of The New Volume—commencing with the January number—will claim especial attention for the beauty of its pictorial appointments. Ample arrangements have been entered into with competent artists to secure a proper variety of the very best of all kinds of engraving—seel, mezzotint and wood—to meet the expectations of our readers; and the diterary department shall be still further amplified and improved. Single subscriber and clubs, whose subscriptions expire with the next number, will please resem promptly, that we may be enabled to furnish toom with January numbers by the require mails which will take our edition to country subscriber.

Post Masters all over the Union are respectfully requested to act as Agents for the New Volume.

The money for clubs always must be sent in advance.

mecriptions may be sent at our risk. Address, always
ost pais.

CHERRY PECTORAL For the Cure of COUGHS, COLDS, HOARSENESS, BRON-CHITIS, CROUP, ASTH-MA, WHOOPING-COUGH

AND CONSUMPTION. Many years of tria, instead of impairing the public confidence in this medicine, has won for it an appreciation and notariety by far exceeding the most sanguing expectations of its friends. Nothing but its intrinsrepetiations of its friends. Nothing out its intrinser virtues and the unmistakable benefits conferred on thou-ands of sufferers, could originate and maintain the reputation it enjoys. While many interior remedies thrust upon the community, have falled and been dis-card d, this has vaired friends by every trial, conferred henefits on the afflict d they can never forget, and prouced cures too numerous and too remarkable to be forgotten.

While it is a frand on the public to pretend that an

one medicine will nfallibly cure—still there is abundant proper that the CHERRY PECTORAL does not only as general thing, but almost invariably cure the maindie

or which it is employed.

As time makes these facts wider and better know: this medicine has gradually become the best reliance of the afficted, from the log cabin of the American Peasant, to the pairces of European Kings. Throughout this entire country, in every State, city, and indeed almost every bandet it contains. Cherry Pretoral is known as the best remedy exiant for diseases of the Throat and Longs, and in many foreign countries, it is coming to be extensively used by their most intelligent Physicians. In Great Britain, France and Germany where the medical sciences have reached their highest perfection, CHERRY PROTOBAL is introduced, and is in constant use in the Armies, Hospitals, Alms Houres, Public Institutions, and in domestic practice, as the surest remedy their attending Physicians can employ for the more dangerous affections of the lungs. Also in milder cases, and for children it is safe, pleasant and effectual to cure. In fact, come of the most flattering testimonists we receive have been from parents who have found it efficacious in cases particularly incidental to childhood.

The Cherny Pectoral is manufactured by a practical Chernial, and correspond to the most flattering to the control of the contr car Chemist, and every ounce of it under his own eye, with invariable accuracy and care. It is sealed and protected by law from counterfeits, consequently can be relied on asgenuine without adulteration.

We have endeavored here to furnish the community

with a medicine of such intrinsic superiority and worth as should commend itself to their confidence -a remedy at once safe, speedy and effectual, which this has by repeated and countiess trials proved itself to be; and trust by great care in preparing it with chemical accurac), of uniform strength to afford Physicians a new agent on which they can rely for the best results, and the affected with a remedy that will do for them all that medicine can do.

THE MARRIAGE STATE

Shall Mappiness and Health, or Misery and Sickness, atland il ! MOST STARTLING CONSIDERATIONS!

Reflections for the Thoughtful. Strange that countless human being, exist and drag through life as do the beasts of the field, or the insects of the earth, evincing no more thought or reflection than though the noble faculties of mind were not vouchsafed to them.

Many such are husbands and fathers, upon whom are dependent the health, the well-being, and the happiness of a confiding and affectionate wife, with perhaps a family of children.

HOW OFTEN IT HAPPENS THAT THE WIFE LINGERS FROM YEAR TO YEAR wife Lingers from yrar to yrar in that pitiable condition as not even for one day to feel the happy and exhierating influence incident to the enjoyment of health.

She may not be an invalid confined to her bed, or even to her room; as her pride, ambition and enersy induce and nerve her to take personal charge of her household, even when her health will not admit of it; but she is nevertheless perceptibly sinking from day to day, and always ailing.

Thus, day after day, and month after month transpire. Her health daily sinks, till finally even the hope of recovery no longer remains. And thus

THE BLOOMING BRIDE. But a few years ago in the flush of health and youth, and buoyancy of spirits, rapidly, and apparently inexplicably, becomes a feeble, sickly, dobilitated wife, with frame emaciated, nerves unstrung, spirits depressed, countenance bearing the impress of suffering, and an utter physical and mental prostration.

Sometimes this deplorable change may and does arise from organic or constitutional causes. But oftener, by far oftener, to gross and inexcusable ignorance of the simplest and plainest rules of health as connected with the marriage state, the violation of which entails disease, suffering and misery, not only to the wife, but often

Hereditary Commissions mean the Children

Hereditary Complaints upon the Children "UNTO THE THIRD AND FOURTH GENERATION,

DREADFUL INHERITANCE

And must this continue? Shall we be wise in all that concerns the cattle of our fields, our horses, our sheep, our cows, our oxen, the nature and character of the soil we possess, the texture and quality of our goods and merchandise; but in all that concerns ourselves as human beings, with human functions and passions, subject to great derangement, involving our future peace and happinesein all that concerns the health and welfure of the wife of our affections, and the mother of our children; in all that concerns the mental and physical well being of those children, we should be immersed in the darkest and most

BENIGHTED IGNORANCE, AS CULPABLE AS INEXCUSABLE!

How long shall this ignorance prevail so productive of its bitter fruits? How long shall the wife and mother be ignorant of the nature, character causes of the various womb and sexual complaintening her days by suffering—suffering often prolonged to years, eventuating in a complication of diseases utterly and hopelessly incurable? Shall we for ever close our eyes to the results of physiological science by which we may arrive at an understanding of ourselves as men and women, subject to serious life-long enduring diseases, and perpetuating them to our children.
