Help Settle Your Own Country

Send Us the Names of Your Old Friends Back East.

Some of them may want to change their location and come west. A little help from you will assist us in reaching many who are looking for new homes. We mail your friends truthful literature about your part of the country and place their names on the complimentary mailing list of "The Earth," an interesting monthly devoted to Southwest immigration.

Tom L. Miller,
Electrician.

New Orleans Picayune. When a woman shops, it is some times to try to forget her poverty.—
Twitting on Facts.

Tragedy in Man's Folly. "To die," said Dr. Samuel Johnson, "is the fate of man, but to die with eyes hunting for trouble finds it some day where he isn't looking for it."—
Uncle Allen.

Spade Guineas. The tenant of a Hertfordshire (Eng.) farmhouse looking through some old books, found in Dr. Croley's "Salathial" a pencilled note indicating that valuables were hidden under an attic floor. Wrapped in quaint silk dresses of the Georgian period were found forty spade guineas and other coins.

Saves the Spellbinder. At a political meeting in Brighton, England, a speaker, finding that the point of one of his jokes had missed, sorrowfully remarked: "I had hoped, gentlemen, that you would have laughed at that." A plaintive voice came through the silence: "I laughed, mister." Then everybody laughed.

Written by Robert Burns. Lady Nairne has been credited with the authorship of the song, "The Land o' the Leal," for over a hundred years. It is now settled that Robert Burns wrote the song on his deathbed. Lady Nairne changed it, making it ridiculous.

Deficient in Good Breeding. Not only at election times was kissing a courtesy, but up to the middle of the eighteenth century the male visitor who neglected to kiss all the ladies on entering a room was considered deficient in good breeding.

Be just to yourself. Eat nothing but the best. 40¢
Sayre Mill and Elevator Co.

NIP IT IN THE BUD.

First Appearance of Dandruff a Forerunner of Future Baldness.

That such is the case has been conclusively proven by scientific research. Prof. Unna, the noted European skin specialist, declares that dandruff is the burrowed-up cuticle of the scalp, caused by parasites destroying the vitality in the hair bulb. The hair becomes lifeless, and, in time, falls out. This can be prevented.

Newbro's Herpicide kills this dandruff germ, and restores the hair to its natural softness and abundance.

Herpicide is now used by thousands of people—all satisfied that it is the most wonderful hair preparation on the market to-day.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

E. R. Roach Drug Company, Special Agent

Pressure of Natural Gas.

The natural gas wells which have yielded the greatest amount of gas and shown the most tremendous force in its outburst have revealed a pressure of about 650 pounds to the square inch on the rock confining the gas.

Magnificent Ornament.

In Leipzig is a lady who possesses a peacock brooch, the tail of which is set with stones colored in exact imitation of that of a real peacock. The tail distends or closes at the owner's will.

London Gas Companies.

The population within the London postal district is supplied with gas by eleven companies, and among them they supply 43,897,000,000 cubic feet of gas 945,177 consumers

Japanese Painting Exhibit.

San Francisco is to have the first exhibit of Japanese paintings ever held outside of Japan, it believes. There will be no prints, because the Japanese say prints are not art, but art and painting. But there will be 150 specimens of paintings in water color or sumi (a black medium), on paper, some of them dating back 1,200 years.

Slates Long Used in Schools.

It is not easy to tell exactly for how long a period slates have been used by school boys; but they were used as writing tablets as far back as the Middle Ages, and probably, therefore, they were introduced into the schools of Europe at a very early period in the history of education in this part of the world.

Those dull pains about the eyes are plain signs that there is something wrong with your vision. Step in some day and let us find out what the trouble is with your eyes.

BETTER THAN GOLD LAND BARGAIN EXTRAORDINARY

IN THE CELEBRATED TEXAS PANHANDLE—THE IOWA OF THE SOUTHWEST

FINEST CLIMATE IN AMERICA. COOL, DELIGHTFUL, INVIGORATING SUMMERS. WINTERS WARM, DRY, AND FULL OF SUNSHINE. RICHEST SOIL ON EARTH; 3 TO 7 FEET DEEP; DARK, SANDY LOAM ON LIME STONE FORMATION, VERY SIMILAR TO THE FAMOUS BLUEGRASS BELT OF KENTUCKY; FULL OF HUMUS AND EASILY TILLED.

We own 65,000 acres 100 Sections of this choice level Prairie land in a solid body located in Farmer County, within 11 miles of Bovina, Texas, a station on the through line of the Santa Fe Ry. from Chicago to Los Angeles, Calif. The Santa Fe has recently surveyed and been granted a charter to build a cut-off from Texico to Brownwood, Texas, which when completed will give the shortest route from the Pacific to the Gulf, San Francisco to Galveston. It is expected this road will be completed and trains running within two years. The final survey has been made and runs through this land for seven miles, making it contiguous to two great trunk lines of railway.

This land has grown too valuable for ranching purposes, although we have about 6,000 steers on it at present time. After much thought and deliberation we have decided to offer one-half of it for sale, believing that the value of the remaining half will be more than doubled by the influx of population. Not less than one quarter section or 160 acres will be sold to one buyer. There is no choice between different parts of this land; one acre is just as good and no better than any other acre. It is all cream, and considered the very choicest location in the Panhandle.

Good farming has already demonstrated that this land will produce 40 to 50 bu. of Indian corn; 20 to 35 bu. of wheat; 30 to 40 bu. of oats per acre favorable years; kafir corn 35 to 50 bu.; German millet 2 to 4 tons per acre; milo maize 25 to 40 bu.; sorghum 5 to 10 tons per acre; cow peas 20 to 30 bu. and 2 to 3 tons of hay per acre; alfalfa 2 to 4 tons per acre, and cotton from 1 1/2 to 3 1/2 bales per acre. Johnson grass and all other forage plants yield enormous returns. We believe it is the coming fruit country of America; peaches, pears, plums, apricots, apples, cherries, raspberries, dewberries, blackberries, strawberries, grapes, and many other varieties of fruits and berries grow to perfection. Apples grown in this climate have a delicacy of flavor not found elsewhere. Every variety of vegetable that grows in the Middle West thrives here. Said to be the finest watermelon and cantaloupe country on earth, Rocky Ford, Colo., not excepted.

An unexcelled stock country for cattle, hogs, sheep and horses. Peculiarly adapted to stock farming. This land can be made to pay from 8 to 10% interest net on \$100 per acre valuation one year with another by simply raising alfalfa, kafir corn and hogs or sheep, all of which thrive, hogs being practically immune from cholera in this climate.

Never failing veins of the finest water from 100 to 150 feet from the surface, pumped by wind-mills. Native grasses grow luxuriantly and are very nutritious and fattening. All kinds of live stock thrive on them the year around without other feed.

The land owner will be the monopolist of the future for no more is being made and population is increasing by leaps and bounds.

This country offers unrivaled opportunities to investors who wish to double, treble and possibly quadruple their money within the next few years. A net work of new railroads now building and being surveyed insures a large increase in population. A rush of immigration has already set in, very similar to the wave which settled South Dakota a few years ago.

TOPOGRAPHY—A beautiful, level plain, gently undulating in places, sometimes called "The Grassy Wilderness." The last cheap, level, rich land left in this country is in North-West Texas.

We unhesitatingly affirm that this sale offers the chance of a life time to those wanting choice, level, rich land for a home, for investment, or for speculation. Price \$10.00, \$11.00 and \$12.00 per acre, according to location, improvements and distance from railroad, of which \$2.00 per acre cash, balance on 25 years time; 5% annual interest, notes to read "on or before" and can be paid off and taken up at any time.

"Opportunity knocks once at every man's door." A hint to the wise ought to be sufficient. Buy a section of this land, make the small payment necessary, and keep the interest paid up a few years and it will likely make you independent for life. Excursion rates over all railroads every first and third Tuesday in each month, round trip ticket from Chicago to Bovina, Texas, only \$25.00, very low rates from all points in the Middle West. We will arrange for a private car from Chicago to Bovina for parties containing eighteen or more. "Seeing is believing," and when you see this country you will ask yourself "Why is it not worth as much as Central Illinois?" Preserve this ad, for it may mean gold dollars to you and yours. We advise quick action, for this extraordinary bargain will be gone while you hesitate.
