

AMARILLO GETS PACKING HOUSE

Meeting Held Last Night Was Conclusive--Plans
Were Ordered and Site Selected--Money
Being Collected Today

(From Friday's Daily.)

Amarillo is to have the plant of the Panhandle Packing company—and that with but little delay. The meeting yesterday evening at the Potter county courthouse was attended by a majority of the stockholders of the company, and all were enthusiastic over the promise of an almost immediate development of the proposition.

After some discussion it was agreed that the plant shall be erected at the point described in yesterday's issue of the Panhandle editorially, near the stockyards. The details of the disposition of sewage will be worked out with the same precision and lack of hitch that characterized the meeting last evening, which was presided over by H. B. Sanborn and with P. E. Boesen as secretary.

The executive committee appointed by the stockholders at a previous meeting was instructed to collect one-half of the stock subscribed, and it is engaged on that task today. There is no question about the coming of the packing house now. The meeting last night added definite assurance in such manner as to dispel the fears of even the most pessimistic and timid.

W. O. Buttl, representing the foreign interests in the movement was instructed to proceed with the plans

of the plant, and it goes without saying that there will be no lagging of interest in the proposed plans.

There is enthusiasm in the city over the proposition. It gives to the city its greatest individual industrial enterprise, and carries with it as has been suggested in these columns before, the assurance of an increase in population to the extent of at least 500 souls. This immediate influx is a thing of more than usual importance and will awaken a renewed demand for the various commodities used by housekeepers.

While no time can be stated definitely at this time for the beginning of the construction, but it is known that there will be but little delay in commencing. A large amount of materials will be required for the building and this will doubtless begin to move within a few weeks at most. This institution is thoroughly appreciated by every progressive citizen of the city.

Amarillo, already the metropolis of the plains, receives in this packing house, a further impetus and incentive for growth and progress. The building of the city, as is generally recognized by the citizens of the entire country, has been steady, and this additional and almost sudden expansion comes with much of welcome.

NO LIVES ARE LOST IN FLORIDA FLOOD

Associated Press.

Jacksonville, Fla., Sept. 11.—No lives lost, no one injured and property damaged to only \$6,000 summarizes the flood situation here today. Yesterday the situation looked serious, as twelve inches of rain had fallen in two days and streets in the suburbs were flooded and the main business district threatened. The rain stopped last night and by morning the water had drained off of the flooded districts.

BUSINESS SHOWS A GOOD INCREASE

Business is showing a gratifying increase in all lines at this time. The stores are busy with their opening of goods for the coming fall and winter, and larger and better stocks with a greater range of prices will be shown in all of the stores. The enlargement of many of the places of business and the establishment of various new stores and offices, indicate unmistakably the trend of the times.

Merchants have bought their goods and wares expecting just such a condition as now seems inevitable. In the various lines of commerce as well as in building trades and manufacturing there is a showing of strength that has not been exceeded. That the showing of business will be record breaking during the coming seasons, there cannot be a doubt upon the part of those who have taken the time to investigate.

RANGERS RAIDED THREE PLACES

Yesterday and last night the Texas rangers present in this city for the past three weeks raided three establishments from which certain property was removed. From the bar of the Hotel Amarillo, which was the first place visited, was taken property in the form of wines, whisky and other liquors, valued at approximately \$1,000. This was stored in the Potter county jail under the supervision of the officials.

The place of John Childers, known as the "Crystal Bar" was raided by the rangers, as was also the establishment known as the Old Savage stand, which is alleged to have been in charge of Joe Moore at the time of the visitation of the officers. Statement is made to the effect that the haul made at the first point was the greatest, yet some packages were taken at each of the points mentioned.

Other places believed to contain intoxicants were visited, but nothing was seized as a result of the presence of the rangers. The matter created a great deal of comment among the people of the city.

It is understood that the rangers will continue in the city indefinitely and give their attention to matters for which they are called to consider. The one matter in which they are interested, is an enforcement of the local option law, now declared to be in effect in Amarillo, although a few other affairs have received their attention since their coming here.

AMBULANCE GETS HURRY CALL.

Practical Joker Wanted to See New Ambulance Put to Use.

N. S. Negbaur, of Negbaur & Sons, Kansas City, was in the city yesterday in the interests of his house and while here indulged in his proclivity for practical joking, by sending in a bogus call to Maddrey & Kenyon for an ambulance.

Mr. Negbaur chanced to be in the Maddrey & Kenyon store at the time they received their new ambulance yesterday. He quietly slipped out of the store and, going to Pike Strouds livery barn, sent in a hurry call to his friend, N. S. Griggs, manager of the Maddrey & Kenyon store, stating a man was suffering with an injured foot at Seventh and Polk streets. Mr. Griggs was hardly prepared for his new ambulance being called into requisition so quickly but was not loth to take this opportunity to show it. A quick response was made and the truth learned by the ambulance driver, who however, insisted on carrying Mr. Negbaur back to the store in the ambulance de-

PANHANDLE FAIR WILL BE GREAT

Commercial Club Secretaries Invited to Bring Exhibits—Amusements are Assured With Fine Produce

From the 23rd instant to the 3rd of October there will be plenty doing in the city of Amarillo. Those are the dates for the fair and carnival of the Panhandle Fair Association whose first annual function will be had at that time. This event is being widely advertised and there is every reason to believe that it will be most largely attended. It is anticipated that many people will be in attendance, not only from different portions of Texas, but also from varying sections of the United States. Unfortunately no one of the enormous excursions to the Panhandle will reach this city during the fair and carnival, but even in the absence of the presence of the home-seekers in such great numbers, there will be many people, as has been said, from the different sections of the country.

There will be a showing of all that is produced in this and other sections of the Panhandle country. It is to be a fair for the Panhandle and not exclusively for Amarillo, by any means. Every secretary of a commercial club, every man who is taking an interest in the growth and development is invited to come and bring with him, a showing from his section.

Secretary Lon D. Marrs of the Chamber of Commerce is now mailing out premium lists to the various secretaries and presidents of organizations for promoting the development of the country along the lines indicated. Heretofore the fairs have been such as might be conveniently arranged with the facilities at hand. This time the showing is to be greatly increased. There will be an en-

spite his protests. The new ambulance is a beauty and is said to be one of the finest in the South and also one of the most expensive. It is equipped with all the latest improvements and conveniences known to ambulance builders. In addition to the ordinary stretchers that are always in place, it is equipped with cot arrangement that can be instantly converted into a comfortable reclining Morris chair. The entire interior is leather upholstered and has rubber carpets. A speaking tube, electric lights and a model medicine cabinet are among the many up-to-date equipments. The exterior is finished in silver gray and gold and presents a handsome appearance.

The firm of Maddrey & Kenyon have acquired the store room recently vacated by E. I. Pittman & Son and have removed the partition that separated it from their store room. This room will give them 2,500 square feet in addition to their already spacious rooms.

A modern equipped undertaking department and morgue is being built in the rear and when completed, they will have one of the best appointed departments of this kind in the state. The acquisition of this additional space is in line with the policy of growth and advancement that has marked the business of the firm in this city under the efficient management of N. S. Griggs.

* WOMAN LOSES \$500 THROUGH CAR WINDOW. *

* Special to Daily Panhandle. *
* Gainesville, Texas, Sept. 11.—Mrs. J. H. Williams while traveling through here on a Santa Fe train, lost \$500, when a strong breeze lifted the bills from her lap and carried them out of the window while the train was moving rapidly. Efforts to find the money failed. *

largement in each individual department, and attention is called to the fact that there will be a premium on each and every division of the work.

This exhibition of the wealth of the country is to be upon a very elaborate scale and those who attend the affair with a view to getting their money's worth, will not be disappointed.

Special committees have been arranged for the various parts of the preparatory movement, and this will insure such a rounding out of detail as has seldom been witnessed in the state.

Messrs. Isaacs and Avery, who have graciously donated their time to the movement, are devoting their services to interesting the city men in the enterprise at present. They state that all is moving forward with great satisfaction, to a successful issue in their department.

At the meeting of the Commercial Club secretaries now in progress in Fort Worth, Mr. Marrs, the secretary of the Chamber of Commerce, will spread his advertising matter, and devote considerable time in giving an adequate idea of the extent of the fair and carnival in this city.

In the immediate vicinity of Amarillo much matter that is of interest, will be collected. It is desired that exhibits of every possible branch of industry be shown. The farm, the garden, the nursery, the orchard, the dairy and poultry yard, the stock ranch, the mills and factories, will all be called upon to contribute of their wealth to serve as an eye-opener to the people of this section, as well as those from a distance.

HARRY LAUDER,
WHO GETS \$5,000 A
WEEK ON STAGE

The engagement to Harry Lauder, the famous Scotch comedian, for an American engagement at a salary of \$5,000 a week caused a stir in theatrical circles. Cable reports say Lau-

der's manager had denied that the comedian's salary was to be \$5,000 a week, but New York theatrical men thought the denial was prompted by fear of the British Income law.
