whole medicine chest in your pocket, with one box of Ayer's Pills. As they operate directly on the stomach and bowels, they indirectly affect every other organ of the body. When the stomach is out of order, the head is affected, digestion fails, the blood becomes impoverished, and you fall an easy victim to any prevalent disease. Miss M. E. Boyle, of Wilkeabarre, Pa., puts the whole truth in a nutshell, when she says: "I use no other medicine than Ayer's Pills. They are all that any one needs, and just spiendld to save money in doctors bills." Here is an instance of

who lost his medicine chest, but, leaving at hand a bottle of Ayer's Plils, found himself fully equipped .- J. Arrison, M. D., of San José, Cal., writes:

Some three years ago, by the merest accident, I was forced, so to speak, to prescribe Ayer's Cathartic Pills for several sick men among a party of engineers in the Sierra Nevada mountains, my medicine chest having been lost in crossing a mountain torrent. I was surprised and delighted at the action of the Pills, so much so, indeed, that I was led to a further trial of them, as well as of your Cherry Pectoral and Sarsaparilla. I have nothing but praise to offer in their favor."

John W. Brown, M. D., of Oceana, W. Va., writes: "I prescribe Ayer's Pills In my practice, and find them excellent. Lurge their general use in families."

T. E. Hastings, M. D., of Baltimore, Md., writes: "That Ayer's Pills do control and cure the complaints for which they are designed, is as conclusively proven to me as anything possibly can be. They are the best cathartle and aperient within the reach of the profession."

Be hopeful! cheerful faith will bring A living joy to thoe, And make thy life a hymu of praise, From doubt and murmur free; Whilst, like the sunbeam, thou wilt bless and bring to others happiness.

Be holy! let not sin's dark stain Thy spirit's whiteness dim; Keep close to God amid the world, And put thy trust in Him; So, midst thy business and thy rest, Thou wilt be comforted and blest.

The Advantage of Rest.

There is no better preventive of pervous exhaustion than regular, unhurried, muscular exercise. If we could moderate our hurry, lessen our worry, and increase our open-air exercise, a large proportion of nervous diseases would be abolished. For those who can not get a sufficient holiday the best substitute is an occasional day in bed. Many whose nerves are constantly strained in their daily vocation have discovered this for themselves. A Spanish merchant in Barcelona told his medical man that he always went to bed for two or three days whenever he could be spared from his business, and he laughed at those who spent their holidays on teilsome mountains. One of the hardest-worked women in England, who has for many years conducted a large wholesale business, retains excellent nerves at an advanced age, owing, it is believed, to her If we can not avoid frequent agitation, we ought if tion, we ought, if possible, to give the nervous system time to recover itself between the shocks. Even an hour's sociasion after a good lunch will deprive a hurried anxious day of much of its injury. The nerves can and amassed a fortune. the nervous system time to recover
