## NO NEWS FROM SAMOAN ISLANDS.

None Is Expected from There Until the Latter Part of Next Week.

## ALL REPORTS ARE UNOFFICIAL.

Nothing Has Been Done Except to Discuss Affairs in an Offhand Way by Officials.

## TREATY OF BERLIN WILL BE UPHELD.

Washington Authorities Believe Matters Will Be Amicably Adjusted Through the Channels of Diplomacy in This Affair.

Washington, Jan. 23.—Inquiries made by the state department show that no further advice can be expected from Samoa before the latter part of next week. This is based on the presumption of reports to come on the regular line of vessels that travel between Auckland and Apia, but, of course there is a possibility of some private sailing craft making the trip if events are of sufficient importance to demand an immediate report of what has occurred there since the last steamer sailed.

By Friday or Saturday of this week the British warship, which recently left Wellington, should arrive at Apia and this make it possible for one of the two British vessels which will be in port to be used for the conveyance of mail advices to Auckland.

Such exchanges have taken place up to this point between the three governments as to the treaty of Berlin in relation to the uprising at Apia have been rather of an unofficial character and have been confined pretty closely to expressions of willingness to deal with matters soberly and stand by the terms of the treaty in its adjustment. With this disposition there is, already as stated, every reason to believe this Samoan affair will yield to the ordinary methods of diplomacy unless something happened in the meantime at Apia to aggravate the situation.

## UNITED STATES WARSHIPS. They Are About Equally Divided on the Atlantic and Pacific.

Washington, Jan. 23.—As a result of the assignment of the battleships Iowa and Oregon to the Pacific and Asiatic stations respectively, and the decision to dispatch the cruiser Newark to the Pacific coast, the commissioned naval force of the United States is about evenly divided between the two oceans. At the present time there are stationed in the Atlantic waters three battleships, two armored cruisers, six projected and unprojected cruisers and twelve gunboats. The combined commands of Rear Admiral Dewey and Commodore Kautz includes two battleships, two coast defense monitors, six cruisers, including the Newark, and sixteen gunboats. There are also several auxiliary cruisers, colliers and supply ships.

The assignment of the Newark to the Pacific is due to the necessity of having a cruiser on the Pacific coast to replace the Philadelphia, which will leave by Wednesday next for Samoa. Orders have been given to push the work on the Newark so that she may be ready to sail early in February.

The auxiliary cruiser Badger, which has been assigned to the Pacific station, will leave Norfolk for Mare Island during the present week. The division of the force is due to the desire of the administration to protect its interests in both oceans, though there is no reason to believe that any further trouble will occur.

Orders have been given under which the Nashville is being pushed to completion. It is stated that the department is actuated in this matter by a desire to maintain a strong force in Cuban waters as well as to have the ships at a point where they can start without delay for the far east should hostilities with the Filipinos occur.

## ANOTHER COMMISSION.

It Will Settle All Disputes and Actually Govern Our Foreign Territory.

Washington, Jan. 23.—The secretary of war has completed the organization of a commission to undertake the government of the states of the Mississippi Valley.

Fontaine, O. Curtis Guild of Massachusetts and George T. Watkins of Grand Rapids, Mich.

Up to this time the secretary and his assistant have undertaken themselves to deal with the administration of insular affairs, but the questions involved have become so numerous and complicated that it has been found absolutely necessary to call for assistance. This commission will deal with the bestowal of franchises and concessions, the distributing of money to be spent in public improvements and all doubtful questions in Cuba, Porto Rico and the Philippine islands.

## MONEY FOR CUBAN TROOPS.

Satisfactory Arrangements Have Been Made by the Cuban Commissioners.

Washington, Jan. 23.—The Cuban commissioners, who have been in Washington for six weeks upon affairs connected with the plans for future government, have completed their work and will soon sail for Havana. They will proceed to Santa Cruz and report to the assembly. The commissioners express the greatest satisfaction and state that they have succeeded in gaining favorable action upon all their requests. One commissioner says that a certain amount would be advanced by the United States for the payment of the Cuban soldiers and that upon its receipt the army will be immediately disbanded. Just how much would be granted, or how much each soldier would receive he would not say.

This amount will be secured by the revenues of the island over which the American government will have control until the debt is paid. The members of the commission were disinclined to discuss the success of their mission until their report has been submitted to the Cuban assembly.

## Presidential Nominations.

Washington, Jan. 23.—The president has nominated Colonel Eugene Griffin, First United States volunteer engineers, to be brigadier general, and Frederick C. Perkins to be register of the land office at Durango, Colo.

## Takes a Day Offing.

Washington, Jan. 23.—President McKinley, accompanied by Mrs. McKinley and a party of friends, went down the river on the dispatch boat Sylph for a day's outing. In the party were Colonel and Mrs. Herrick of Cleveland, Captain and Mrs. McWilliams of Chicago, Capt. and Mrs. Rand, Miss Mary Barber, Miss Mabel McKinley, Miss Clara Shields, Miss Mary McWilliams, Miss Carrie Harter, C. R. Schultz and James Barber. All members of the party are guests at the White House.

## SENATORIAL ELECTIONS.

Quay Holding His Vote.

W. Stone, Republican, 9; Tobias, Republican, 3; Grow, Republican, 3; Marck, Republican, 1; Downing, Republican, 1; P. A. Weidner, Republican, 2. Total vote cast, 150. Necessary for choice, 76. No election. Paired, 28. Absent without pairs, 4.

## No Election in West Virginia.

Charleston, Jan. 23.—There has been no decisive result reached here affecting the contest for senator between Scott, Republican, and Metcalf, Democrat.

## Still Blocked in Delaware.

Dover, Jan. 23.—The ninth joint ballot for United States senator resulted as follows: George Gray, Democrat, 34; J. Edward Adkins, Republican, 10; Henry A. Dupont, Republican, regular, 10; Francis A. Dupont, Republican, 1; L. I. Hasty, Democrat, 3; John Rollney, Democrat, 3. Total vote, 63. Necessary to a choice, 34. No election.

## British Steamer Long Overdue.

New York, Jan. 23.—Considerable comment is being made among shipping men as to the whereabouts of the British freight steamer Almida, which is only 35 days from Shields for New York. She sailed from Shields Dec. 10, on her way from Hamburg for New York and reported passing Duntel Head, Scotland, on Dec. 21. Since then nothing has been heard of her. The weather on the Atlantic has been bad and there is a belief that she may have gone to the bottom, but when the steamer Britania came into port last week 96 days out from Shields, it aroused hope that the Almida had a chance yet. The Almida is a staunch steel vessel of 1542 tons.

## Daly Mayor of Limerick.

Dublin, Jan. 23.—John Daly, the Irish political prisoner, who was released from Portland prison in 1896, after having been sentenced to penal servitude for life in 1884, for complicity in an alleged plot to blow up the house of commons while in session by throwing dynamite bombs from the strangers' gallery, has been elected mayor of Limerick by unanimous vote under the new Irish local government act.

## Do You Know!

That all the blood of the body has to pass through the liver and undergo a second digestion before it is fit to nourish the body, and that when the liver becomes engorged, overworked as it were, we have the condition called biliousness. We understand the functions of its variations from health, hence the remedy, OUR LIVER CAPSULES. Try one. Many attest their virtue.
