Bryan must have that ladies' waiting room before the next busy season.

With oil and rice and lumber, millionaires are getting common at Beaumont.

The state superintendent of public instruction and the attorney-general uphold the right of school trustees to enforce vaccination.

The Business League is doing Bryan a great deal of good and if you are not a member you are missing a good opportunity to help the town.

Every farmer in the territory contiguous to the Brazos should join in the fight to have the river cleaned out and made navigable so that it will no longer be a menace to life and property.

Texas crude oil, tested at the Lima, Ohio, Standard Oil refinery, has proved to be of much higher grade than heretofore estimated. Grand old Texas is greasing the track so she can slide up to the head of the procession.

### PENITENT.

From my bow one day I let arrow fly—  
Not caring much whither, by a tree near by  
Sat a gay, young mother bird her cosy home  
nest,  
and that stray, cruel arrovierer had little known grace.  
Ah, then I bashed forever, héttos mellow and clear,  
That for months had gladdened my attentive ear.

From my lips one day, I carelessly let fall—  
An unkind word—it broke a fair heart—that is all;

A friend whom I loved, but that for some cause too trivial to mention, thus trespassed friend-ship's laws.

Ah! never again happy hours we met to keep,

Nor laugh when I laugh, nor weep when I weep.

One sweet song bird less, since sent from my bow,

For a moment of pastime, that am-dealing strow;

One sweet voice for me forever hushed,

The voice of the friend whom he ruthlessly crushed.

Because of those words I can now recall,

Which from my lips in anger I holly let fall.

A New York preacher who has married 3,000 couples, yes it out that matrimony is late that should be evaded when can and borne when it must. His pessimistic views seem to be based upon his observations of extravagance. While his heart and biliver are both probably in need of regeneration, there is no doubt the a great deal of matrimonial infidelity is due to living beyond one means, running in debt to keep up with the fashionable procession.

Great revivals have been held in Cameron, Caldwell, Navarro and Calvert by Rev. W. P. Fife. Abe Mukey has been at Huntsville, George Stuart, in the name of the Lord, has possession in Bryan, and Fife is getting ready to move on Brenham. Religiously speaking, Central Texas is coming on the front.

As might have been expected, the representatives of the standard Oil Company have invaded the Beaumont field and given it out that the Standard is the only thing in the world big enough to market the output of the gushers.

### Clover Leaf Dairy Farm.

Mr. Albert Harbers has purchased ten head of Holstein and Jersey and Holstein-Jersey crossed milk cows from Mr. R. R. Knowles and moved them over to his place where he has opened a dairy business on his own account and will raise pure bred cattle and Berkshire hogs. Mr. Knowles says he doesn't believe there are ten cows owned by any one man in the county equal to those sold to Mr. Harbers. Mr. Knowles is out of the dairy business and commutes Mr. Harbers to the public.

**Suits Against Liquor Dealers.**  
Austin, April 13.—Judge Storey of the railroad commission has received samples of oil found in Caldwell county, which is pronounced similar to the Beaumont article. Copious seepage was had at 90 feet, more at 100 feet and at 160 feet at 10 barrels or more per day. Greater results at greater depths are expected. A company has been organized to push the work.

### TEXAS NEWS.

**Will Cultivate Tobacco.**  
Sherman, Tex., April 13.—D. S. Terry last year raised about one-eighth of an acre of fine Connecticut seedling tobacco on his place just north of the city. His bed of "sets" is now in fine shape and he will put in about 10 acres this year. It is believed that tobacco culture will be more generally taken up in the river belt. Last year all told there was not over an acre of it in cultivation in Grayson county. This year there will be at least 50, and it will be raised for a profit, the experimental tests last year being entirely satisfactory.

**Dynamite on the Bridge.**  
Cleburne, Tex., April 13.—J. M. Battle, living five miles north of Cleburne, on the J. E. Odum place, brought to this city a cap and stick of dynamite which he said he picked up on the Santa Fe's rock bridge three miles this side of Joshua. The cap had been placed near the rail with dynamite close by. Mr. Butler said he saw a man about the bridge before going to it. The dynamite was turned over to Sheriff Long, who immediately notified the Santa Fe officials.

**Crossing Watchman Killed.**

Denton, Tex., April 13.—R. F. Goss, watchman for the Katy at the Main street crossing, was run over and instantly killed by a switch engine. He was engaged in warning a crowd of persons against trying to cross the tracks ahead of a switch engine coming south, and was unaware of the approach of engine No. 133 from the other direction, which caught him and utterly crushed him to pieces under the wheels before it could be stopped.

### Bought a Steamer.

Galveston, April 13.—A telegram from E. O. Flood, received here announced the purchase of a steamer for the Brownsville, Rockport and Corpus Christi trade. Mr. Flood left here nearly a month ago and stated privately before he left that he expected to make such a purchase for that service if he could find a vessel that suited him. Captain Minot has gone to get her and the service will be commenced about May 15.

**Witchkillers Acquitted.**

Paris, Tex., April 13.—The jury in the witch-killer case returned a verdict of not guilty as to both of the defendants. The verdict found Sam Frye not guilty in general form, while it found the defendant, Solomon Hotema, not guilty on the ground that he was insane at the time of the commission of the act. Sam Frye was discharged, while Hotema was retained in custody, there being another charge pending against him.

**Woman Badly Burned.**

Greenville, Tex., April 13.—Mrs. Amelia Wynne received serious and perhaps fatal injuries as a result of her clothing catching on fire. In cleaning off the mantel she put several bottles in her apron, which became saturated with turpentine and ignited from the flame in the fireplace. Before the flames could be extinguished her clothes were almost burned off of her and she was burned almost from head to foot.

**Both Legs Crushed.**

Corcoran, Tex., April 13.—John Nary, aged about 30 years, who has for a long while been employed as gate keeper at the crossing of the Houston and Texas Central and Cotton Belt railway tracks at this place was run over by a switch engine on the Cotton Belt track, and both of his legs so badly crushed above the knees that amputation is necessary and it is very doubtful if he lives.

**Sheriff's Fee Bill Void.**

Austin, April 13.—Attorney General Bell will transmit to the governor his opinion on the validity of the sheriff's fee bill, and he will hold that the failure of the speaker of the house to sign the bill was a fatal error and that the bill is void. The constitution requires bills to be signed by the speaker of the house and the president of the senate, in the presence of the assembled house.

**Off in Caldwell County.**

Austin, April 13.—Judge Storey of the railroad commission has received samples of oil found in Caldwell county, which is pronounced similar to the Beaumont article. Copious seepage was had at 90 feet, more at 100 feet and at 160 feet at 10 barrels or more per day. Greater results at greater depths are expected. A company has been organized to push the work.

### Given Two Years.

McKinney, Tex., April 13.—The jury in the case of Manley Beard brought in a verdict assessing the punishment at two years in the penitentiary. The defendant was charged with an assault to murder Joe Mayes on April 3, 1899.

**Want Equivalent Returns.**

Austin, April 13.—Negotiations in the Hay-Pancreote abrogation of the Clayton-Bulwer treaty are progressing though they have not yet passed the tentative stage. A representative of the Associated Press has been informed that they are being conducted on a quid pro quo basis and that no other method of abrogation will be considered by the British government.

**AMENDMENTS REJECTED.**

**Cuban Constitutional Convention Turns Down Platt's Propositions.**

Havana, April 13.—The Cuban constitutional convention has placed itself upon record against the Platt amendment by a vote of 18 to 10 on a resolution that the convention should declare itself opposed to the amendment "on account of the terms of some of the clauses and the way in which they are drawn, and also on account of the contents of others, especially clauses 3, 6 and 8."

The conservatives assert that this action is embarrassing inasmuch as it practically ties the hands of any commission that might be sent to Washington.

**Creamery at Campbell.**

Campbell, Tex., April 13.—The \$5000 creamery built here by the Chicago

Manufacturing and Building company is finished and will begin operations at once.

Great Britain Is Looking After Future Trade Privileges in China.

London, April 13.—Great Britain has not yet definitely estimated the money indemnity she desires China to pay. The government adheres to the belief that nothing can be gained by insisting upon cash payments from China, and though the government regrets that this will possibly be a cause for delay it continues to instruct the British minister to China to try to induce the powers to agree to a demand for greater trading privileges instead of money. The government is of the opinion that the opening up of these rich provinces hitherto closed to foreign commerce will result in much greater benefit to the nations concerned, and to China herself, than the extraction of lump sugar from lumps of money.

Japan's attitude toward Russia's opinion in demanding indemnity inclines to the belief that the Japan commission is satisfied with what is termed as Russia's breakdown, but Japan will continue to keep a sharp eye on Corio and have no hesitation in threatening hostilities should Russia menace that territory.

### Three Hundred Million.

Peking, April 13.—The committee considering China's financial resources has reached the conclusion, based on what information is thus far obtainable, that \$300,000,000 in gold can be raised without injuring China's resources. The examination by the committee into the subject is not complete and it will probably subsequently learn that other Chinese resources for indemnity are available.

**Church Members Reaffirm Allegiance to God.**

London, April 13.—Great Britain has reaffirmed their allegiance to God, and there have been probably fifty converts to date. Lodges, clubs and societies have arranged all their meetings so as not to conflict with the services. The principals of Allen Academy have brought their students daily to the meeting in a body. Friday night the council met in regular session and, at the suggestion of Mayor J. S. Moore, adjourned until Monday afternoon at 3 o'clock, in order that all might attend the services. In homes where family prayer and table blessings have not been heard in years both have been happily instituted. Men are talking about the revival on the streets and in their places of business, and the preacher is making religious sentiment about as fast as he can talk. Good women have visited the saloons and asked them to close their doors during the services, and the indications are that not one of them will be opened today, while on the other hand the largest crowd that has been in Bryan for years will no doubt attend today's services.

**Waco, Tex., April 13.** Work of preparation for the annual reunion of the Texas division of United Confederate Veterans and the junior organizations, to take place in this city Wednesday and Thursday, May 8 and 9, was rushed by the various committees.
