## ARE TO BE CENSURED

Democrats Strenuously Object to the Suspension of Senators.

## FRYE TO REPRIMAND

This Is the Most Severe Punishment That Is Now Thought to Be Practicable at Present—Referred to Election Committee.

Washington, Feb. 28.—The subcommittee of the senate committee on privileges and elections, which was appointed to formulate a proposition for the proper punishment of Senators Tillman and McLaurin of South Carolina for their offenses to the senate of last Saturday, practically concluded and recommended that the two senators be severely censured for their conduct, and to limit the punishment to censure.

The subcommittee consists of Senators Burrows, Hoar and Moraker, Republicans, and Senators Pettus and Bailey, Democrats. Senator Bailey was compelled by indisposition to leave the conference before its close.

The meeting was a very harmonious one, and very little difference of opinion developed. The Republican members of the subcommittee did not themselves contend for a rule suspending the two senators, but represented that there were some Republican members of the committee that adhered to the opinion that through suspension only can adequate punishment be meted out to the offending members. Senator Beveridge is reported to be among the most strenuous advocates of this form of proceeding, and Senator McComas is inclined to agree with him. Some doubt is expressed whether they will unite in a report limiting the punishment to censure.

On the other hand, some of the Democratic members made it very plain that they would not only agree in committee to the reporting of a resolution of suspension, but that if such a resolution should be presented to the senate by a majority of the committee they would resist its adoption by the senate to the extent of instating upon prolonged debate.

The Republican members of the committee, and also many Republican senators who are not members of the committee, have given very serious attention to this possibility of delay in the senate and there is no doubt that it is having a pronounced influence on the disposal of the question. They recognize the fact that if so disposed the minority can obstruct all legislation for an indefinite time, and probably continue the present session of congress far into the summer. Some of them also hold the view that censure is a more severe and certain form of punishment than suspension.

The matter has been left open for consultation with the other Republican members of the committee, and while the full committee has been called to meet the subcommittee will meet half an hour previous to that time.

There has been considerable discussion of the matter of a differentiation of the punishment of the two senators, some of the Republican members holding out for a more severe rebuke to Senator Tillman than to Senator McLaurin because they hold that his offense of striking a fellow senator was greater than that of his colleague, who gave the provocation to the blow, but this course has been practically abandoned so far as the subcommittee is concerned, and both will be equally reprimanded. It also has been virtually decided that no apology shall be exacted from the senators, the reason for eliminating any requirement of that kind being found in the fact that senators generally fear such enforced apologies might not amount to apologies after all.

## Condition Among Cherokees.

Vinita, I. T., Feb. 28.—The committee of the Vinita ladies, Mrs. R. M. Swain, Mrs. R. D. K. Knight and Miss May Holland, who accompanied the collection of clothing sent to the needy full-bloods last week, have returned. They report the people in that section to be in a very bad condition, but that many of the stories heard are very much overdrawn. The ladies say the work is a meritorious one, and that the distribution of corn and clothing should be made with care and by some competent and well-informed person. L. W. Bullington will make a personal investigation, and the corn sent over

from now on, will be in charge of some one who will see that it is not wasted.

## Jumped and Broke His Neck.

Colorado, Tex., Feb. 28.—Two freight trains on the Texas and Pacific collided at Lorraine. Engineer Newt Frakes on the eastbound freight jumped from his engine and broke his neck, dying instantly. Both engines were badly wrecked. No other damage was done to the trains. Frakes' remains were taken to his home in Big Springs.

## NEGRO GETS THE ESTATE

He Was the Only One Who Cared for a Drunk Woman.

New York, Feb. 28.—George W. Thurston, a negro Pullman car porter, will receive the greater part of the estate of Mrs. Eliza Jane Evans, white, valued at from \$75,000 to \$100,000.

Mrs. Evans' will, which was contested by her divorced husband and relatives, has been admitted to probate by Ferracute Willard.

"Thurston," the surrogate said, "seems to have been the only one to whom she clung during the latter years of her life. When she had been forsaken by her relatives he cared for her and did what he could to administer to her comfort and alleviate her condition."

Mrs. Evans was only 47 years old when she died on March 18, 1899. She made many minor bequests and left the bulk of her estate to Thurston.

## Gave It Morphine for Calomel.

Terrell, Tex., Feb. 28.—Information has just been received in this city of the poisoning of Mr. and Mrs. Layman's little 6-year-old son near Chisholm in Rockwall county, Tuesday night by giving it two grains of morphine by mistake for calomel. The child had been ill and its parents sent to a drugstore after some calomel tablets to give it. The man who went to buy the medicine, by mistake called for morphine tablets, which the druggist gave him with the proper label on the box containing the medicine. This was given the child without looking at the label on the box. The mistake was not discovered until the child became so fast asleep that it could not be awakened, about three hours after the medicine had been administered. This led to an examination of the box which, to the horror of the parents of the child, was labeled morphine. A physician was hastily summoned and the child carried about and walked in its sleep until it was finally awakened about 9 o'clock the next day. It was only by constant exercise that the child could be kept awake after being revived. The child is now thought to be out of danger.

## Hurricane at Laredo.

Laredo, Tex., Feb. 28.—A hurricane struck Laredo Thursday at 8 o'clock, the wind blowing over thirty miles an hour. Owing to the extreme dryness of the earth the city has been filled all day with dust so blinding that at times it was impossible to see across the street. All telegraph wires except over the International and Great Northern road have been down during the day and trains over the Texas-Mexican road have been stopped on account of the sand blowing on the track. The roundhouse on the Mexican National road at Monterey was blown down by the force of the wind. The wind was from the northwest and will prove a heavy loss to the stock interests. Because of its dryness it has taken out what little moisture was left in the ground and will delay the growing of spring grass.

## Terrific Gale at Abilene.

Abilene, Tex., Feb. 28.—The most severe sandstorm that has ever visited this part of the state struck here Wednesday afternoon about 3:30. The wind blew a gale all day from the west and along late in the afternoon shifted to the northwest, when for a few minutes it attained a velocity of about seventy miles per hour. A number of telephone poles were blown down, while others were snapped like pipe-stems. The damage to the two telephone exchanges and the electric light system will be heavy. The city was in darkness all night on account of the tangled condition of the wires. A light sprinkle accompanied the storm.

## Windstorm at Howe.

Howe, I. T., Feb. 28.—Wednesday night about 9 o'clock a very heavy windstorm struck this place, coming from the southwest. Two houses in the north part of town were blown several feet and considerably damaged. The occupants escaped without injury. Fruit trees were twisted and broken. No damage was reported from the country. A light rain followed the windstorm.

## Our Fatality at Robert Lee.

San Angelo, Tex., Feb. 28.—Reports have come in of a destructive windstorm at Robert Lee Wednesday evening, wrecking nine houses. The 13-year old daughter of County Judge Graham was burned to death from the house blow up over and catching fire. Two or three houses were blown down at Bronte. There was other damage over the country surrounding San Angelo.

## Their Prayers Answered.

## Were Saved by Accident

Woodward, Mich., Feb. 28.—By mere chance three miners were saved from being blown into bits in the Iron Belt mine. They were employed on the night shift, and after eating their dinner went into a warm drift to smoke. Two boxes of powder had been placed on the steam pipes and formed convenient seats for two of the miners, and the other laid down beside them.

The skip tender passed by and was startled to see that the filling of one of the boxes was on fire and that the men were asleep. He hastily alarmed the sleepers and there was a wild scramble for the shaft, which was just reached when the powder—40 pounds, half dynamite—exploded. The men were knocked down and bombarded by flying rocks. One sustained a fractured shoulder and elbow and a dislocated hip. Another will lose an eye.

## FRANKLIN BROTHERS

BRYAN, TEXAS,

Have slaughtered and sold more cattle and hogs than all the other dealers here together.

## WHY?

Because their way of doing business is to do it by wholesale. TWO big markets—15 men employed all the while catering to the wants of fastidious trade educated to eat good meats and no other. We have the facilities and intend to keep the trade by always selling the best at the lowest prices it can be bought for. We buy Wood, Hides, Pelts at highest market price.

## Some People Think

Fancy prices make the things they eat better. This is a very erroneous and expensive notion. Fancy prices are often the result of high rents, clerk hire, etc. If your grocery bill is too large it will pay you to examine our stock of groceries and the low prices we make on them. They are fresh, pure and wholesome. They please our old customers and if you will let us send a trial order we will please you.
