Free trial lessons in our home study course of the famous Byrne Simplified Shorthand and Practical Bookkeeping.

We compiled them and have taught them successfully for six years; we know just what they are and the results we can produce with them. To prove our confidence, we ask you to test them at our expense. We are familiar with every other system of bookkeeping and shorthand that is being taught by correspondence; we know where our advantages are over other systems; we know why we are enjoying such a tremendous enrollment in these courses, and we are anxious to show why it is; we want to let our courses speak for themselves, then leave the decision with you.

Ambitious young people appreciate the opportunity of utilizing to good advantage their spare moments; there is no more profitable way or pleasant way than in taking a home study course with us. We believe you will try our course at our expense, so please fill out the following blank and mail to Tyler Commercial College, Tyler, Texas. Remember this trial is not to cost you one cent, and the filling out of the blank places you under no obligations to us whatever.

Please send me a set of trial lessons in your home study course of (here state whether you want Bookkeeping or Shorthand).....

DEPARTMENT.
This space is edited for the benefit of the teachers and to advance the cause of education in Marion county. I trust that no teacher will fail to read each week what this space contains.

ALICE EMMERTY
County Superintendent

Texas Teachers Reading Circle.
In compliance with the demands of the Teachers' State Association, a committee composed of six teachers was appointed to organize a Teachers Reading Circle. Supt. S. M. N. Marrs was elected chairman.

This committee met in Dallas March 15th, 1910, to formulate plans for the organization.

One of the duties of the board in control will be to plan a course of reading from year to year to be pursued by the teachers of Texas, to secure evidence of the completion of same, and to issue certificates and diplomas to those who have completed the course satisfactorily.

The Reading Circle year shall be concurrent with the scholastic year, beginning with the first day of September and closing with the thirty-first day of August.

Any teacher or other person interested in professional or cultural improvement may become a member by filling out a blank application and filing it with the manager of the Circle in his county, or with Supt. J. E. Blair, of Corsicana, the Secretary of the State Reading Circle.

The following books have been adopted:

"How to Study and Teaching."

"Psychologic Methods in Teaching."

"A Brief Course in the History of Education."

"American Literature."

"Civics and Health."

"Nature Studies for Primary Grades."

The prices represent the cost of the books delivered to members. Books may be obtained from O. A. Bryant, Dallas, Texas.

The adoption of these books was carefully considered with a view to cover a wide range of professional and cultural reading, and to meet the needs of all classes of teachers.

Almost all of these books have been adopted by reading circle boards in many other states.

The course of study extends through a period of three years—not fewer than two books may be changed each year nor more than three.

If desirable, the course can be completed in two years, but no person will receive credit on more than three books in one year.

Upon the satisfactory completion of each year's work, credit certificates will be issued and upon the completion of the full course six books, the member will receive a diploma.

The superintendent of schools of each county or city of this state or some person designated by such official is appointed as manager for his respective county.

If the teachers of Marion county would decide upon two or three of these books, and each teacher purchase one book, a circulating library could be formed. In this way each teacher would be able to read three, while purchasing but one. These books could be taken from the office of the County Superintendent. Books purchased by white and colored teachers need not be the same and would be kept separate.

The murder mills in Dallas yields a large and increasing grist. Scarcely an issue of the daily papers but contains a story of a killing and often two or more. When Dallas has more murders than a city like London it is time to call a halt. And the "best governed city in the state," viz. San Antonio, had eleven murders in nineteen days. What are we going to do about it?—McKinney Gazette.

Why, enact a state prohibition law and send every outlaw caught bootlegging the infernal stuff to the penitentiary for at least ten years. Then, and not till then, will the work of murder and the making of widows and orphans stop. Only last week a Dallas peace officer said: "We are getting to a fine state of affairs when women and children cannot walk the street without risking the danger of being shot down." And whiskey is the cause of it all.—Petty Enterprise.
