

PE-RU-NA TONIC FOR COUGHS, COLDS, CATARRH.

JOSEPH H. CHASE.

Peruna Drug Co., Columbus, Ohio.
Gentlemen: I have used Peruna and find that it cannot be equaled as a tonic, as well as a cure for coughs, colds and catarrh.

You are authorized to use my photo with testimonial in any publication.

Cold and La Grippe.
Mr. C. Happy, Hardin, Ray Co., Mo., writes: "I can safely recommend Peruna as a remedy that will cure all catarrhal troubles."

"It was of great benefit to me, as it cured me of catarrh of the throat, and I took a very bad cold and had a gripe last February. It settled in my throat and lungs. I took three bottles of Peruna and it cured me."

"I highly recommend it to all who are sick, and I am glad to add my endorsement to that of others."

Pe-ru-na for Colds.
Mr. L. Clifford Figg, Jr., 2929 East Marshall St., Richmond, Va., writes that when he gets a cold he takes Peruna, and it soon drives out his system. For several years he was not entirely well, but Peruna completely cured him. People who object to liquid medicines can now secure Peruna tablets.

OFFICE OF PUBLICATION—Corner Austin and Vale Sts., Jefferson, Texas.
Entered at the Post-Office at Jefferson, Texas, second-class mail matter.

The factory is the farmer's market house and he must travel until he reaches it and pay the freight all the way. Building factories in Texas to manufacture the raw material we produce will save the freight and increase the value of farm products.

The newspaper is the great industrial educator of the age and is the channel of communication between the producer and the consumer: it brings the city to the farm and the farm to the city; gives information of the markets etc., and reading the paper should be as much a part of the work of the Texas farmer as the feeding of his stock.

Texas now ranks first among the states in cotton production, and fourth in quantity of corn production. Under the stimulus of the twenty-nine big cash prizes offered by the Texas Industrial Congress, at Dallas, ranging from \$100 to \$2,500, for the best yields of corn and cotton, the state should take first place soon in the production of corn as well.

Fourteen boys and girls will receive from the Texas Industrial Congress this year cash prizes ranging from \$100 to \$1,000, for the best yields from two acres of corn and two acres of cotton. This is easy money, and every boy and girl in the state should write at once to the Congress at Dallas for particulars and entry blanks. It costs nothing.

The Brady Commercial Club has hit upon a novel and effective way of encouraging agriculture in that section and has set a precedent which may be established by other clubs throughout the State. The president of the club, Mr. S. S. Graham, has given 20 acres of fine agricultural land in McCulloch county to be used as an experimental farm by the Club, the farm to be placed under the special supervision of State Experimental Director, H. H. Harrington, of College Station. The railroad running into Brady have been induced through the Commercial Club to co-operate with the Club and \$800 has been raised by the Club for the industrial departments of these roads to carry on the work, and several hundred more has been pledged. The encouragement of agricultural production and the building of good roads have been foremost in the line of work laid out by the various clubs throughout the State for the coming year.

JEFFERSON'S PROSPECT—OTHER MATTERS.

Editor Jimplecute.—I have nothing more regarding the great things in store for Jefferson. Large bodies move slowly, therefore you dear people must wait, unless you are willing to put your shoulder to the wheel and push the wagon on. I am quite sure the "good things" I referred to in my last will eventually come. I don't think this is an instant where the wish is father to the thought. So you will have to wait developments.

I notice the Galveston News makes editorial mention of Mr. Rowell's bill to bond a railroad's intangible assets. If the railroads are required to pay tax on their intangible assets why should they not be allowed to bond them? Now if the roads should be allowed to bond this class of assets and default, a receiver appointed, what would he take charge of, and what would he sell and how would he make delivery? Then if all this cannot be done why should railroads be made to pay on something that is not really an asset—something that cannot be delivered. It may be my obtuseness, but I have always thought the law eminently wrong. If bonds are permitted to be issued, I question if a purchaser could be found for them. I cannot see how such bonds can be realized on. Anyway, I am glad Mr. Rowell has introduced the bill; this may more forcibly show the absurdity of the law requiring the tax.

There is one thing in politics I cannot understand—when two public men of the same political name, (I use name instead of faith) are diagonally opposed to each other—now each can be supported by the same voters. This may again be a case of my dullness. Yet this is the case; I do not understand why two republicans yet one stands for free trade and the other for protection; and the same of democrats. I notice Senator Culberson is decidedly against Senator Lorimer, while Senator Bailey is for him. Of one thing I am quite sure—Senator Culberson knows where his hat is. If no wrong had been committed, why do the friends of Senator Lorimer practice every means possible to prevent a vote. The eyes of the United States is today watching the actions of the U. S. Senate in the Lorimer case. Less things than that have caused new mounds in political graveyards. Lest we forget, read what the Galveston News has to say:

SENATOR BAILEY IN 1905 AND 1911.

Senator Bailey seems to be the leading or most active supporter of Senator Lorimer. It would really appear reasonable, considering the record made by Senator Bailey himself to expect him to be most active in the contention for Mr. Lorimer's exclusion. Mr. Lorimer is a republican who was enabled to secure election by the bribery of democratic members of the Illinois legislature. Senator Bailey is a democrat, and is fully informed touching republican politics and methods in Illinois, including the buying of voters as well as the bribery of members of the legislature. As a lawyer he must know quite well that the presumption is now against the accused man and that the burden of proof has been placed squarely upon him by the abundant evidence of vote selling and bribery.

But that is not all. Senator Bailey stands fully committed to this view of such cases. He led all the senators in the prosecution of Senator Burton of Kansas, and made in his speeches arguments which are directly contradictory of his strained arguments in favor of Mr. Lorimer. In the Burton case Senator Bailey was the man who dwelt upon the argument that the senate was the judge of the election and qualifications of its members and under its powers of expulsion was judge of how long they should remain. In the same speech he employed the words following: "The rule is different here, in the senate, from that which prevails in the courts. There is a safeguard for the liberty of the citizen; he must have his guilt established beyond a reasonable doubt. Here the rule ought to be that he must free himself from all appearance of wrongdoing beyond reasonable doubt."

These are the words of Senator Bailey of Texas in the Burton case five years ago. They contradict squarely his present contention for a different rule in the Lorimer case.

That is not all. Senator Bailey in the Burton case said: "Mr. President, we can not afford to be too tender with these questions, I would be the last man here or elsewhere to stain an honorable name by even proposing an unjust inquiry. But senators who do behave themselves ought not to rest under the shadow of a suspicion cast upon the senate by those who do not behave themselves."

No man who has read the testimony or who knows the facts can question for an instant that the election of Mr. Lorimer is tainted. A great majority of the people are fully satisfied that his election is a result of fraud. It has been shown that bribery was resorted to as a means of rendering his success possible. Not only is the presumption against him, but the known facts are against him. His is the very sort of election the people of this country are eager to condemn—all the more eager and determined because they know full well that the money of the interests has been permitted to talk all too long in the election of a number of members of the senate.

I trust none took exception at my suggesting dropping the word "old" when applied to Jefferson. I read its meaning—aged, worn-out, and so forth. Therefore the word is not suitable and does not apply to Jefferson, nor any other live and progressive city. It may be that's what the matter; you who have continued using the word as applicable to Jefferson, not thinking the word would take it literally and act accordingly.

W. T. A.
Clean Up Day.

In his final report of the Texas State Board of Health, Dr. W. H. Brumby, State Health Officer, gives the following pertinent injunction to Texas cities: "A good thorough cleaning of Texas cities in early spring will not only make it easier to keep Texas clean, but will be very conducive to good health."

March 11th has been set aside as official "Clean Up Day" and every city or town of any size in Texas is expected to take part in this State wide spring cleaning. In many towns the mayor appoints committees, assigning them to different localities or streets and the plan of having a thorough spring cleaning of our cities and towns is a preventative of disease during the summer months that follow, as well as a standing advertisement for the community.

Turn which way you will, the legislators down Austin way seem to be confronted by the Bailey question; all the correspondents agree as to that.

Where the trouble arises; and trouble there has been plenty—in men sacrificing their honest convictions to save a political friend, Mr. Bailey is committed unreservedly to the "wet" side, and yet "dry" members of the legislature place his political fortunes above all other considerations.

We would like to have a photograph of the man's conscience who can thus play fast and loose with his convictions.—Waco Times-Herald.

We fear these men have conscience too weak to make a shadow, if any at all.—Grand Saline Sun.

The soft "wets" and drys are too considerate of Bailey's interests ever to throw a free lance or serve their constituents in the good old way.

PLENTY OF PROOF
From People You Know—From Jefferson Citizens.

The greatest skeptic can hardly fail to be converted in the face of evidence like this. It is impossible to produce better proof of merit than the testimony of residents of Jefferson, of people who can be seen at any time. Read the following case of it:

T. K. Smith, Austin street, Jefferson, Texas, says: "Doan's Kidney Pills were a Godsend to me and it is my hope that other sufferers from kidney trouble will profit by my experience. I had kidney complaint for thirty years and during that time, I doctored and tried plasters and all kinds of remedies without benefit. A dull, heavy, pain in the small of my back was with me constantly, but the principal symptom of my trouble was sharp twinges in my loins. When these made their appearance, I could not move and at times everything turned dark before me. Three or four times at night, I was obliged to arise on account of too frequent passages of the kidney secretions. Soon after I began the use of Doan's Kidney Pills, I improved rapidly and it was not long before all trouble with my back and kidneys had disappeared. The cure has been permanent and I feel that I have every reason to be grateful to Doan's Kidney Pills. If anyone is desirous of having a confirmation of this statement let him write me enclosing stamp and I will reply."

PREDICTS PROHIBITION WILL CARRY IN TEXAS

Col. Cecil Lyon Says People Want It and They Usually Get What They Want.

Washington, Feb. 7.—It is the opinion of Col. Cecil Lyon of Texas that the Lone Star state will be carried by the prohibitionists at the next election. "About a quarter of a century ago," he says, "Texas decided against prohibition by over 100,000 majority. On the 22nd of next July the people will vote on the same issue, and I am of the opinion that this time prohibition will carry. The verdict may not be by a heavy majority, but it will be decisive. We have had the whiskey traffic stopped in most of the counties for a long while under local option, but the people never desisted in their efforts for state-wide abolition of the saloon, and what the people persist in they usually accomplish."

Congressman's Weekly stated recently that its editor contemplated writing a history of the horrors of Camp Butler near Springfield, Ill., in connection with the capture of Arkansas Post with 3200 prisoners, who held the post Saturday and Sunday against the "herculean assaults of the Vicksburg fleet, embracing a number of gunboats etc., and transports to convey 75,000 troops. It was a dearly bought victory by the enemy, whose loss comprised more than the number captured. The few survivors of the Post prisoners will long remember the 11th of January, 1863, and shudder whenever the horrible incidents of that eventful occasion come up for 'shivering' consideration. There was quite a contrast in the crowded condition of our men upon the transports, and the 'beautiful snow' falling like a pall and enshrouding the world with enchanting folds of glitter and whiteness—in contrast to the slush and freezing rebels aboard the crowded old stock boats. A history of Arkansas Post, its surrender etc., will be absorbing, coming from one so capable of accomplishing the desired results, and impressing the reader with all the details incident to the trials and horrible exposure to the elements of these unfortunates. But I await the promised production—and in the mean time trust it will come soon under his occasional 'leaf from memory,' or 'reminiscent flights,' a masterhand of rhetoric, logic and pathos, comprising all the elements of intellectual force and lofty creations of mind and matter.

The Jimblecute has received a copy of the Checotah (Okla.) Times, special Adair Revival number, of January 27th '11. SCHOOL IMPROVEMENT.
There is a decided improvement in the schools of Marion county. The majority of the white schools have grown in numbers, the attendance is better and more interest is manifested on the part of patrons. May such interest increase a hundred fold. It should increase until no father will allow his child to remain out of school, even for one day. Childhood is the time to gain an education; the remainder of life can and must be devoted to work. Do not deny your child his right; the right to become an educated citizen.

SUPPLEMENTARY READING.
Teachers should see that the pupils read the classics as outlined by the "Course of Study."

Pupils should be encouraged to read outside of school hours. The books can be obtained by having pupils purchase five cent classics.

The following is a classified list: First Year, Aesop's Fables, Story of Washington, Little Plant People.

Second Year, Boyhood of Washington, Wings and Stings, Stories from Grimm.

Third Year, Greek Myths, Puss in Boots, Story of Glass, Story of Franklin, Selections from Hiawatha.

Fourth Year, American Inventors, Whitney and Fulton, Story of Eugene Field, Stories of the Backwoods, DeSoto, The Great Stone Face.

Fifth Year, Story of the Norsemen, Story of Robt. E. Lee, King of the Golden River, The Golden Touch, History in Verse (Sheridan's ride, The Blue and the Gray, etc.)

Sixth Year, The Snow Image, Rip Van Winkle, Three Golden Apples, The Miraculous Pitcher, The Minotaur, Thanatopsis, The Pied Piper of Hamelin.

Seventh Year, Black Beauty, Courtship of Miles Standish, Evangeline, Snowbound, Robinson Crusoe, Hiawatha, Patriotic Poems.

Eighth Year, Enoch Arden, Vision of Sir Launfal, Corder's Saturday Night, The Deserted Village, Rime of the Ancient Mariner, The Merchant of Venice, Poems, The Chambered Nautilus, To a Water-fowl, The Ship of State.

Most of the above selections can be obtained from C. A. Bryant, Dallas Texas; price 6c post paid; or from Orville Brewer, Chicago, Ill., 5c post paid.

BOYS' CORN CLUBS.
The Boys' Corn Club movement has gained until it has become nationwide and is acknowledged by leading business men to be a work that will accomplish wonders in turning the tide of immigration back from the town to the country. This is as it should be; our cities are congested and valuable land is left uncultivated. In Illinois hundreds of boys compete for prizes offered for the best corn grown by a school boy.

Certain counties in Texas are encouraging the work. The teachers of rural schools should pay attention to the teaching of agriculture and encourage the boys to join the corn clubs.

TEACHERS' READING CIRCLE.
The books chosen by the teachers at the Institute can now be bought at W. J. Sedberry's. Nature Study, price \$1.00.

Send for them at once. Books must be read before the close of the scholastic year.

To Texas Prohibitionists.
It is highly important that county organizations be perfected on Saturday, Feb. 25, in accordance with the call of our State Committee. At these county mass meetings, county and precinct chairmen should be chosen and their names sent me at once. Every county should have active officials, as through them State Headquarters will work directly in the matter of organization, distribution of literature, sending out speakers and getting out a full Prohibition vote in July. Let Prohibitionists in every county and precinct actively interest themselves.

Precincts should either hold meetings before the 25th of February or be sure to have representatives at the county meetings on that date to aid in organization.

We will win our fight and drive the saloons from Texas in July next if Prohibitionists do their duty individually and collectively. The forces which stand for the open saloon, no matter upon what grounds they base their action, are thoroughly organized. To win we must have our forces organized and marshalled to meet them.

CITATION BY PUBLICATION.
THE STATE OF TEXAS, }
County of Marion, }
To the Sheriff or any Constable of Marion County, Greeting:
You are Herby Commanded to summon Isaac Knighton by making publication of this Citation once each week for four successive weeks previous to the return day hereof, in some newspaper published in your County if there be a newspaper published therein, but if not, then in any newspaper published in the 5th Judicial District; but if there be no newspaper published in said district, then in a newspaper published in the nearest District to said 5th Judicial District, to appear at the next regular term of the District Court of Marion County, to be held at the Court House thereof, in Jefferson on the 3rd Monday in April A. D. 1911, the same being the 17th day of April A. D. 1911, then and there to answer a petition filed in said Court on the 8th day of February A. D. 1911 in a suit, numbered on the docket of said Court No. 7889, wherein C. F. Moseley is Plaintiff and Isaac Knighton is Defendant, said petition alleging That one C. F. Moseley who resides in Marion County, Texas, and is the Plaintiff in this suit complaining of Isaac Knighton, whose residence is unknown, respectfully shows to the Court that Isaac Knighton did on or about February 7th, 1907, made, execute and deliver his promissory vendor's lien note to W. S. Ford for value received where he promptly paid to pay two years after date to W. S. Ford or order the sum of fifty dollars with 10 per cent interest per annum until paid and 10 per cent attorney's fee, if collected by an attorney or the Probate Court; said note is hereto attached marked and initialed A, and made part hereof. Plaintiff shows to the Court that said note was given as part payment of the purchase money for the following described land, situated in Marion County, Texas: Being a part of the A. De Los Santos Coy H. R. survey, beginning at a Bois d'Arc stake at the S. E. corner of the A. Haggerty tract in the A. De Los Santos Coy league survey, thence S 3000 yds to a Bois d'Arc stake; thence E 717 4-10 yds; thence N 300 yds; thence W 717 yds to place of beginning, containing 32 1-8 acres of land more or less. A vendor's lien was retained upon said land to secure the payment of said note interest and attorney fees. The original deed from W. S. Ford to Defendant is now in the possession of Defendant and he is notified to produce it or secondary evidence will be resorted to, to establish the same, which is recorded in Book H-1, page 379. Plaintiff shows to the Court that the said W. S. Ford for value received transferred said note to this Plaintiff and Plaintiff is now the owner and holder of said note and vendor's lien upon the land; the said Defendant is fully liable and bound to pay Plaintiff the full amount of said note, interest and attorney fees thereon in stated; that the same is long since past due and unpaid.

Wherefore Plaintiff brings this suit and prays for citation by publication and that upon final hearing hereof he have judgment for his said debt, interest and attorney's fee and for an order foreclosing his said vendor's lien upon said land and for an order directing the sale of said land and that the proceeds of said sale be applied to the payment of this judgment and that the purchaser of said land at said sale be put in possession of same and for costs and general relief.

Herein fail not, but have before said Court, at its aforesaid next regular term, this writ, with your return thereon, showing how you have executed the same.

Witness my hand and Seal of said Court, at office in Jefferson this 8th day of February, A. D. 1911.

Ballard's Snow Liniment
Is a Healing Remedy for All Ailments of the Flesh of Man and Beast.

The speed with which this splendid liniment heals up a bad wound or sore has surprised and pleased those who were accustomed to the slower and uncertain effect of less powerful remedies. It mends the lacerated flesh so quickly that there is but little time lost from work. In relieving rheumatic pains, neuralgia, sciatica, it has done and is doing a wonderful work. Many chronic victims of these diseases have found to their great satisfaction that it cures an attack in a fraction of the time required by the ordinary treatment.

It is equally effective in the flesh ailments of animals. Owners of blooded stock value it highly for two reasons. It heals sores and wounds quickly, and leaves no disfiguring scars. This remedy is needed in every home. If its great power and efficacy was generally known, no family would be without it.
