Mr. William Bond, formerly of Port Gibson, but now of St. Louis, located in the Catholic church Sunday night to a large audience composed of nominations. He spoke fluently and forcibly, making a very favorable impression on his hearers. During the day here he was the guest of his friends, Mr. and Mrs. Kelley.

OLD FOLKS' CONCERT.—The Euphony Club will give an entertainment at Odd Fellows Hall, Wednesday evening, April 12th, for the benefit of the white cemeteries. An attractive programme is in preparation, and the house will no doubt show the appreciation of this plan of raising money to put the cemeteries in

The Fur Trade.
Two or three Port Gibson merchants, in connection with their other business, buy all the furs that are brought in from the country. The total production of the county averages 2,500 a year, of which about 2,300 are skins of coon, 100 of minks, 100 of possums, 25 of wildcats, 25 of beavers, 30 of otters, and a few foxes. These are all shipped to wholesale dealers in St. Louis, Memphis and elsewhere, whence they are finally sent to London. That is the distributing point of furs for the civilized world, dealers from every quarter of the globe going there to make their purchases. Nearly all the coon-skins are taken by the Russian trade. Beavers and otters, once abundant in Claiborne county, are now scarce, and seem destined to extinction at no distant day. They were very numerous at the close of the war and for some time afterwards, having increased rapidly during the years 1862-'3-'4-'5, when they were little disturbed by hunters. Twenty or twenty-five years ago, considerable numbers of them could be found within two or three miles of Port Gibson.

MARRIED.
NEMSMITH-SCOTT.—At the residence of the bride's father, Sunday, 19th inst., Mr. Wm. Leggett to Miss Catherine Scott, by Samuel Nesmith, J. P.

Try BLACK-DRAUGHT tea for Dyspepsia.

A THREE.—Wednesday evening just after supper Powell Williams had occasion to go to his room, which is in the upper story. As he entered a man ran by him, rushing down stairs and making his escape. The room being dark, Powell could not see who the intruder was. Doubtless it was a thief who had hidden himself there for the purpose of robbery.

A Million Friends.
A friend in need is a friend in deed, and not less than one million people have found just such a friend in Dr. King's New Discovery for consumption, coughs and colds. If you have never used this great cough medicine, one trial will convince you that it has wonderful curative powers in all diseases of throat, chest and lungs. Each bottle is guaranteed to do all that is claimed or money will be refunded. Trial bottles free at Shreve's drug store. Large bottles 50c and \$1.

MILINERY OPENING.—The display at Heidenreich's store Tuesday, Wednesday and Thursday drew a large crowd, and attracted many purchasers. The decorations were beautiful and reflect great credit on the artistic taste of Mrs. Taliaferro and her daughters, Misses Pearl and Balmayne. This is the most elegant display of millinery goods ever seen in Port Gibson.

THERE BE MANY LIKE THESE.—Don't stop in the post-office doorway to talk or read papers; other people may possibly want to go in or out. Above all, don't plant yourself against the lock-boxes while the mail is being distributed—nor allow your interesting children to do the same. It is barely possible that other box-owners may want to go to their boxes without going to the trouble of grabbing you by the collar and dragging you away.

WALL PAPER.—Mrs. J. H. Gordon is agent for the largest wall-paper dealers in Chicago, and solicits the public patronage. The proceeds of this agency are to go the Methodist parsonage fund here. The prices are as low as can be found any where, and people who wish anything in this line should patronize this benevolent cause.

While working the roads near Paris, this county, last week, a young man, Mr. Flotchal, threw a shovelful of earth into the centre of the road, and as it burst apart out rolled six dollars and twenty-five cents, all in quarters and halves, U. S. silver coin. Our informant states that the earth is all torn up in that vicinity in search for another mine.—Oxford Eagle.

An act of vandalism was perpetrated Monday in the green parlor at the White House, which may result in closing all the parlors of the executive mansion against the public. Some one slashed the magnificently upholstered sofa and curtains so that repairs are out of the question, and a new suite of furniture will be necessary.—Jackson News.

McElree's Wine of Cardui and THEODORE'S BLACK-DRAUGHT are for sale by the following merchants in Claiborne county: J. A. Shreve, C. S. Mason, Port Gibson; M. B. Jones & Darden, Carlisle; D. D. Davenport, Hermanville.

Easter Fixings.
We have them here. Nobby Spring Clothing, fashionable Hats and exquisite Neckwear. Just notice the display of Easter Neckwear in our north window.

A Leader.
Since its first introduction, Electric Bitters has gained rapidly in popular favor, until now it is clearly in the lead among pure medicinal tonics and alteratives—containing nothing which permits its use as a beverage or intoxicant. It is recognized as the best and purest medicine for all ailments of Stomach, Liver or Kidneys.—It will cure Sick Headache, Indigestion, Constipation, and drive Malaria from the system. Satisfaction guaranteed with each bottle, or the money will be refunded. Price only 50c a bottle, at J. A. Shreve's Drug Store.

An Example to be Followed.
From one of the best-known drummers traveling on the Illinois Central railroad, and one who has been steadily in the business for more than twenty years, a Southern Press News correspondent has gleaned some interesting data relative to the condition of the country. As strange as some people may think it, not a carload of meat has been sold at either of the following places since December: Holly Springs, Oxford, Water Valley, Wiltona, Durant, Lexington, Pickens, Terry, Crystal Springs, Summit, McCumb City, Magnolia and O-syka. Not twenty per cent. of the meat has been purchased this year as heretofore. He finds more food in the country than at any time since the war, and says, but for the old debts hanging over the people, they would be in better condition than at any time since that date. As an illustration of what the people are doing, he cited the case of Ben Chambers, a worthy colored man living in Madison county, who had killed 5,000 pounds of pork during the past season, and a farmer named Staten, in Grenada, who killed 15,000 pounds, of which he sold 10,000 to the merchants of Grenada. He thinks the low price of cotton and the high price of meat a God-send; that something of the kind was necessary to teach the people they can and must make their own corn and meat at home.—Exchange.

McElree's WINE OF CARDUI for Weak Nerves.

The strongest recommendation that any article can have is the endorsement of the mothers of the town. When the mothers recommend it you may know that that article has more than ordinary merit. Here is what the Centerville, South Dakota, Citizens say editorially of an article sold in their town: "From personal experience we can say that Chamberlain's Cough Remedy has broken up bad colds for children. We are acquainted with many mothers in Centerville who would not be without it in the house for a good many times its cost, and are recommending it every day." 50 cent bottles for sale by Dr. W. D. Redus.

"The people of this vicinity insist on having Chamberlain's Cough Remedy and do not want any other," says John V. Bishop, of Portland Mills, Indiana. That is right. They know it to be superior to any other for colds, and as a preventive and cure for croup, and why should they not insist upon having it. 50 cent bottles for sale by Dr. W. D. Redus.

Let Others Follow.

The Clarion-Ledger has at last shut the door in the face of mendacious obituary writers who threatened to occupy all its space. The newspaper man can make no greater mistake than opening his columns gratuitously to the obituary fiend. When he does so they will be flooded with a mass of slush and drivels, nine-tenths of which is a repetition of stale phrases that were worn threadbare a generation ago.—Friar's Point Cohomian.

Irish Potatoes.

Mr. F. L. Maxwell was in the city to-day and states that he has already in the ground, eighty acres of Irish potatoes and will put in twenty acres more. The result of his experience in the last four years, is that the potato crop pays much better than cotton.—Vicksburg Post.

The cotton receipts at this point during the season of 1893-90 were 66,804 bales; during 1890-91, 70,784 bales; during 1891-92, 74,738 bales; and during the present season, up to date, 47,122 bales.—Vicksburg Post.

Paper teeth are now manufactured by a Lubeck dentist. One set has been in use thirteen years and is as good as ever.

Wm. Cahn is agent for A. C. Van Tine & Co., of New York, and the American Tailors, of Cincinnati, and has a beautiful line of samples from both of these well-known tailors. Come look at them and give him an order for a spring suit. Fit guaranteed.

DEAR SIR:—I am in receipt of a check of your society for \$15,000 in settlement of the policies on the life of my late husband. The proofs of death were forwarded from here Sept. 20, and I note your check bears date Sept. 25. It is due your company to state that you are the first company of four regular Life Companies and Six Assessment Orders, with whom my husband was assured, to pay my claim, and I thank you for your promptness.
Yours truly,
"He who acts quickly does double good," is an old adage. The promptness of the Equitable may be noticed not only in the above, but each month's report of claims paid show that check was sent in nearly every instance the day proof was received.
