local interest. The mill is splendidly equipped throughout, being furnished with the latest and best machinery.

LOST AND FOUND .- Last Sunday J. B. Moore, who lives on the Sprott place in going thence to the Lischer place lost a pocket-book containing \$102.95 in cash. The money was found in the neighborhood of the court house that afternoon by McGregor Jones, of Bat-on Rouge, one of the Chamberlain-Hunt students, and by him handed to Professor Guthrie. As Mr. Moore made no secret of his loss, the ownership was easily traced, and he was put into direct communication with the pocket-book on Monday, and the birds sang again in his sorrowing heart.

Mr. J. P. Blaize, an extensive real estate dealer in Des Moines, Iowa, narrowly escaped one of the severest attacks of pneumonia while in the northern part of that state during a recent blizzard, says the Saturday Re view. Mr. Blaize had occasion to drive several miles during the storm and was so thoroughly chilled that he was unable to get warm, and inside of an hour after his return he was threatened with a severe case of pneumonia or lung fever. Mr. Blaize in a short time he was breathing quite easily. He kept on taking the medicine and the next day was able to come to Des Moines. Mr. Blaize regards his cure as simply wonderful. The Human Electrical Forces

How They Control the Organs of the Body.

The electrical force of the human body, as the nerve fluid may be termed, is an especially attractive department of science, as it exerts so marked an influence on the health of the organs of the body. Nerve force is produced by the brain and conveyed by means of the nerves to the various organs of the body, thus supplying the latter with the vitality necessary to insure their health. The pneumogastric nerve, as shown here, may be said to be the most important of the entire nerve as shown here, it is supplies the heart, a lungs, stomach, bowels, etc., with the nerve force necessary to been them active and
