DAVID BOCK'S DEPARTMENT STORE, PORT GIBSON, MISS.

P. G. FEMALE COLLEGE.

Vacation Items of Interest Furnished by President Hawkins.

Through Miss Susie V. Powell, President of the Mississippi School Improvement Association, our College offered two scholarships of \$50.00 value each, to girls of rural schools who make the best shirt-waist and the best pair of hem-stitched handkerchiefs. The successful competitors were Miss Ora Floyd and Miss Maybell Parish of Jones county, both of whom attended the school taught by Mrs. Cora E. Graves.

Miss Clara Faulk of class '09 was a visitor at the College during commencement week. Miss Laura Hutchins and Miss Nona Belle Rush, two others of our alumnae, were entertained by the College during the recent commencement exercises of Chamberlain-Hunt Academy. We trust that all of our alumnae will visit the College often and that they will know that they are always welcome.

Mrs. Mahon of Utica has presented to the College a cannon ball, eight inches in diameter, and several specimens of petrified wood, the largest piece being a foot wide and a yard long. The cannon ball is a relic of the Civil War, some of Grant's forces having halted for a while near Utica.

Miss Marie Millikin of the class of '09 paid a recent visit to her friends in Port Gibson. Miss Millikin during the past session attended the Woman's Medical College of Philadelphia, Pa., where by her unique personality and Southern manners she attracted much attention. Out of a large class she was one of only a small number whose examinations at the close of the session entitled them to promotion to the class of the second year, the studies and requirements of the Medical College being very rigid.

Just before our recent Commencement our English Room, History, and Language Room had their interior walls re-painted and otherwise put in a prettier condition than they have ever been during the history of the institution. During the week following Commencement, the paper-hanger and painter resumed his work and now the College is in a neater condition all around, than ever before. Among many items, mention is

made here of the following: The retreat and the matrons' room re-calculated, Mrs. Hawkins' room and all of the rooms of the dormitory beautifully re-papered, dining-room and gallery floors re-painted.

The College herd of Jersey cows has been increased for next session by the purchase of three registered animals. The College has also purchased two young but fine and gentle horses, and it is hoped that Mrs. Hawkins will find time during the coming session to take our faculty and students upon some pleasant surrey rides in and near Port Gibson.

We have arranged for the session of 1910 and '11, a Lyceum entertainment course, consisting of five attractions, as follows: Ralph Bingham, impersonator; De Koven Male Quartette, Luther Manship, Professor M. W. Schwartz and Roney Boys of Chicago. All of these are of a very high class. The price that the Roney boys charge to come to a town is \$150. Professor Schwartz will deliver a lecture on "Virgil and the Middle Ages". The other four attractions are more particularly of the entertaining class.

Our institution is well represented in Europe this vacation. Miss Florine Levy of the class of '10, Miss Bessie Galloway, a former member of our faculty, and Dr. Dr. W. D. Redus, present physician of the College, are all touring in Europe this summer; but they are in different parties. Miss Levy is with the Times Democrat Excursion Party; Miss Galloway is with The Cook's Party; Dr. Redus is with a party of Shriners. All of them will witness the Passion Play at Oberammergau; and several European countries and capitals are in the itinerary of each.

A Frightful Wreck

of train, automobile or buggy may cause cuts, bruises, abrasions, sprains or wounds that demand Bucklen's Arnica Salve—the greatest healer. Quick relief and prompt cure results. For burns, boils, sores of all kinds, eczema, chapped hands and lips, sore eyes or corns, it's supreme. Surest pile cure. 25c. at J. A. Shreve's Drug Store.

Land, Stock and Crops.

E. R. Lloyd, Professor of Animal Husbandry in the Mississippi A. & M. College, has written the following letter to Dr. James F. McCaleb of Cold Springs Plantation:

DEAR DOCTOR:—In reply to your letter will say that the South-down is considered the best mutation breed of sheep. While they

are small, my limited experience with them leads me to think that they weigh more according to size than any breed I have handled. If I was going into the sheep business I would raise Shropshire sheep. They are larger than South-down and have a heavier fleece.

I do not know the "Improved Ky. Sheep you mention, but think the profit in sheep depends a great deal on the care they receive. If the sheep are fed during winter and are in good shape at lambing time, the lambs will be good size and grow off rapidly. Our people in the South have been taught to look on the sheep as a "Scavenger," and the sheep, in many cases, have been neither fed nor cared for in winter, and as a result, there was little profit.

It would take years to originate a new breed, and we would not know whether the breed would be any better than those we now have, until much money and time had been spent. I think, Doctor, we have breeds now well adapted to all sections of the world, and what we need most is men who understand how to feed and manage the breeds.

I think Col. W. B. Montgomery was right in advocating small breeds for NATIVE PASTURES, and rough, hilly sections, but in your section and many other sections of the state where splendid pastures can easily be made, I think the medium to large breeds will be profitable.

With best wishes, I am,
Yours very truly,
E. R. LLOYD.

Claiborne county should be an ideal hay country. Why, because we have the ideal seasons to make hay profitable—the latter half of April and first half of May in the spring, the latter half of September and the first half of October. To make the spring crop we must have such crops as crimson clover, red clover, vetches and oats, winter cover crops. For fall crops, pea meadow and lespedeza. By this system of hay farming we get the early spring or June and July market before the Timothy from the East and West, and the early December market with pea hay and lespedeza.

Those who do not get the credit for their farm work, get the cash for their farm work.

B. H. Shafer of Airmount Farm has sold for a good price the registered Hampshire boar pig, "Un-

cle Remus," to T. W. Wheat, McFall, Alabama. "Uncle Remus" is sired by Mississippi Duke, Dam Mississippi Belle, and is splendidly grown for his five months of age.

Napoleon's Grit

was of the unconquerable, never-say-die kind, the kind that you need most when you have a bad cold, cough or lung disease. Suppose troches, cough syrups, cod liver oil or doctors have all failed, don't lose heart or hope. Take Dr. King's New Discovery. Satisfaction is guaranteed when used for any throat or lung trouble. It has saved thousands of hopeless sufferers. It masters stubborn colds, obstinate coughs, hemorrhages, lagrippe, croup, asthma, hay fever and whooping cough and is the most safe and certain remedy for all bronchial affections. 50c and \$1.00. Trial bottle free at J. A. Shreve's Drug Store.

W. C. T. U.

A lightning convention, at which one hundred lady delegates spoke at the rate of one speaker per minute, met in Glasgow, Scotland, June 3-10. Two hundred and thirty Women from the United States crossed the Atlantic Ocean to attend it, and other women came long distances—from Australia, New Zealand, India, Egypt, Madagascar, Syria, South Africa, Japan, China, Korea, Norway, Sweden, Holland, Germany, Switzerland, Canada, England and Scotland. The great audiences completely filled the different places of meeting: The Town Hall, the John Street United Free Church and St. Andrew's Hall.

On June 5, one hundred and twenty-five pulpits in Glasgow were filled by the delegates. Surely on that day gospel temperance had its say.

Probably the most picturesque meeting of the convention was the children's demonstration. Several thousand children marched in procession to the Town Hall flying banners and accompanied by bands of bagpipers and fifers in Highland grab. In the hall there was chorus of five hundred children to lead in the singing, and when all in the hall were singing, great was the sound thereof. The children vociferously cheered those who addressed them. All of which recalled the saying: "Tremble, King Alcohol, we shall grow up."

The convention stood for prohibition of the manufacture and sale of alcoholic liquor for beverage purpose; the enfranchisement of the women of all nations as a measure to suppress the liquor traffic; food reform as a preventive and cure for inebriety; active opposition against all forms of State or municipal recognition of an equal standard of morality for man and woman; the name White Slave Traffic to be changed to Women's Slave Traffic,

so as to include colored races; peace and arbitration instead of war campaigns of education for temperance.

A special resolution was passed against the sale of opium and intoxicants to native races. Also a resolution was passed asking that the Conference of Nations at the Hague use its influence to induce Great Britain to release opium treaties with China, and thus make it possible for the Chinese to liberate their country from the opium curse.—Mrs. Wilbur F. Crafts.

TRUE WOMANLY BEAUTY.

No woman can be truly beautiful who has a yellow complexion caused by a torpid liver. To be beautiful a woman must have good health, and this can be accomplished by occasionally using St. Joseph's Liver Regulator (either liquid or powders, as you like best.) It keeps the bowels open, passing off the poisonous, effete matter, and in this way purifies the blood and assists in clearing the complexion. All women should occasionally use St. Joseph's Liver Regulator. Liquid, 50 cents a bottle; powders, 25 cents a box.

Sanatorium for Gloster.

Gloster, Miss., July 14, '10.
Editor of Reveille, Port Gibson:
As an evidence of our appreciation of the kindness shown us in promoting our enterprise, we have decided to donate to the State Press a \$500 lot, that they may erect a home at "The W. O. W. Health and Pleasure Resort," and enjoy the health-giving waters, cool nights free from mosquitoes, the cool shady groves, bathing, boating and fishing. The Woodmen of the state will soon begin the erection of an up-to-date sanatorium for the benefit of its members. There will be a hotel, auditorium and a 20-acre lake constructed, and such other facilities as may seem necessary for the promotion of the comfort and pleasure of visitors. The resort is capitalized at \$200,000, and work has already begun on its improvements. We hope soon to have the editors' home built

Fraternally,

O. P. McPHERSON.

Soreness of the muscles, whether induced by violent exercise or injury, is quickly relieved by the free application of Chamberlain's Liniment. This liniment is equally valuable for muscular rheumatism, and always affords quick relief. Sold by all dealers.

A CARD.

So many buy their preserves, jams and jellies that I am constrained to ask for some orders in this line. I have had about 18 months' experience since my mother's death, and, though quite young, think I can please the most exacting taste. We have an abundance of Japan plums, peaches and berries now—later, figs and pears. By this means I can help my father who has to work so hard in his unfortunate condition to make a living. This is my prompting desire, and will appreciate any orders. ANNIE LAURIE BOLLS.
