

Poor Richard Junior's Philosophy.
Saturday Evening Post.

A corkscrew is not the only symbol of hospitality.

The man who buys a gold brick hates to feel lonesome.

One of the joys of wealth is the right to preach the virtues of poverty.

When you mark a letter, "Please Burn This," post it in the fireplace.

A man will let go his religion before he parts with his respectability.

JINGLETTS AND JOKELETS.

I'd rather be a "has been"
Than a "never was" but his
Are the honors and the profits
Who can claim to be an "is".

Yet of all the fine conditions
Here on earth it seems to me
That his case is most delightful
Who is still an "is to be."

"The grand jury that indicted me,"
Said the grafter, "was grossly prejudiced."
"How was it prejudiced?"
"By the evidence, of course."

A chap out of work up in Michigan
Said: "I wish I had my posichigan.
With my salary back
I could ride in a hack
And could buy all the things that I
Wichigan."

Mrs. Oldboy (trenchantly)—But
You said you would gladly die for me.
Oldboy (calmly)—True, my dear,
But I had reference to my hair and
Whiskers.

Oh, I was rich beyond compare,
I had all mankind could acquire,
But, shucks, just then some one yell-
ed out:
"Get up and start the kitchen fire!"

"Poetical license is all right," re-
marked the observer of events and
things, "but what the country most
needs is a license for poets."

There was a young man in Schobarto
Who madly loved Kitty and Carrie
But each was so rich
That he couldn't tell which
Of the two girls he wanted to marry.

Parks—How did the ship come to
be against the rocks?
Barks—Why, a young man was
courting the lighthouse keeper's
daughter and they absentmindedly
turned the light down low.

Mr. Clint G. Ford, who has been identified with the very foremost dramatic attractions, including Gillet's "Secret Service Co.," "David Harum," "The Clansman," etc., has this to say of Newbro's Herpicide:

"For years I was annoyed with dandruff and itching of the scalp, all due to my twenty years of theatrical life, with its incumbent 'make-up' and wig wearing. At times the itching of the scalp was intense. All remedies failed me until I tried Herpicide, and I soon found that it was giving wonderful results. The itching and also the dandruff entirely ceased, and my hair resumed its natural life and vigor.

"There is no question in my mind about the reality of the dandruff germ, and I unhesitatingly recommend Herpicide to my friends in the profession."
(Signed) CLINT G. FORD.

NEWBRO'S HERPICIDE

Extravagant claims for toilet remedies do not influence theatrical people, because long experience enables them to discriminate intelligently. They demand merit, and will rarely use a preparation that is not actually worth as much or more than it costs in dollars and cents.

Herpicide kills the dandruff germ, and by actual test does more good than all other hair remedies combined. This accounts for its popularity in theatrical circles.

"Queen Roselle" writes of Newbro's Herpicide

"I take pleasure in announcing the very satisfactory results I have had from the use of Newbro's Herpicide. My hair was falling out so rapidly that I was afraid I would lose it all. A friend advised Herpicide, and, after using it faithfully, my hair stopped falling out, the dandruff disappeared, and my hair is now very soft and glossy.

I would like to see every lady of the profession try Herpicide, for I am confident that they would be delighted with it."

Right Paint at the Start

Pure White Lead and Pure Linseed Oil should always be used for the first or priming coat. No other paint has the same affinity for the surface—marrying and becoming a part of the wood.

Yellow ochre, barytes, zinc or any other substance than Pure White Lead fails to unite with the wood and serves only to form a cushion, which will prevent even Pure White Lead from attaching itself when finally applied.

Satisfactory results can never be obtained so long as a surface is coated with a veneering (for that is all it is) of yellow ochre, barytes, zinc, etc. Such a coating is bound to crumble, crack and peel, and must be scraped or scraped off, down to the wood itself, before a good job can be done—an expensive process, and not without danger of fire.

A house owner can scarcely make a more costly mistake than to use a substitute for Pure White Lead in the priming coat. Avoid all risk by using

COLLIER Pure White Lead
(Made by the Old Dutch Process)

Send for a booklet containing several handsome reproductions of actual houses, showing desirable appearance for a white surface in painting your house. A test for paint purity is also given.
