

"Satisfying"

If we wished to express in one word the secret of the success of our Soda business, we would say it is because our Soda service is "satisfying"—There is nothing that makes any business grow faster than to have customers leave your store "satisfied"—They come again and bring others. Every detail of our Soda business is studied with a view to "satisfying" our customers, electric fans all over the house, ABSOLUTE CLEANLINESS, the purest and best products for our syrups and Ice Creams, three experienced Soda-Water men to look after your orders. We are enjoying the largest Soda-Water business we have ever had, but we can always make room for a few more. We may be some distance from you but it will pay you to take the extra walk.

If you haven't subscribed for the Sales Day prizes get in the season now. This is going to be a great event for the town and you want to be recognized with it.
A Herald man had the honor today of meeting Prof. von Streeruwitz, consulting engineer and analytical chemist, here in company with Mr. Chas. Sanger, and the two left on the noon train for the oil fields in the county. The Professor volunteered information that there was no oil through this country, and that only needs developing.

Project Is Abandoned.

The project of adding another story to the Lindell Hotel, putting in elevators, has for the present been abandoned. Col. Geo. W. Burkitt, who came up from Houston, bringing exhibits with him, and it was decided the improvements would prove entirely too expensive for the additional income that naturally be expected.

Psychological Moment.

That's the time when a man actually obtained, you sit in a coffee cup before you, and you all alert, inhale its fragrance, participate its ripe deliciousness, no man sell you a substitute, you should lose the charm and the moment fraught with rare goods, 2 pound cans symmetrically and sold by HOOKER & CO.

Have you see the new stylish Street Hats at the Misses Brazelton's, Dry Goods Co.?

Mexico Excursion.

The I. & G. N. R. R., in connection with the National Ry. of Mexico, announces a popular low-rate excursion to quaint Old Mexico September 10, 11 and 12, on account of the Fall Festivities.
The celebration of September 15th and 16th is always on an elaborate scale, and this year it is announced it will be even grander than ever. September 15th is President Diaz's birthday, and September 16th is the anniversary of their independence day—two of the biggest days in the Republic.

It comes just at the end of their rainy season, which makes travel in Mexico at this time delightful. The average temperature in the City of Mexico during the month of September is 62 degrees, and you need a light wrap or overcoat every evening.

Tickets at extremely low rates will be sold at all points in Texas to Mexico City, Celaya, San Luis Potosi, Durango and Torreon, good 30 days for return, and to Saltillo and Monterey, good 10 days for return, with stop-over privileges in both directions.

At Laredo you change your money to Mexican currency, getting \$2 of their money for \$1 of ours. It is therefore the cheapest trip one can take, and there is certainly none more interesting.

Misses Brazelton are now prepared with a very select line of Millinery. Gage and other new styles of street hats are now ready for inspection. Miss Rose Elste from the North is with us. 30-4t
