HUNDRED AND SIXTEEN POSSIBLY PERISHED

AS A RESULT OF SINKING OF THE STEAMER CITY OF PANAMA ON NEW YEAR'S DAY.

Special to the Herald.

San Francisco, Jan. 5.—One hundred and sixteen persons are believed to have perished on the steamer City of Panama, which is thought to have gone down a short distance north of Santa Cruz on New Year's day while in route to anchor. Waddell, Cal., reports finding four life rafts fully provisioned which came ashore there. A severe storm has been raging, which gives strength to the report that the vessel has been sunk. It is thought hardly possible that any occupants of the rafts escaped. It is possible that the wreckage washed from the ship, which proceeded on her way to the Isthmus of Panama, but it is believed if the boat had been badly damaged it would have returned to this port and not gone on.

The cabin passengers included thirteen persons, besides some children, and twenty-five Chinese and twenty whites in the steerage.

The Panama left here Monday morning for Mexican ports. If she is wrecked it is believed to have been due to a boiler explosion or some trouble with her machinery. The vessel was built in 1873, and was two hundred and fifty feet long by twenty-six feet wide, and was the oldest boat being operated by the Pacific Mail Steamship company.

A. W. Nelson, master, occupied the same position on the Manchura, which ran ashore near Honolulu.

SENATOR LODGE BACKS PRESIDENT

WILL DISCUSS CONSTITUTIONAL QUESTION INVOLVED IN DISMISSAL OF NEGRO TROOPS.

Special to the Herald.

Washington, Jan. 5.—Senator Lodge on Monday in the senate will discuss the Brownsville affair with reference to the president's constitutional right to dismiss the colored troops. He claims there can be no question of that right. There is no doubt that most of the senators disagree with Lodge's position and lean toward Foraker's position.

INTERURBAN LINE IS INCORPORATED

J. W. WATKINS AND ASSOCIATES TAKE OUT INCORPORATION PAPERS FOR THE LINE.

Austin, Texas, Jan. 4.—Articles of incorporation by the Central Texas Traction company of Corsicana were filed today. Capital stock, \$50,000. Purpose, to construct an interurban line from Corsicana to Palestine, a distance of seventy-five miles. Incorporators, J. V. Watkins, W. T. Medders and A. E. Firman.

Mr. Watkins has been working on this line for the past two years, and spent much time in this city conferring with members of the Board of Trade and other citizens. For the past few months very little has been heard of the proposed line, but it would seem from the above telegram that Mr. Watkins has been steadily at work, and now has his proposition in good shape. This line, if built, will be a valuable one to this city and county.

BOMB THROWER IN A NATIONAL BANK

CASHIER OF FOURTH STREET NATIONAL BANK, PHILADELPHIA, KILLED—OTHERS INJURED.

Special to the Herald.

Philadelphia, Pa., Jan. 5.—A bomb thrown by an unidentified man shortly before noon today, in the Fourth Street National bank, killed W. C. McLearn, assistant cashier, and injured twenty clerks in the bank.

The explosion wrecked the building. The anarchist demanded \$5000 from President Rushton of the life insurance company on a certain policy. He was told to await his turn, and a negro porter ushered the stranger out of the private office. The stranger placed a package on the floor and stood silent. Suddenly a terrific explosion occurred. McLearn and the stranger were found dead; their bodies had been blown to pieces.

William Krup, the negro porter, was found writhing in agony, with half of his face blown away, and both eyes blown out. He was terribly burned.

T. A. Hoshboch, an employe in the bank, was badly burned, and may die. Many others were cut by glass and were covered with flying debris. A slight fire followed the explosion.

The police took charge of the vaults and securities.

Prosperous England.

Special to the Herald.

Washington, Jan. 5.—William Whittman, Jr., reported to the department of commerce today that on a recent trip to England to investigate the cotton trade. He said:

"For two and a half years every branch of the British common trade has been profitable, and this led to unprecedented mill building. This is bound to intensify competition in the foreign markets, when all the machinery is working. American manufacturers will have to fight more strenuously than ever before, if Americans expect an increase in trade."

The leading dry goods and furnishing merchants of the city will close their business houses on the same schedule as last year. The stores will close at 7 o'clock on regular week days, excepting Saturdays and the night before and after the 1st and 14th of each month. The same holidays as were observed last year will be observed this year by the stores closing all day.

The buying public is urged to take notice of this announcement, and do their shopping accordingly. Shorter hours mean a great deal to the clerks, and bosses who stand on their feet all day and try so hard to meet your wants and give you good service. Let the buyer do his or her part by not asking the store to keep open after regular hours.

GOING AFTER THE DELINQUENT TAXES

THE COUNTY COMMISSIONERS HAVE PASSED AN ORDER TO COLLECT BACK TAXES.

The county commissioners have determined to collect all delinquent taxes due the county, or know the reason why, and an order was passed at an extra session to that effect yesterday.

Messrs. Wright & Wheelock of Austin, who make a specialty of this work, have been retained to collect these taxes.

A commissioner, speaking to a Herald man yesterday, said that wherever it can be done these taxes will be collected without suit, but whenever necessary suit will be brought, judgment secured and the property levied on for the taxes. In this way the State and county will be made richer by from \$50,000 to \$75,000.

This work will be taken up with as little delay as possible.
