THURSDAY, SEPTEMBER 16, 1909.

WEATHER FORECAST.

Tonight and Friday cloudy and continued cool weather.

SEPTEMBER 16 IN HISTORY.

- 1812—Burning of Moscow during the occupation of the city by Napoleon's army.
- 1823—Samuel L. Southard of New Jersey became secretary of the navy.
- 1830—Geo. B. Prescott, who introduced the quadruplex telegraph into America, born in New Hampshire. Died January 18, 1894.
- 1832—Boundary line dispute between New York and New Jersey was settled.
- 1864—A McClellan meeting in the Lindell Hotel, St. Louis, was broken up by a party of Union soldiers.
- 1875—Galveston, Texas, visited by a fearful storm of wind and rain; the city was inundated.
- 1893—Cherokee strip, 6,072,754 acres, opened for public settlement.
- 1901—Henry B. Whipple, P. E. Bishop of Minnesota, died at Faribault, Minn.

WHAT IS A DEMOCRAT?

The outlook is that we are to have some better light on this question as a result of a series of debates scheduled for this state. Mr. Bryan, who has been followed by the party for the past many years, spoke in Dallas Tuesday and gave his sketch of a democrat and what was necessary to maintain the democratic organization. His platform is entirely out of harmony with the Bailey brand, and because this is so the Texas senator has announced that he will answer Mr. Bryan's propositions in Dallas Saturday. Bryan believes that a democratic office-holder is under obligation to obey his instructions, to follow the program of the party platform; he also believes democracy is for free raw material and opposed to any kind of a protective tariff. Mr. Bailey takes the opposite view of both questions. Mr. Bryan has said that he never started a fight that he was not prepared to finish. Bailey has got to fight or surrender, and surrender to him would mean political retirement, something Bailey does not even remotely consider. And there you are. There will be a big difference of opinion as to the question of free or protected raw material. The producer will most likely cling to his idea that protection for his raw material is a good thing, while the consumer, who is the larger class, will line up for free duty on raw material as well as on all products, excepting, possibly, the luxuries of life. The matter of obeying instructions can be decided but one way, and that is the Bryan way. If Bailey's attitude is correct then the individual becomes the party and the organization is nothing. We shall hear much of the discussion at hand.

A few rains like that of last night and the fall gardener can get busy. And the water question will be settled for the present.

ALL GOOD SUBJECTS.

WO SHOWS7:45 and 9 P. M.
ADMISSION 5c, 10c, 15c

The flower yards and streets have been sprinkled, the dust is settled, the hot weather is routed, and everything is perfectly lovely around here.

None of your washout, chunk moving rains, but just a fine gentle rain that put the dust demon down and cooled the atmosphere. East Texas is most fortunate.

Ringling Bros.' big circus and the 101 Wild West Show are billing Texas towns, and will make the circuit of the larger cities. The wild west show has been in the state several days and Ringling will come in the latter part of the month. So far neither have billed Palestine.

Texas is likely to become the battleground on which the democratic issue will be fought out. The issue hinges on free raw material as against protected raw material. There is another most important matter raised in this discussion, and that is regarding the binding qualities of instructions to officials. This question is sometimes ignored or lost sight of by the politicians, but every man who seeks nomination at the hands of the party should be required to go on record on this point. Without such obligation there is no need of an organization.

CAUGHT SOME WATER

Waterworks Ponds Were Raised a Few Inches By Last Night's Rain—Outlook Good.

Col. Tom Cronin reports that the old waterworks lake was raised several inches by the rains last night, and that at the new works the pond was raised about three inches. This new lake is much larger than the old, and it takes a quantity of water to raise it an inch. Prospects for more rain are good, and it is hoped there will be no more trouble because of the shortage of water.

WEATHER FORECAST.

Published By Authority of the Secretary of Agriculture.

For Palestine and vicinity:
Tonight and Friday cloudy and continued cool weather.
Minimum temperature, 70.
Maximum temperature, 88.
Precipitation in last 24 hours, 1.16 inches.

Weather Conditions.

The high pressure and cool area which was over Nebraska yesterday has moved southward and now covers the central Mississippi valley and southwest. It has caused cool weather over those districts, the lower lakes and Tennessee and Ohio valley. Rain fell in the past 24 hours in the entire cotton belt, middle Atlantic states and Ohio valley; dry conditions have ruled in other districts; over one inch fell in Texas. It was raining at 7 a. m. in North Carolina and New York. A low pressure area over Florida will cause the high pressure to drift in that direction, thus continuing cool weather in Texas for about two days longer. Over the entire southwest and northwest the temperature range is between 42 and 52 degrees.

G. Hass Hagen,
Official in Charge.

QUAKER MEDITATIONS.

Most good fellows are only that way away from home.
The mutual friend of an engaged couple has a hard row to hoe.
When things go wrong the hand of fate generally has a finger in the pie. Life may be one grand, sweet song, but to the apartment house dweller it is written in A flat.
There is only one thing that bores a woman more than flattery, and that is not to be flattered.
The fellow who was weighed in the balance and found wanting probably forgot to drop a cent in the slot.
Lots of men feel that they could fill President Taft's shoes, but they forget that they would also have to fill his waistcoat.—Philadelphia Record.

TWO KILLED IN TRAGEDY

Man Slays Woman at Fort Worth and Then Ended His Own Life—Eye-Witness Tells the Story.

Fort Worth, Sept. 15.—After talking to the woman over the telephone for half an hour or more, Charles Eason, employed in the Congress barber shop on Main street, proceeded about 7 o'clock Tuesday evening to the home of Mrs. J. H. Doughty, at 314 Florence street, and after quarreling with Mrs. Jessie Gable, to whom he had addressed his remarks over the telephone, fired one shot into her back and fled up the stairway, and after emptying the remaining four bullets of the 38-caliber revolver into her body as it lay at the foot of the steps, drained the contents of a two-ounce vial of carbolic acid and produced another revolver, fired one shot into the wall and then turned the muzzle of the weapon to the center of his forehead and pulled the trigger. He fell and died almost instantly, with one hand across the body of his victim, who lived several minutes, but died before a physician rushing to the scene in a taxicab could reach her.

Jealousy is the only cause assigned for the desperate act, which makes the third killing and suicide in this city in the last twelve days. According to the story of Mrs. Doughty, who was the only eye-witness to the double tragedy, it is evident Mrs. Gable feared Eason would kill her, and when he reached for his pistol after she had refused to accompany him out to supper, the woman ran from the hall, in which they were standing, into a front room and then through the back of the house into the rear hall door, where she attempted to ascend the stairs to her room. But she was too late. Eason, who had followed her through several rooms of the house with the pistol in his hand, knocked the glass out of the door, which had been slammed by Mrs. Doughty, and shot the fleeing woman just as she placed her foot on the third step of the stairs.

NOTES OF SPORT.

With the Ball Players.

The Chicago Americans have released Pitcher Flene to the Minneapolis club.
Cy Seymour has come back to life and is hitting and fielding nicely for the Giants.
That's a real battle between Milwaukee and Minneapolis for the American Association pennant.
If Fromme and Gasper continue to improve the Cincinnati Reds will have two star fingers next season.
Pitcher Browning, the San Francisco crack, should make good in Detroit. He is the Pacific Coast sensation of the season.
George Gibson is making a swell showing with Pittsburgh. He has caught nearly all the games the Pirates have played this year.
Collins of the Athletics, Egan of Cincinnati and Miller of Pittsburgh are three of the best youngsters of the season, and all second basemen.
Now that the Tigers have hit the road, will they continue the fast going. If they do it's good-bye Philadelphia and Red Sox for sure.
President Johnson says that the present season has been the greatest known in the history of the American

EIGHT KILLED IN WRECK

Catastrophe on the Nashville, Chattanooga and St. Louis Railway Near Nashville.

Nashville, Tenn., Sept. 15.—As the result of a head-on collision between a passenger train and a fast freight on the Nashville, Chattanooga and St. Louis railway, one mile west of Peggam station this morning, eight men were killed and one seriously injured and fifteen others slightly hurt.
The cars caught fire and several of the victims were cremated.
The wreck was caused by the overlooking of orders.
No passengers are reported killed.
The dead:
Will Morgan of Nashville, traveling engineer, body burned.
Joe Gower, Nashville, engineer on the passenger train, body burned.
Jesse Tarlington, engineer on the freight, body burned.
Walter Roach, messenger, body burned.
Sam Whited, fireman on freight, body burned.
S. B. Walt, head brakeman on the freight.
W. S. Statecap, mail clerk, Martin, Tenn.
F. T. Bailey, mail clerk, Martin, Tenn., body burned.
Ellis Martin, conductor on the freight, was badly injured.
Both engines were completely wrecked. The dead and injured were brought here at noon.

MAY BEGIN ON TRINITY

State Reclamation Board Is Ready For Work—Captain Stiles Arrived in Austin Wednesday.

Austin, Sept. 15.—Captain Arthur Stiles, state levee and drainage commissioner, reached here today from Washington, and announced that the work of reclaiming Texas lands by the construction of levees, etc., will begin at once. He found over thirty applications from different sections of the state that want the work to begin in their respective districts. He said this will be settled at a meeting of the drainage board to be held this evening. He will advise the board to commence work in those places where an organization has been effected, and where the people are able to carry on the work. He indicated that work may be commenced at the forks of the Trinity river in Rockwall and Dallas counties, as already their drainage districts are in shape. He announced that the federal government had approved the contract made with Texas to carry on the work.

WHAT A COUNTRY BOY CAN DO.

Eleven Year Old Boy Demonstrates That a Boy Can Make Money.

John Murphy, aged 11 years, son of J. C. Murphy, has shown what a country boy can do toward making money on the farm. This year John made 3 1-2 bales of cotton on land that his father could not use. In his spare time, besides helping his father on the crop, he hired himself out and made \$75 additional. This, counting the cotton weighing 500 pounds to the bale, at 12 cents per pound, is \$275. The cotton seed at \$18 would bring about \$31.50, making his time which was turned into money \$306.50.
This makes the boy \$25.50 per month the year round and do considerable work on his father's farm also. We think that this would do credit to a good farm hand and it is phenomenal for a boy.
Let others follow the good example set by this youngster.—Tyler Courier Times.

INDIGESTION

A Disorder that Breeds Disease in the Body, and an Easy Way to Cure it.

Take care of the stomach and you will have little need for the doctor.
When the stomach begins to show signs of disorder; when the food digests slowly and with discomfort; when you have heartburn; feel bloated and uneasy, you are in a condition that needs attention.
Prickly Ash Bitters corrects the disordered stomach by strengthening and toning up the digestive organs, driving the badly digested food into the bowels and thence out of the system.
Constipation is nearly always present when the stomach becomes sour or disordered. Prickly Ash Bitters contains the medicinal qualities which act as a restorative and regulator for the stomach and bowels. It strengthens the digestive organs, cures constipation and prevents the return of bilious conditions.
Thousands of people who have received lasting benefit from this great remedy willingly testify to its power in curing indigestion, constipation and kidney trouble.
"I suffered from constipation for years, and tried many remedies, but Prickly Ash Bitters is the only medicine that has ever done me any good. Through its use I am now in good health and entirely free from all traces of my former trouble."—B. P. STRANGE, Winnsboro, Louisiana.
